COMMERCIALIZING EDUCATION

It appears that the main notion and advice of the leaders of big business in the closing generation of the century is that "every man's business is every man's business." It's the sort of thing that you can't escape, whether you like it or not. It's the sort of thing that makes you wonder what you're doing with your life. It's the sort of thing that makes you wonder what's going to happen to you in the future.

Only the Center Leaves are used in Luckies

For these are the Mildest and fully ripened for perfect smoking

We buy only the center leaves for Luckies. Not the top leaves for they are under-developed. Not the bottom leaves for they are inferior in quality. Only the center leaves for these are truly mild and fully ripe. And that's the fine tobacco we use—to make Luckies so round, so firm, so packed—free from loose ends that spill out. That's why Luckies are always mild, always truly mild. And remember, "It's toasted"—for throat protection—for finer taste.
