The Moody Case

Considerable arguments, both pro and con, have been heard within the last week in regard to an actual case of "race discrimination" against one of the most prominent and versatile University athletes, Fred Moody, by the United States Coast Guard Academy.

We feel justified in criticizing the athletic department of the conservatory as they stand on the case in permitting their outstanding member of the lacrosse team to be denied the honor of representing them in Eastern tournaments. It is a matter of fact that Moody was born in the South, and it should be the duty of each and every member of the club to protest against this institution.

Our contention is, that if a man is good, give him due credit and give to him as you would others, the equal right of competition against his fellowmen.

You may criticize us for this liberal stand on the issue, but we are merely interpreting to you what is on the lips of every underclassman.

In 1933, the R S F S R spent 1114 million rubles on the building of the coal mines and the mechanical industry. In the lower schools music, gymnastic, and handicraft lessons have been curtailed, owing to lack of funds. In Alabama eighty-six of the secondary schools were closed in 1933, and the condition of the economic depression is worse than ever before. In the fall of 1933, the administration announced another Sunday hour for Wednesday, P. M. Monday.
