

REP. HENDERSON'S BRIDGE PROJECT MATERIALIZES

DURHAM PEOPLE PROFIT BY PLAN

Great Bay to be Crossed
by Span at Fox Point—
Self-Supported
by Toll

by Phillip Merriam
After having worked continually for the past four or five years on the Great Bay Bridge Bill, "Dad" Henderson has at last seen his work materialize as Governor Winant last week signed the bill.

Rep. Henderson

House bill, number 23, which calls for the expenditure of \$1,250,000 for the construction of a new bridge across the Piscataqua river at Fox Point, new highways, and the purchase of the present Dover Point toll bridge, was introduced by Oren V. Henderson, registrar of the University and representative from Durham to the General Court. The bill came after a commission, appointed in 1929, had studied the matter of the new project and presented its report to the present session of the legislature.

The people of Durham must fully realize the tremendous advantages to the University that this bridge will afford. It will mean a cement highway leading from Durham to Portsmouth. The city of Portsmouth will be but nine miles distant. It will be another trading center for Durham.

The time required to motor to the seacoast and to Massachusetts will be greatly lessened. There will be a fine, wide, smooth highway from Durham to the Newburyport turnpike.

N. H. Poems Sent to World's Fair

Book and Scroll, the University of New Hampshire's literary society, is contributing to the anthology of college verse which is being compiled in manuscript to be exhibited at the World's Fair in Chicago this summer.

The University will be well represented by the following poems: *Petition and Weariness* by George Abbe; *Liza and Portrait* by Shirley Barker; *Renunciation of Joy and Thoughts on Relativity* (College Woods) by Richard Clarkson; *Virginia* by Theodora Libbey; and *Return* by John Starie.

Portrait, Thoughts on Relativity, and Virginia were published in the Student Writer for 1932.

LEWIS OBJECTS TO COLLEGE AID CUT

Faculty Seriously Affected
by Drastic Measure—
Extension Service Re-
moved if Cut Made

President Edward M. Lewis of the University of New Hampshire early this week filed protests with New Hampshire congressmen against measures proposing the elimination of federal appropriations for land grant colleges and extension research work.

Dr. Lewis informed the congressmen that if the reported plans are carried out over one hundred members of the University of New Hampshire's faculty would be seriously affected; and in addition to this, useful extension work and important research projects would be removed from the college curricula.

President Lewis was one of a group of New Hampshire's prominent men interested in the political welfare of the state. Among the members of this group who objected to the proposed bill were Andrew Felker, Commissioner of Agriculture in New Hampshire; J. C. Kendall, Director of the New Hampshire experimental station; and George M. Putnam, president of New Hampshire's Farm Bureau Federation.

Governor Winant recently sent a direct appeal to President Roosevelt adding his name to the list of objectors who are against the college aid cut.

Representative Rogers of New Hampshire, acting in behalf of the state Congressional delegation, recently sent the objections of the New England Agriculture leaders to Lewis Douglas, director of the budget. Rogers informed Douglas that a number of protests have been received from numerous farm organizations and that the New Hampshire congressmen including Senators Keyes and Brown, and Representative Tobey had instructed him to express their opposition to such action.

STUDENT LOAN FUND INCREASES DEMANDS GREAT

Cogswell Awards—S. Locke
Scholarship Totals \$3700—
Nearly \$10,000 Endowed
Scholarships Available

DEFERRED TUITION
LOANS TOTAL \$20,000

Freshmen Use \$14,800 of
Possible \$16,775 for
Scholarship Aid

by E. Shenton
According to a statement released by Dean Pettee, scholarships, loan funds, and deferred tuitions have been drawn on to the limit as the University of New Hampshire strives to assist needy students in continuing their scholastic careers.

Over a period of four years there has been little change in the number of students registered in the University, yet student assistance has increased nearly twenty thousand dollars in that time. The depression has had its effect on New Hampshire college men in an increasing amount of state aid required.

During 1932-33, Deferred Tuition Loans have amounted to \$20,350, of which more than half was utilized by members of junior and senior classes, while the freshman and sophomore classes used smaller sums. However, freshmen monopolize the State Scholarship grants, holding \$14,800 out of a total \$16,775 in scholarship.

Cash Loans this year amount to \$26,578. These cash loans increase from year to year, for at an interest rate of 5 per cent they accumulate to a greater sum each year.

Endowed Scholarships this year reached a high point of \$9,192, thanks to greater funds available from the usual gifts and investments, as well as several new endowments. The Cogswell and S. Morris Locke scholarships, new this year, amount to \$3700.

The following is a table of student financial assistance, giving a comparison of this year with the last four years:

Year	Deferred Tuition	Scholarships	Total
1929-30	\$14,293	\$26,286	\$40,579
1930-31	16,675	24,815	41,490
1931-32	18,443	25,635	44,078
1932-33	20,350	25,967	46,317

Year	Cash Loans	Grand Total
1929-30	\$13,997	\$54,576
1930-31	18,034	62,520
1931-32	16,646	60,724
1932-33	26,578	74,279

Pro and Con of Co-Educational Institutions Discussed by Students

by Harriet Towle

Co-education, whose centenary is soon to be celebrated at Oberlin College, was the first type of women's higher education in this country, and today is the dominant one. Only in the Eastern states does the segregating of men and women into separate colleges persist. A survey was made recently by the *New York Times* of fourteen representative colleges in both groups; and although nothing conclusive was found, the varying points of view were most interesting.

The main argument of students at the various women's colleges was that the absence of men placed more emphasis on the intellectual side of a girl's life, and develops greater initiative and independence in her. On the other hand, co-eds combatted this point by stating that despite the social interference of men classmates, the girls are stimulated to greater intellectual endeavors by the very fact that they must show themselves at

their best to their classmates. Girls at women's colleges scorn the more meticulous dress of co-eds and the super-emphasis they place on social events. They say co-eds never voice their opinions in any meeting, that they merely follow the lead of the men.

Co-eds, however, believe that greater importance should be attached to learning how to live happily and successfully with men and becoming more stable emotionally, than to having a thousand and one extra-curricular activities of a more intellectual nature.

"The main object of women's education, as I see it, argues President Woolley of Mount Holyoke, is to develop the powers of the individual to the utmost." The separate college, I think, accomplishes this better in that women have more chance for initiative than in co-educational institutions.

NUDD RECEIVES M.I.T. FELLOWSHIP

Former U.N.H. Honor Student
of Class of 1930 Wins
Mathematics Research
Position

According to an announcement made recently by Dr. Hermon L. Sloan, professor of Mathematics at the University of New Hampshire, Philip Nudd of Hampton, who graduated from the University in the class of 1930, has been awarded a \$500 Fellowship by the Massachusetts Institute of Technology.

While at Durham Nudd, a member of Delta Chi, honorary mathematics fraternity, held highest honors in the University chapter of Phi Kappa Phi, national scholastic honorary society. After graduating he became engaged in research work for the General Electric Company in Schenectady. He returned to the University in 1932, obtaining the degree of Master of Science.

Lion's Club Is Organized Here

Organization of the Durham Lion's Club took place Tuesday night at a dinner in the College Inn under the direction of Larry Slates of Chicago, special representative of the Lion's International.

Twenty-one members were admitted and election of officers resulted with Bradford W. McIntire as president. Other officers are as follows: first vice-president, A. P. Steward; Secretary-treasurer, Prof. A. W. Johnson; Lion-tamer, G. C. Peterman. Charles Wentworth, R. W. Daland, Philip H. Ham, John H. Simpson, and Percy G. Burrows were named to the board of directors.

A delegation of four members of the Manchester Lions was in attendance including, Sherburne Marshall, district secretary; Carl Thurscher, Mat Reynolds and Walter Bailey.

The Durham Club is the second club to be formed in New Hampshire during the past three weeks. A short time ago Mr. Slates supervised the formation of a club at Hillsboro.

RENOVATION OF NESMITH TAKES FOUR MONTHS

Victorian Style Changed to
Coincide With Other
Buildings on
Campus

BUILDING FIRST
ONE ERECTED HERE

Agricultural and Botany
Departments Will
Use Hall

Interior and exterior renovation of Nesmith Hall, begun last December, is fast approaching completion after four months of work.

The contractors have extended every effort in converting the ugly Victorian style to a type of utilitarian beauty which will better coincide with the other buildings on campus. Those who have inspected the renovated structure acclaim it to be far superior to the old edifice both in appearance and facilities.

The stone bearing the name "Nesmith" has been placed in the center of the balustrade between the two flights leading up to the entrance. This 4-ton granite block has a considerable sentimental value attached to it, since it is a part of the original building.

The entrance of the building is attractive, and opens into a hall, which in turn, has offices opening from it.

In the basement there are several storage rooms in which will be kept supplies for the various departments in the building. A photographic room and dark-rooms are also in the basement for the use of the instructors and advanced students. A door leads outdoors from the rear of the storage space to provide an easy entrance for supplies.

Dr. Butler has his office and a private experiment laboratory on the first floor opposite a suite of rooms which will be Dean Eastman's offices temporarily, but will later be converted into a library for the Department of Agriculture. A large room in the rear of the first story will house the general botany laboratory and lecture room. This room will have a seating capacity of 36, and is well lighted by numerous windows. The room is high posted and supplied with cabinets, chairs, and long tables. The usual overhead pendant lights are supplemented by desk lamps equipped with daylight bulbs.

In the front of the building will be the pathology and histology laboratory, in which the old equipment has been retouched, and new soap-stone sinks installed. A small storage room is adjacent to this laboratory also. Dr. Slanetz will have his office and private equipment laboratory on the second floor.

In the rear of the second floor there will be a bacteriological laboratory newly equipped with the most modern and convenient appliances. There is a seating capacity of 24, and each student will have his own light, water, gas, and set of drawers for his materials. Connected with this will be a small preparation room containing a water still, electric ovens, and space for storage.

The Agricultural Economics lecture room will occupy the whole front of the third floor and the experiment room will take up a corresponding

BROWN ADDRESSES DURHAM ART CLUB

Miss Ryan Initiates Local
Organization After
Conversation With
Mrs. MacDowell

AIM TO SUPPORT
NH ART RESORT

Program for Year Mapped
Out as Group Opens
Activities

"Do We Want Creative Minds in America?" was the subject of the challenging talk which Mr. Rollo Walter Brown of Cambridge, Massachusetts, gave on Thursday evening at the initial meeting of the newly formed MacDowell Club of Durham. Meeting at the Red Tower as a temporary club-house, the members assembled for a buffet supper in the dining room and adjourned to the music room for the program.

The MacDowell Club was formed as the result of correspondence between Mrs. Edward MacDowell of Peterborough and Miss Agnes Ryan, chairman of the club. The purpose of the club, it was explained, is to help keep alive and further the creative arts by means of exhibitions of art, concerts, lectures, plays, discussions and less formal salons. The club plans to hold three major meetings each year and hopes to bring even a small amount of support to the artists' colony at Peterborough, which for over twenty-five years has been offering a haven for harassed composers, painters, poets, playwrights and other creative workers.

Before introducing the speaker of the evening, Miss Ryan expressed her appreciation of the large membership and the enthusiasm of the people who joined. She reminded the audience of the world's dependence, especially in times of trouble, on the work of the musician, the artist, the poet, the playwright, the story-teller.

The tentative program outlined for the year is as follows: April 20, "The Creative Mind" by Rollo Walter Brown of Cambridge; May 27, "Pilgrimage to Peterborough" by guests of Mrs. Edward MacDowell, Peterborough; June 30, An Outing in charge of Mr. Clark Stevens, Durham; October 16, Recital by Mrs. H. H. A. Beach, New York City and Hillsborough; November 16, Exhibition by Mr. H. H. Scudder and Mr. Thorsten Kaljarvi of Durham; De-

SENIORS PICK SPEAKERS FOR COMMENCEMENT

SMITH SPEAKS ON ECONOMICS

Gives Second Lecture in
Christian Work Series—
Topic "Economic Causes
of War"

Mr. H. W. Smith, head of the Economics department of the University of New Hampshire, was presented last Monday at the Community Church by the Christian Work Association, which is sponsoring a series of lectures on national and international topics.

During his lecture on "The Economic Causes of War" Mr. Smith said, "Any event or any history which happens at the present time is the result of a great many different causes. Economic causes constitute one of a list of causes." Continuing, Mr. Smith listed the Economic causes as follows: "Pressure of population on part of those countries which seem over-populated, while other countries are very intent on stopping the increase in population; the desire to find a market for all the exports while at the same time these merchants refuse to allow a market for imports; the question of foreign investments and the attempt on the part of the governments whose citizens have made poor investments to collect the principal and interest by military and naval pressure."

"The United States put on a tariff affecting our best customers among other nations which in turn raised their own tariff thus shutting off the sale of our exports. Even the United States has been guilty of using the marines for the protection of American citizens' investments in foreign countries."

"It is not a hopeful picture for the future of mankind. In order for a race to live without national economic friction, it is necessary that the race gather all peace machinery possible to avoid world disaster."

SENIOR DANCE FRI., JUNE 16

McGowan, Chamberlain,
Abbe, Griffith, Dawson
to Address Seniors
Commencement

Speakers for the sixty-second annual Commencement Exercises and Class Day were chosen at the last Senior class meeting. The following will deliver the addresses: Address of Welcome, Lawrence McGowan; Class History, Gertrude A. Chamberlain, Class Will, Charles R. Dawson; Address to Faculty and Alumni, George Abbe; and Ivy Oration, Robert Griffith.

President McGowan, Fairhaven, Mass., has been prominent in campus activities. He is a member of Scabbard and Blade, honorary military organization, a member of the Blue Key, and Phi Mu Delta fraternity. He has also been engaged in athletics and has been awarded varsity letters in football.

Gertrude A. Chamberlain of Manchester is a member of Kappa Delta Sorority, President of the Association of Women Students and an active member of Cap and Gown Society.

Charles R. Dawson, Claremont, is a member of Theta Chi fraternity. He has been active on social committees, a member of Alpha Chi Sigma, honorary chemistry fraternity, and a winner of a scholarship in that department. He was vice-president of his fraternity and a member of Delta Chi, honorary mathematics society.

George B. Abbe, North Guilford, Connecticut, was chosen as the state representative for the Rhodes scholarship to Oxford. He is the first man to receive this nomination by the University of New Hampshire. He has gained prominence as a writer, member of THE NEW HAMPSHIRE and a contributor to *The Student Writer*.

Robert F. Griffith, of Nashua, is a member of Phi Mu Delta fraternity and is past president of the International Relations Club and Y. M. C. A. He is editor of THE NEW HAMPSHIRE and a member of the varsity debating team the past two years.

The Commencement Ball will mark the close of the social year. It will be held on Friday evening, June 16. The following day will be set aside for the annual class day activities and will conclude with a senior banquet.

Development of Social Sciences Is Big Problem, Says Dr. Wilbur

by James Burch

"Outstanding among the problems of the university is the development of the work in the social sciences," states Dr. Ray Lyman Wilbur, upon his resumption of presidential activities at Leland Stanford University, after four years in Washington as Secretary of the Interior.

Through the columns of the *New York Times*, he emphasizes the importance of the social sciences in modern education as follows: "It is imperative that an effort be made to see whether the same understanding and controls can be developed in the social sciences as have been used so brilliantly in the physical sciences. Research, with resultant discoveries in chemistry, physics, mathematics, and biology, has been put actively to work in building much of our present civilization. Dependable facts have been set in order and used in the day to day work of the world."

"There has been a sense of security and stability in their use. We have learned to depend on the expert in such a field as electricity and to support him in the practical application of known knowledge. The great question is: Are there ascertainable facts which will lead to the discovery of universal laws which can be similarly used in the field of collective human action? How far can the study of psychology carry us? How sure are the so-called laws of economics? Is there any way for us to pre-judge and manage mass human action and mob hysteria?"

"We need to find in the field of social science methods which will approximate in their results what we have been able to do in the field of public health and preventive medicine. Through the applications of medical science it has been possible to maintain good personal and public health in large cities, in formerly pest-ridden areas such as the Panama Canal

463 vs. 1555

With a grand total of only 463 votes cast in the primaries of the Student Council elections, the junior and senior candidates were chosen for the election tomorrow. Of over fifteen hundred possible votes only about thirty per cent. were exercised. We do not blame students for feeling that their votes are insignificant as individuals; we often have a similar attitude.

However, the recent pledge signed by the fraternity group agreed to refrain from politics. Whether or not politics has entered into this election is not for us to say. But if the possibility of a combine is to be avoided fully, the students must vote. If eighty per cent. of the student body would do so, any combine would be hopelessly defeated with the present haphazard method of campaigning.

Combine or no combine, every man and woman on this campus should feel it his or her duty to vote. After all it is your money that is being spent and it is to your benefit to see that it is spent according to your principles. This is your college, and it is your duty to see that student affairs are managed for the best benefit of all the students. Cast your vote on Friday. It is symbolic of your principles, your opinion, and your judgment.

STUDENT COUNCIL ELECTIONS

Yesterday saw the premier of the newly devised preferential primary voting system for student council elections. Comments from undergraduates indicate that they are heartily in favor of the plan. We are glad they are satisfied that the Student Council has at last solved the serious problem of elections. We feel it is a step forward for a better student government at the University and extend our congratulations to the present Council for their action.

One remark which was heard by a passer-by, incidentally a member of THE NEW HAMPSHIRE staff, gave us light on the attitude which some students assume at elections. The remark by the young lady was "What is the use of voting?" We almost agree with her. What is the necessity of voting if political combines have controlled the result? We feel, however, that this student has assumed an unfortunate attitude if she is interested in the welfare of the undergraduate body.

We are of the opinion and others no doubt have expressed the same feeling, that if we are to have a good strong student government at this University it must come from the action of the students alone.

Of the sixteen students nominated we feel that a capable student council could be elected. But again it is up to you and you alone to see that the more capable students are elected to the highest office the University undergraduate body can bestow upon their fellow students.

DEBATING

Debating has always been poorly supported by the students of this campus. On the occasions when the varsity meets teams from other colleges in Durham, Professor Cortez has been compelled to ask his classes in Public Speaking to attend so that the debaters might at least have a small audience.

At Convocation several valuable things were discovered. Listening to a debate is not a bore; it is even interesting. Moreover, to our surprise, the students were quite pleased with the proceedings. The material presented was well-organized and ably presented and showed that the members of the team were conversant with the subject.

Misses McLeod and Gage deserve considerable credit for their presentation of the negative side. Likewise, Mr. Griffith and Mr. Eiseman should be complimented on the splendid manner in which they upheld the affirmative. Professor Cortez, director of forensics at this University, has reason to take considerable pride in his work. No doubt he has had reason, also, to feel discouraged previously. The attendance at the varsity debates, as we have said, has been almost nil.

It was gratifying to witness the reception which was accorded to the debaters by the student body. We believe that with the understanding of forensics which we now have, the varsity team will be ably supported in the future.

—by E. S.

BLONDES, KARL MARX AND COLUMBIA

The effrontery of college students to imagine that they have a right to read, think or write about questions that are before the public today!

Columbia does just right in expelling its radical newspaper editors, the University of North Carolina is perfectly right in forbidding certain radical speakers to appear on the campus, and what could be more fitting than a padlock for an Ann Arbor bookstore that would offer for sale books by Karl Marx, Norman Thomas, and Upton Sinclair?

We must not encourage the idea of gaining information on all sides of a subject, and, furthermore, students' heads should not be bothered with such things. Their thoughts should be confined to the prospects for the football team or the blonde that sits in the front row of the English class.

The Oklahoma Daily.

ON TAKING THINGS FOR GRANTED

It is our firm belief that the students of the University take the statements which they receive from their instructors and textbooks too much for granted.

This matter of fact attitude which the students have assumed is an unfortunate one for both student and instructor. The condition at present is such that it is entirely possible for a professor to conduct an hour class without a question on the part of the students as to the authenticity of the textbook statements. Why not consult the opinions of many authors on the same subject, carefully weigh each, and make your own deductions? But we doubt the value of accepting without question each and every statement of a sole author who might possibly be prejudiced in his writings.

Would it not be more advantageous for the professor to assign a few students at each class a list of authors that would give them numerous opinions on the assigned material in the textbook? We maintain that this would give the entire class a very comprehensive picture of the material. We should return to the condition where students accept little and question much. Lead us from the calm, peaceful, routine manner of classroom procedure. We are paying for a college education why not get the essentials while here.

NINE VETERANS FORM BODY OF LACROSSE SQUAD

Christensen Declares That Prospects are Bright for Successful Season

VARSITY LACROSSE STARTS APRIL 29

Ten Frosh Work Out Daily With Varsity Squad of Twenty-Eight

Due to the fact that there is no game scheduled for this week, the varsity lacrosse squad may be able to get in some much-needed practice before opening the season with the strong M. I. T. team on April 29. No regular practice has been held for over a week, due to the inclement weather. However, the squad has been keeping in shape by daily road-work.

The game scheduled with Dartmouth for last Saturday has not been definitely cancelled, as negotiations have been opened with the Dartmouth A. A. to arrange for a game later in the season.

Coach Christensen is building a strong aggregation around a nucleus of nine lettermen: Abbiati, Batchelder, Chaloner, Dane, Ferrini, Greenwood, Martineau, Morrissey, and Vaughan. There are also several men from last year's squad who are showing considerable promise in the few practice sessions which have been held. Among this group are Andrews, Bowman, Hall, Jacques, Lewis, Moriarty, Sikoski, Trow, Wilde, and Grinnell. Among those candidates who have reported for the squad for the first time, and are lacking experience are Armstrong, Downs, Maxwell, Morse, Smith, Soutance, B. Tower, Tuxbury, and Twitchell. There are ten freshmen who work out daily gaining working with the varsity, and although they will not take part in any games this season, they will gain considerable experience for next year.

Coach Christensen declares that the prospects appear bright for a fairly

FRESHMAN TEAM FACES SANBORN

Coach Lundholm Unable to Name Starting Lineup—Weir, Gaw or Welsh to Start on Mound

Unless there is a radical change in weather conditions before the end of the week, Coach Carl Lundholm's freshman baseball team will be forced to postpone its opening game of the season, which is scheduled for Friday. Bracket Field is submerged under nearly six inches of combined mud and water, and prospects for a good playing surface for Friday's game with Sanborn Seminary are rather dubious. However, Coach Lundholm will make every possible attempt to get his squad into shape for a game if it is at all possible. As yet he is absolutely undecided as to his starting lineup, and has not even been able to hold a single practice session for one of the outfield groups.

Practically the only activities which the freshmen have been engaged in during the past week are the board talks which Lundholm has been giving for the benefit of the infield candidates. Lack of any batting practice has handicapped the squad tremendously, but the Kitten mentor is confident of fielding a strong club on Friday. The starting pitcher will be chosen from among the four leading candidates, Weir, Gaw, Welsh, and Churchill, although condition will figure heavily on the final choice.

successful season, although the Wildcats are undertaking the most ambitious schedule which has ever been arranged for a New Hampshire lacrosse squad.

The majority of the opponents namely, Brown, Dartmouth, Union, Williams, Springfield College, and the Boston Lacrosse Club, have been represented by lacrosse clubs for a number of years, and consistently turn out strong teams. While M. I. T., Tufts, and Boston University are equally as inexperienced as New Hampshire, the sport has made rapid progress at these institutions.

M. I. T. opened its season impressively a week ago last Saturday by defeating B. U. 10-0, while last Saturday they lost a close game to a surprisingly strong Tufts outfit, 2-1. As the result of these games, Coach Christensen is anticipating a hard battle with the Engineers.

Renovation of Nesmith Takes Four Months

Sports Slants

by Jimmy Dunbar

Old King Winter's parting salute nearly handed a knockout blow to the University of New Hampshire's spring sport program. Starting off by forcing the postponement of the opening lacrosse match, the old monarch followed this by muzzing up all plans for the intra-mural track meet. Add to that the fact that all of our teams, varsity and freshman, have been kept inside for the past week, and you have a slight idea of the havoc his untimely reappearance created on our fair campus.

Among our fellow sufferers from this latest freak of nature are the big league ball teams, particularly the Boston Braves. Forced to cancel an entire series with the Giants, they were so handicapped by the lack of a real workout that all the dynamite was removed from their bats in the opener with the Phillies. We join with them in a hearty plea for a few rays of sunshine.

In looking over the athletic awards for the past week, we notice that three freshmen accomplished the very rare feat of earning two sets of numerals in one term. Bill Weir, Pederzani, and Landry were the three who did this. They climaxed a successful season with the Kitten hockey squad by reporting for Pal Reed's freshman boxing team, and supplying the necessary color to bring that sport to an exciting finish.

Incidentally, Pederzani seems to be slated for his fourth set of numerals, if his early showing on the freshman baseball squad is any indication of his ability in the great national pastime. If your memory has failed you, we beg to remind you that "Pet" was an ace on the Frosh football squad last year. If this stellar athlete continues in this manner, his string of N. H. sweaters will make even a George Owen cringe with envy.

According to the latest dope from our sports department, hot tips on this year's Kentucky Derby will be available at this office until the day of the race. We pick Ladysman to win, place, or show, so write out your ticket on that at your earliest convenience. And if you want a real find at the ponies, don't overlook Captain Red to show. Incidentally, if you

of Agriculture. There will be modern lavatories on the third floor and in the basement.

Nesmith Hall was the first building to be constructed on this campus, being completed in 1893. It was named after George W. Nesmith, who was President of the Board of Trustees 1877-1890.

Remodeling of this building was carried on according to plans drawn up by Professor Eric T. Huddleston, head of the University Architectural department.

We are still hoping for that first spring event, but even the track meet, scheduled for Saturday is rather a doubtful issue, while Hanover reports on the postponed lacrosse opener fail to offer any encouragement. It looks as if we will have to stick to our indoor sports for another week. Fortunately Easter and its more or less customary celebrations is a thing of the past. And did our staff have a headache? Now we ask you—

SPORTS LETTERS AWARDED BY A.A.

Awards Given to Thirty-Seven Athletes in Boxing, Basketball and Hockey

At a recent meeting of the Executive Committee of the Athletic Association varsity letters were awarded to thirty-seven athletes in basketball, hockey, winter sports, and boxing, while nineteen freshmen received numerals in hockey and boxing. Awards to varsity rifle team, varsity and freshman relay, and freshman basketball were not taken up at this meeting, but will be taken up at the next meeting which will be held in the near future.

Letters in varsity basketball were awarded to: Capt. E. G. Gormley, Lancaster; B. H. Koehler, Manchester; K. K. McKiniry, Kearsarge; P. C. Walker, Providence, R. I.; B. B. Trzuskoski, Terryville, Conn.; H. Demers, Manchester; A. E. Toll, Manchester; R. C. Funston, Schenectady, N. Y.; A. R. Armstrong, Plymouth, Mass.

Letters in varsity hockey to: Capt. T. A. Nowak, Exeter; G. E. Abbe, North Guilford, Conn.; H. E. Angwin, Concord; G. P. Bachelior, Concord; D. E. Bowler, Milford; C. H. Grocott, Nashua; R. E. Maxwell, Manchester; W. T. McDermott, Concord, Mass.; L. M. Partridge, Keene; J. E. Steffy, Providence, R. I.; and W. M. White, Hampton.

Letters in boxing to: Capt. P. E. Dearborn, Tilton; C. J. Ahern, Charlestown; E. S. Lincoln, Enfield; W. L. Lucinski, Nashua; A. S. McCaughey, Nashua; F. B. McGrath, Manchester; F. R. Moody, Penacook; and K. R. Philbrick of Rye Beach.

Numerals in freshman hockey were awarded to: J. Corosa, Nashua; E. D. Gaw, Arlington, Mass.; H. K. Gouck, Andover, Mass.; D. H. Hazzard, Berlin; R. A. Landry, Laconia; R. T. Mannion, Concord; A. E. Mitchener, Fremont; G. A. Pederzani, Nashua; J. A. Robinson, Antrim; Capt. W. F. Schipper, Portsmouth; W. F. Weir, Melrose, Mass.

Numerals in freshman boxing to: E. Davis, Dover; J. J. Finn, Newfields; P. Holt, South Lyndeboro; W. Kimball, Derry; H. Mountain, Berlin; R. Shuman, Dover; W. Weeks, Laconia; D. Yaloff, Laconia; R. Landry, Laconia; G. A. Pederzani, Nashua; and W. F. Weir of Melrose, Mass.

Managers who were officially awarded letters for work this year: J. H. Hutton, Manchester, Varsity Basketball; S. B. Palmer, Stonington, Conn., Freshman Basketball; R. A. Pillette, Whitefield, Varsity Hockey; R. W. Main, Manchester, Freshman Hockey; C. E. Ferry, Manchester, Varsity Boxing; R. P. Morin, Manchester, Freshman Boxing; K. Sawtelle, Gorham, Me., Winter Sports.

WARK GIVES OUT SPORT PROGRAM

Intramural Track Meet to be Postponed—Baseball Entries Received—Leagues Formed

New Hampshire's spring intramural athletic program received a setback with the advent of the snow, which forced the cancellation of the track meet scheduled for last Saturday. David Wark who is in charge of intramurals this spring declared at an interview earlier in the week that an effort will be made to hold the track meet later in the season, but that no varsity or freshman team members would be allowed to compete, unless the meet is postponed until after the close of the regular track season.

Every fraternity on the campus has entered a team in the intramural baseball flag race, according to a report received from Wark. This year a new system will be used to divide the teams as equally as possible. Instead of two leagues as there have heretofore been, this season there will be four. There will be three leagues containing four teams, and one league

TRACK OPENING HERE SATURDAY

Sweet Hopes for Better Condition of Field for Northeastern Meet—Work Out at Exeter

With Memorial Field deeply covered with slush and water, the varsity and freshman track teams were forced to suspend practice and the intramural track and field meet scheduled for last Saturday was indefinitely postponed. The possibilities of a varsity track and field meet to be held on Memorial Field have become increasingly remote with the continuance of bad weather conditions.

In an interview early this week, Coach Paul C. Sweet stated that he had called out the team for practice again. He has put the runners to work on nearby cinder sidewalks and the shot putters to practice in the rear of the gymnasium near the rifle range. A small group of hurdlers, pole vaulters, high and broad jumpers are getting in a little practice at the indoor cage of Phillips-Exeter Academy. The discus, hammer and javelin throwers will evidently take an enforced lay-off until conditions improve.

Coach Sweet further stated that the meet with Northeastern will not be postponed until the last minute. There will be no opportunity for try-outs this week; if a meet is actually held, selection of the team will be based upon the estimation of the coaches of the showing of the men thus far this season and on performances of candidates in previous seasons.

Students Loan Fund Increases—Demands Great

(Continued from Page 1)

From this comprehensive table it is possible to trace the increase of student assistance, and the sources from which the aid came. It is particularly evident from the total amounts loaned, that the University is doing its bit to remedy conditions and help its members.

with three entrants. The preliminaries and semi-finals will consist of one game, while the finals will be a series of two out of three games. The number of points which will be awarded are as follows: Entering 50 points, League winners 7½ points, Finalists 15 points, and the Champions receive 20 additional points.

BASEBALL LINEUP ANNOUNCED BY COACH SWASEY

Six Sophomores Assured of Starting Positions on Varsity if Weather Permits Game

McGraw and White Share Mound Duty

Toll receives Call Over Veterans for First Base—Hanna, Graffam Start

Coach Swasey announced today that there is very little likelihood of opening the baseball season against Worcester Tech on Saturday, however, he gave out the probable starting lineup for New Hampshire if it is possible to play the game. The contest will be cancelled if playing conditions prevent its taking place Saturday, as the arrangement of the schedule would prevent the game being played before the first of June.

There has been very little outdoor practice, and the lack of adequate batting practice will undoubtedly prove a great handicap in the early season games. The battery men and infield candidates have been working out in the gymnasium daily, and Coach Swasey took his infielders and catchers to the Exeter Academy cage for a little more intensive drill.

There are six sophomores in the starting lineup as announced by Coach Swasey earlier in the week. Toll, a sophomore has an edge on Trzuskoski and Paine, both lettermen for the first basing job. Grocott and Walker at second and shortstop respectively, have been practically assured of their jobs since the opening of the practice sessions. Graffam, a veteran, has an edge on Ellsworth, another sophomore, as long as his hitting keeps up on a high level. There is a possibility that Ellsworth may be moved to the outer garden to strengthen the outfield.

The veterans, McGraw and White, will divide the pitching assignment for the opening game, one hurling five innings and the other four. There is a possibility that Targonski may appear on the mound in case either of the two named should lack effectiveness. Koehler, veteran shortstop, has been converted to a pitcher and has been coming very well at his new position. McGraw, White, Targonski, and Koehler will be the mainstays of the mound corps.

Another aid to business ... a Teletypewriter "Central"

Working out new ways to serve the communication needs of the public is an objective always in the minds of Bell System men. The new Teletypewriter Exchange Service—typing by wire—is an example.

For some years Private Wire Teletypewriter Service has speeded communication between separated units of many large organizations. Telephone men— anxious to make this service more widely useful— have now established Teletypewriter central offices, through which any subscriber to the service may be connected directly with any other subscriber. Both can type back and forth—their messages being reproduced simultaneously at each point.

This new service provides fast, dependable communication and does for the written word what telephone service does for the spoken word. It is one more Bell System contribution to business efficiency.

Psi Lambda

There was a meeting of Psi Lambda last Thursday at the Practice House. Three members who have been out practice teaching gave short talks on their experiences. These girls were Florence Bartlett and Florence Woodward who have been teaching in the Rundlett Junior High and Concord Senior High schools in Concord, New Hampshire, and Dorothy Smith who has been teaching in Manchester Central High school, Manchester, New Hampshire. All three girls taught courses in cooking, home-making and home-nursing.

Ten members of the freshman class are to be initiated into Psi Lambda on May 10. They are Constance Caldwell, Winnifred Carlisle, Barbara Fuller, Isabelle Hermes, Dorothy McLaughlin, Nathalie McLaughlin, Nettie Maynard, Eleanor Mitchell, Olive Roberts and Frances Tuttle. These girls have received an average of 75 for two consecutive in all their subjects.

There is to be a banquet at the Commons, May 10. A special attempt is being made to have the alumni of the Home Economics Club and the later Psi Lambda organization attend. Initiation of new members is to take place at the banquet.

Alpha Xi Delta

The new officers for the coming year are: President, Caroline Smith; Vice President, Margery Phillips; Secretary, Elizabeth Farmer; Treasurer, Gladys Clement.

Mrs. Dwight H. Hall, patroness of Alpha Xi Delta, entertained at her home in Dover the members and patronesses of Tau Chapter last Wednesday evening, April 12.

Miss Charlotte Atwood, Alpha Xi Delta Alumna, was a week-end guest at the chapter house.

The Misses Marion Jacobs, Nathalie Stevens, and Constance Hazen attended the Middlebury formal dance at Middlebury, Vermont, last week.

Alpha Chi Omega

Miss Janice Kimball, class of '32, was a week-end guest of Alpha Chi Omega.

Kappa Delta

Mrs. Louis R. Bryant was a dinner guest of Kappa Delta Thursday evening.

Mrs. Elbridge A. Shorey is being given a formal dinner tonight by the girls of Kappa Delta in honor of her birthday.

Theta Upsilon

Miss Ruth Witham, Secretary of the Association of Women Students, is attending the Inter-Collegiate Association of Women Students at Cornell University, Ithica, New York.

Mr. Paul Grigaut and Mr. Robert Webster were dinner guests Wednesday evening, April 14.

Pi Lambda Sigma

Epsilon of Pi Lambda Sigma elected the following officers for the coming year: President, Helen Henry; Vice President, Eleanor McGrail; Secretary, Anna Thompson; Treasurer, Jane Slobodzian.

Phyllis Moran, graduate student, attended the Education Convention in New York last week.

Home Economics

Students at the Home Management House ran a benefit bridge for the Student Loan Fund of the University Folk Club on Monday, April 17. Frances Platts, '33, was in charge, and the rest of the students in the house shared in the work. There were ten tables in play. A color scheme of green and yellow was carried out in the luncheon served by the girls and in the decorative design of the table.

Woman's Club

Miss Ruth Woodruff, Dean of Women, spoke at the meeting on Friday afternoon, April 14, on the subject: "The Economic Position of Women."

The officers of the Woman's Club for the coming year are: President, Mrs. Edmund Cortez; First Vice President, Mrs. Bradford McIntire; Second Vice President, Mrs. Hemon Fogg; Recording Secretary, Mrs. William Hartwell; Corresponding Secretary, Mrs. J. R. Johnson; Treasurer, Mrs. Eleanor Ellison; Auditor, Mrs. A. J. Edgerly; Directors, Mrs. Wallace S. Rand and Mrs. Max Abell.

Phi Sigma

At a meeting of Phi Sigma, the honorary biological society, held last Wednesday, April 12, in Thompson Hall, the following officers were elected for the coming year: President, Walter E. Batchelder; Vice President, Miriam Ryder; Treasurer, Leon Glover; Recording Secretary, Dexter Wilcomb; Corresponding Secretary, Ruth Thompson.

W. A. A.

Helen McEgan, member of Kappa Delta Sorority, was elected president of the Women's Athletic Association at a meeting held Monday, April 17, at Murkland Auditorium.

Other officers elected at this time were: Jeane Moore, Vice President; Eleanor Boston, Secretary; and Dorinda Hinkley, Treasurer.

Miss McEgan is a junior and treas-

CHRISTIAN WORK

On Thursday evening, April 20th, Bishop John T. Dallas will come from Concord, New Hampshire, to install the Christian officers for the coming year. Those being installed will be cabinets of the Y. W. C. A. and Y. M. C. A. and Community Church Student Group Council. The service will be held at 7:00 o'clock in the Community Church.

Y. W. C. A. officers and cabinet for the coming year have been elected as follows: President, Dorothy Richardson; Vice president, Lillian Mathieu; Secretary, Conradene Bowen; Treasurer, Betty Mecklem; Program chairman, Marjorie Phillips; Worship chairman, Margaret Roselle; Hospitality chairman, Jane Slobodzian; Social work chairman, Elsa Steele; Membership chairman, Theodora Libby; Publicity chairman, Thetis Sheldon; Music chairman, Margaret Tobey; Recreation chairman, Barbara Grinnell; World Fellowship, Caroline Smith; Deputation chairman, Marguerite Ekdahl; Industry chairman, Rhoda Pearson; Freshman advisor, Helen Henderson.

Church Group officers for the coming year are as follows: President, Heinz Brown; Vice president, Ralph Ruddy; Secretary-Treasurer, George Edson; Worship, Van Buren Hoppis; Publicity, Isabel Alden; Courses, Cecil Martin; Social hour, Aldine Fosskett.

Y. M. C. A. officers and cabinet for the coming year are: President, Edward Tuttle; Vice president, Arthur Mitchell; Secretary, Ralph Ruddy; Treasurer, Romeo Bucknam.

Cabinet members are as follows: Heinz Brown, Van Buren Hoppis, George Edson, Warren Marshall, Austin Huse, Maurice Kidder, Roger Brossard, Robert Caughey, and Richard Belcher.

Prof. Henderson's Bridge Project Materializes

(Continued from Page 1)

According to the plan of the bill, the bridge will be a toll bridge until such a time as it will have paid for itself, and then it is to be free. There are few who will not be willing to pay the nominal fee for the privilege of driving over an improved highway. Land values in the section of Durham bordering on the route will be increased. It will open the beauties of a section of Great Bay to summer homes and summer visitors. East to West and West to East traffic in New Hampshire will pass through Durham. This will mean more business for Durham merchants. More people will be given an opportunity to see the University grounds and buildings. Out-of-state travelers will see the University, an opportunity which they have not had in the past owing to the fact that Durham was not on the trunk line highway. A great deal of credit must go to "Dad" Henderson for the results of this project and for his interest in the welfare of Durham and the University.

urer of her sorority. Miss Moore is a sophomore and a member of Phi Mu Sorority. Miss Boston is a member of the Commuters Club and of Phi Mu Sorority. Miss Hinkley is a sophomore and is active in Christian Work. These officers will be installed at a later meeting.

Theta Kappa Phi

Those elected for office next year are: President, Alvah Swain; Vice President, Terrence Rafferty; Secretary, Edward Surowiec; House Manager, Emery Davis.

Theta Chi

Captain Williams, his mother and Mrs. Williams, were dinner guests at the chapter house Sunday, April 16. Ernest Pederson, '30, now principal of the High School in Bath, New Hampshire, was a visitor Monday.

Members of the house held an informal victrola party last Friday evening. Mrs. Smith was chaperone.

Lambda Chi Alpha

Melvin, "Mal", Lundstedt, graduate of Brown in '31, has been assisting Coach Christensen with the lacrosse team and was a guest during the past week.

Donald Gribbon of Concord was a week-end visitor as was also "Brad" Boothby, '31. "Bill" Dallinger, '32, is visiting the local chapter house this week.

Theta Kappa Epsilon

The following men were elected to office in Theta Kappa Epsilon at the last meeting: William Bennett, Hillsboro, '35, President; Ernest Gould, Hinsdale, '34, Vice President; Clayton Barnard, Keene, '35, Secretary; Robert Caughey, Antrim, '35, Treasurer.

Men's Club

A meeting of the local Men's Club will be held at the Community House on April 20. A supper will be served at 6:00 p. m. followed by a lecture at 7:00 by Mr. William Yale on the topic "With Allenby in the Near East."

Kappa Sigma

Beta Kappa Chapter of Kappa Sigma fraternity announces the initiation of the following: Robert J. McGuirk, '35, Dover; Henry L. Trow, '35, Sunapee; Thomas R. Burns, '36, Manchester; John W. Coyne, '36, Manchester; John L. Fernal, '36, Newfields; Robert R. Lambert, '36, Manchester; James M. Ross, '36, Barrington; Robert A. Cochran, '36, Ossipee.

A victrola party will be held at the chapter house Friday night in honor of the new members.

Pro and Con of Co-Educational Institutions Discussed by Students

(Continued from Page 1)

tions; that is, they can naturally take the lead without being aggressive." The Bryn Mawr president brings this point: "Segregation at the college age doesn't hurt a bit. It teaches an appreciation of each other, sadly lacking in women who have no chance to see their sex in control. The absence of sexual and social pressure is an intellectual advantage rather than a liability."

Presidents of co-educational colleges, however, have as firm a belief in the advantages of their system. Says President Frank of Wisconsin "Their (the women's) quality of leadership is as high and their activity as vigorous as could be expected from the fact that they comprise but a small part of the student body."

Co-educational colleges, in spite of their higher per cent. of successful marriages, have a less sentimental atmosphere than one-sex colleges according to President Aydelotte of Swarthmore who maintains, "The sentiment that appeals to men, the women puncture, and vice-versa. It is a more intellectually difficult environment and a more exacting audience."

Perhaps the over-emphasis on social activities which has been blamed on co-education, is really due to the fraternity-sorority complex, which, although losing its hold, flourishes to a high degree on co-ed campuses. Without doubt, it encourages social life and social stratification which is present on most co-educational campuses. At Oberlin and Swarthmore, where this system does not exist, student interests seem as varied as at women's colleges.

In a word, the question between the two types of education seems to be whether a girl wants to fit herself for living in a man's world, or develop her personality, initiative, and independence.

Chi Omega

Chi Omega entertained Mr. and Mrs. French at dinner April 12.

SENIOR NOTICE

There will be a Senior class round-up Thursday, April 20, at 8:00 P. M. in the Commons Trophy Room. This will be a big time with "Dad" Henderson, movies, and magic. We have had our smokers and our teas—now let's get together. Tonight is the night.

STUDENT DEBATERS ON CONVO PROGRAM

For the second time this year members of the student body had charge of the convocation exercises yesterday in the form of a debate on the question, Resolved: That the United States should cancel the Inter-Allied War debts.

Miss Dorothy McLeod, '35, and Miss Alyce Gage, '33, upheld the negative side, while the affirmative argument was presented by Robert Griffith, '33, and Nathaniel Eiseman, '34. Romeo Bucknam, '34, acted as chairman of the debate.

EDUCATION DEPT.

The following names were inadvertently omitted from the list of those students attending the Education Conference held in New York City recently: Miss Henrietta Roe, Hamilton Gardner, Arden Atkins, Hammond Young, Donald Bowler, Charles Brooks, and Warren Clark.

Nudd Receives M. I. T. Fellowship

(Continued from Page 1)

Nudd's work at M. I. T. will consist of research studies in pure and applied mathematics. He will endeavor to earn the degree of Doctor of Science while at Massachusetts Institute of Technology.

Development of Social Sciences is Big Problem Says Dr. Wilbur

(Continued from Page 1)

Zone, to supply pure milk, safe water, and to prevent, in spite of the modern rapidity of transportation, the invasion of many diseases. We were able to do this because we had reliable facts, accumulated by careful observations and experimentations. Can social science provide a preventive method for warding off the disorders of the social body in the same way preventive medical science has given protection to the human body?"

"That seems to me to be the present challenge faced by our democratic system. Growth in education and the social sciences is more important in relationship to the safety of our organized society than in any other departments of the university at the present time."

Dr. Wilbur has at his side ex-President Hoover, who is serving Leland Stanford in the capacity of trustee and as a member of the board of directors. With their extraordinary wide experience, these two men are ideally situated to determine sound policies for future education, free from sectional prejudices, and based on the interests of the nation as a unified body, functioning for the common good.

Brown Addresses Durham Art Club

(Continued from Page 1)

December 7, Program of Poetry, to be announced; January 18, "Ocean Harmonies" by Mrs. C. F. Jackson; February 15, Exhibition by Mrs. Clark Stevens of Durham and Mr. Paul Shramm of Dover; March 15, Group of Plays, Mrs. W. G. Hennessy, Mrs. H. H. Scudder, Mr. H. B. Stevens of Durham; April 19, Recital by Mr. Robert W. Manton of Durham, Mrs. Victor Johansen and Miss Isabel Redman of Dover; May 26, Pilgrimage in charge of Mr. William Yale.

CHRISTIAN WORK TO SHOW MOVIE "MUST WAR BE?"

Endorsed by Kirtley Mather and Sherwood Eddy—Shows Futility of War in Vivid Manner

BRIAND AND HOOVER APPEAR IN PICTURE

Shown in Leading Colleges and Universities in Country Last Year

Endorsed by Kirtley Mather, recent convocation speaker, a documentary talking picture entitled *Must War Be?* produced by The Peace Films Foundation, Inc., of New York, will be shown under the auspices of Christian Work at the gymnasium Sunday evening at eight o'clock. There will be no admission charge.

The movie was first shown at the Town Hall in New York City on October 13, 1932, and was later shown to a packed house at the Tremont Temple in Boston. Since then it has traveled all over the United States and has been shown in hundreds of American schools and colleges.

The film is a vivid, stirring panorama, recreating world events and personalities and showing a comprehensive history of the peace movement and the futility of war. Such men as Briand, Henderson, Ramsay MacDonald, Hoover, and Stimson appear and speak in the film. The program ends with a stirring appeal in behalf of youth made by James Frederick Green of Yale University at the Geneva Disarmament Conference.

Among the sponsors of The Peace Films Foundation, Inc., are Sherwood Eddy, Kirtley Mather, Reinhold Niebuhr, and Stephen S. Wise.

Kirtley Mather says of *Must War Be?* "I want you to know that the film was received most enthusiastically. It made a deep impression upon

all observers and it was the unanimous opinion that this film ought to be shown as frequently and as widely as possible throughout America."

Barbara Stanwyck

"Ladies They Talk About"

Sunday—2 Shows, 6 and 8 P. M.

2.15 - Continuous - 10.15

Ever smoke "whittle" tobacco?

Well... here it is... already whittled FOR you. Granger Rough Cut is tobacco whittled right... that's one reason why it burns so slow and cool.

WHEN we started to make Granger Rough Cut we knew that fine tobacco burnt hot because it burnt so fast. It kept your pipe hot. You could hardly hold your pipe in your hand, it got so hot at times.

Then we remembered that some folks back yonder used to "whittle" their tobacco. So we made GRANGER just like "whittle" tobacco — "Rough Cut." It smokes cooler and lasts a lot longer. And also, you'll find it never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco—right process—cut right. It was a question of how to do it for the price.

So we put GRANGER in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke a package. We gave smokers this good GRANGER tobacco in a common-sense pouch for 10c.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it—we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

Liggett & Myers Tobacco Co.

The Granger pouch keeps the tobacco fresh
