WICKERSHAM COMMISSION

The Constitution would not need to be drastically changed if the Socialist party were able to maintain a majority in Congress. The party is working for the passage of the Wickersham Commission, the country's foremost author on organized crime.

WICKERSHAM COMMISSION

A disturbance which was passing down through nearly three generations, the first act being placed in 1881, the second in 1898, and the third in 1928. We watch the young of act I grow older and older—all save one. And from that one exception to the "common moonlight." We watch the moonlight die and the last child of act I beign an earth mother's daughter. From that last child begins the fourth act, already under way by the time our present is born.

Cigarettes are made of tobacco, wrapped in paper, and they may look alike, but that doesn't mean that they are the same. Copenhagen Cigarettes are not like other cigarettes. The tobacco is not the same tobacco used in other cigarettes. It is mild, tars, and nicotine, or strong. Then again, Copenhagen Cigarettes taste better. They are seasoned in the right way with the right kind of tobacco. There is nothing else or tasteless about them. You’re telling me “They Satisfy!”

Wise Meal Economy

Have you ever stopped to realize that the meal
ticket at $5.00 for 7 breakfasts, 7 dinners and 7 sup-
ers averages but 26c per meal?

Is it clear in your mind that this type of meal
ticket does not entitle you to any free meals that may be
taken at the option of the ticket holder?

Or, there is the Cafeteria ticket, punished for the amount on the tray—$6.00 value for $5.25. Some
prefer it, but the maximum value is in the 21-meal ticket.

NEVER GET ON YOUR NERVES...NEVER TIRE YOUR TASTE

M. J. "Mike" Thompson, famous football referee

If you want to see more steady smokers, look at "Mike" Thompson's performance: he was once a regular for the US Army. "Mike" has been a steady smoker for years and he attributes his "energy and vigor" to cigarettes. He says, "I've got to keep my nerves in shape...no one can smoke CAMEL'S better than me."

American College Student Society News (Continued from Page 1)

The non-sightlessness of the public does not mean that teachers, "indispensables," are all too rare to be wasted in unimportant or offensive capacities for unimportant or offensive causes. Perhaps it is because we have too much confidence in the public that the ordinary level is not necessarily low on all American campuses; however, it is true that American society is not as well-educated as it might be. It is true that the ultimate solution of the problem of education is to make the public an educated public, which will demand more of the schools and the teachers. In this way, the public will be educated, which will demand more of the schools and the teachers. In this way, the public will be educated.
