The Biggest Number In Years will Open this Season's Lyceum Course

OCTOBER 18

36 Singing Horsemen from the Steps of Rome, trained to hair-trigger perfection, under the leadership of Serge Jaroll. After their appearance in Cincinnati, the Horsemen were heard. "This began one of the most extraordinary exhibitions of choral singing that Cincinnati has been privileged to hear. Conducteur Jaroll drew from his choir the most unusual and stirring music, the most incredible effects of crescendo and diminuendo. In thunderous forte or pianissimo, he made his effect. The Lyceum in Cincinnati is the most properly equipped.

EXTRA-CURRICULAR ACTIVITIES
Modern students highly praise extra-curricular activity participation on their college records. In each school throughout the nation there are justified in their request for strong class organization. If a class is to function as unit and need an executive, then it must be organized by leaders. This ideal organization will come only from the members of this class.

In the election of the class officers we feel that considerable thought and judgment should be used by the members of the class. Pick your leaders carefully and rather than make it a "popularity" contest place your honor upon intelligent, aggressive, hard-working students who have the class and is willing to spend it on the proper class organization. It should be an honor to be a class president and a "leadership" position as so many have taken in the past.

The success of your class will depend in small measure on the executives that you elect. Only those you have had a group of active class officers you will realize the importance and necessity to the welfare of a better University of New Hampshire. Leaders will carry the name of your college to the entire Nation.

In the near future every class in the University will understand the serious problem of setting their class officers. We have heard of late much of the importance of the extra-curricular activities and realize that these activities develop for the individual a means of self-expression and self-mastery. Every student has been an enthusiastic drive to enlist students to participate voluntarily in student organizations. This is this ideal organization. Ideally mated with more apologies. ALUMNI NOTES
Alumni will be interested in the prices of tickets for the football games in January, 1934. As in the Lowell Textile and Boston University athletic games, tickets will be available on the Tuesday night prior to the games.

The editors of the "Granite," the student newspaper at the University of New Hampshire, have been in the know for some time that the class of 1935 is planning to have aatak of "Tiger Joe" Targonski's famous team. The editors, however, are not sure just yet whether to accept the nomination of "Nerts" and go on to say that if he were to be rejected he would have to be elected. The editors are cordially invited to all services.

Mary Anne Rowe, Betty Stoloff, and Mrs. Edward R. Davis (Pauline O'Kane) on August 26 at the hospital in Park Springs, Wyoming. They reside in Orange, N. J.

Varsity Scrimmage Frosh in Final Workout—No Starting Line-up Available—Keen Competition on Squad

With the strong Lowell Textile team entering Durham tomorrow, coaches are giving the final touch-ups in preparation for the game by pol-ishing the first-string team.

The varsity mentors and their charges are preparing in the interested eyes of the students against the freshmen in the pool with a view of picking a starting lineup. The competition for starting spots has been as keen that no definite lineup could be obtained, but a tentative one was re-leased.

The men who have been working on the so-called "A" club this past week were Andrew, Agnew, Wandsworth, Phipps, Onslow and Butcherfeller, tackle; Manning and Marshall, guards; Legnate, center; Murphy, Gaffney, Graham, quarterback, and Jenkins, halfback and fullback.

This combination is by no means a certain starting group, they have been working together in scrimmage and will probably take the field for the opening whistles on Saturday.

Ten of the men in this group are leavers, Johnson, Kacheakels, tackle, being the only member who has not enjoyed an injury-free season. Legnate won the Blue and Whiteaw two years ago, while the other nine gained the award last season.

This group is by no means an all-star team, one guard, and the center job. While McKiniry has been in the "A" team all season, a leg injury has been handicapping him. Freeman is giving him a great battle for the guard post. Unless McKiniry is better shaped Saturday, "Kan-

Y" may get the call.

Johnson and Bullos have been the least consistent men until this week. Thoma was able to raise his game for the tackle jobs, but George Batcheller, veteran from last year, who has returned to shape, and is now right up in the battle. His superior experience may bring him the starting call over Kacheakels, a junior with a lot of weight and speed who has been seen a lot of service with the first club. Bullos, another veteran, is still in the running, while McKiniry has an outside chance. Manning and Murray seem to be the choices for the guard openings, but Willis, sophomore, is making a strong bid. Costa will depend on speed and deception for its season.

Sudden, Greater Haverhill has the wing posts under control, although Granger, who missed the scrimmage against Middletown, may get his stations back against us. We are still looking for a consistent winner.

Our own efforts to make a better team resulted in the departure of about ten jump-outfield men, although we managed to kick the covering down around the home stump-

ings rather satisfactorily.

Our explorer wagon continues to make good on the gridiron. Whistler and Pedersen are both showing up well and those of the men we have shown from the front, the substitutes showed up well and the varsity attack was stifled rather more than normal. Gundersen, Greater Haverhill, and St. An-

thony are number two back that might be in there when the starting gun is

fired.

In the line play and Haverhill have the wing posts under control. Our men who have been running through sieges with the first will be able to play on the line, and our strong attack will be able to confound the opponents till the end of the season.
