RUTH NICHOLS AT NEXT CONVO

Famous Aviatrix to Speak at Gen. Convocation
Next Wed., Feb. 7

OUTING CLUB GUEST

Nationally Known Figure Has Accomplished Much in Aviation Field

Miss Ruth Nichols, famous aviatrix and leader of many records, will speak at the next general convocation to be held at the University of New Hampshire on February 7th. Miss Nichols began her flying career while a student at the University of New Hampshire. She was born in 1898 in New Hampshire and graduated from the University in 1919. She held the American Air Mail contract and was a member of the women's flying service during World War I. She was one of the first women to fly transatlantic and has made many other flights around the world. She is also known for her work with the Red Cross and the American Red Cross.

\section{The New Hampshire}

Volume 24. Issue 17

DURHAM, N. H., FEBRUARY 2, 1934.
BLACK AND WHITE

As proud Northerners we have for years abhorred and preached against the racial discriminations which still persist in some sections of the South. And yet, within the past week, we have permitted ourselves to become hopelessly involved in a rather grave controversy over the admission of an individual to the varsity athletic teams of our University. It is evident that the Press, in this instance, has been a little too quick to rush headlong into such topics. For in every generation of men there are a few who deliberately seek to be responsible for the moral teachings of an age which is almost past and who is faced with the task in this fast moving age to discern true morality from mere fashions in thought. Much inquiry brings news that "G.L." Cornell, one of our most outstanding athletes, has been involved in a club disturbance recently. The incident has excited a great deal of comment, especially one owned and operated by the federal government.

In last week's New Hampshire it was stated that an agreement had been made which discriminated against some of the members of a race because of their race. It has been emphasized by many that the University of New Hampshire is an excellent one, and all students are alive to existing conditions. The opinion stated in the last issue of the New Hampshire has at last dropped its barriers to the forces of truth and reality, at least in regard to the racial discrimination permitted by the athletic department. It is true that there are conditions which the student union will make an effort to correct. It is true that some conditions are theoretically sound, and it is the work of the Athletic Department to make conditions right.

The opinion stated in the last issue of the New Hampshire has been condemned by Northerners because of its racial discriminations; and all students are alive to existing conditions. It is true that the University of New Hampshire is an excellent one, and all students are alive to existing conditions. The opinion stated in the last issue of the New Hampshire has at last dropped its barriers to the forces of truth and reality, at least in regard to the racial discrimination permitted by the athletic department. Meet the Cast of Mr. Pim Passes

-by Mask and Daggar's Term Play

What more appropriate souvenir of the Winter Carnival would be more fondly cherished by your guest than a University Song Book?

The favorite songs of the Blue and White, songs of other colleges and universities, and popular melodies combine to make this volume one of the leading college song books of the country.

Don't let your Carnival guest leave the University without it!

THE UNIVERSITY BOOKSTORE
The Editor's Mail (Continued from Page 2)
To the Editor: The New Hampshire has just about completed another year's 'work. It has been an interesting year, as it was last year, and as it has been for the past three years.

There are a few things which I would like to mention, which have been accomplished during the past year. First, the University has been through a financial crisis, and has been forced to cut down on its expenditures. This has resulted in a reduction of the faculty and staff, and a decrease in the number of courses offered.

Secondly, the University has been through a period of turmoil, and has had to face many difficult decisions. This has resulted in a great deal of stress and anxiety for the students, faculty, and staff.

Thirdly, the University has been through a period of growth, and has seen its enrollment increase. This has resulted in a great deal of excitement for the students, faculty, and staff.

Fourthly, the University has been through a period of change, and has had to adapt to new technologies and methods of teaching. This has resulted in a great deal of innovation and creativity for the students, faculty, and staff.

In conclusion, the University has been through a period of great change and challenges, and has faced many difficult decisions. However, it has also seen periods of growth and innovation, and has adapted to new technologies and methods of teaching. The University is strong and will continue to thrive.

Sincerely, [Signature]
