Ruth Nichols Guest Speaker at Convo

Miss Ruth Nichols, the famous aviation pioneer, will open the Class Day exercises with a speech of welcome.

World's Record Breaker Will Tell of the Coming Field

Miss Ruth Nichols, the world's famous aviator, is the grand woman of aviation, said Miss Nichols, a graduate of Wellesley, in her home in New York last week.

Under the influence of her late father, a wealthy contractor, Miss Nichols discovered her lifelong love of aviation when she was about 12 years of age. At 18, she was flying across the sea in a glider, and in 1934 she was flying a seaplane over the ocean.

Miss Nichols is now one of the leading aviators in the world, having won numerous prizes, including the Prix de la Ville de Paris, the Grand Prix de l'Aviation, and the Prix de la Vague. She is the only woman to have flown across the Atlantic Ocean.

She will be in New York this week to take part in the New York International Air Show, where she will give demonstrations of her flying skills.

Those who wish to attend are encouraged to do so, as the event promises to be a spectacular display of aviation.

Continuing to play the type of game which had brought them two straight victories last week, members of the University's women's hockey team proved too strong for the New York University women, giving a 1-0 upset victory over the visiting team last night.

After receiving his B.S. degree in mathematics from the Massachusetts Institute of Technology, Dr. Hewitt taught at the University of Wisconsin and the University of Michigan. He was then appointed to the Harvard University faculty in 1930, and has been a member of the Harvard staff since that time.

Hastily Buried Machine Theories Are Interred Before Their Time

By James G. Burgh

When that ill-fated Committee of Congress, headed by Senator Legophot, Howard Scott, escaped from its perch on the Hill, with its principles of Tecnocracy behind the veils of ignorance, the real social history of this country began. It is clear to the writer that the wants of the workers displaced by the machines are not merely to be satisfied. It is the duty of the whole nation to provide for these workers a livelihood and a means of escape. It is not the duty of the government to make the workers dependent upon charity. It is the duty of the government to provide for the workers a livelihood and a means of escape.

Radcliffe Student at Progressive Club

Miss Lila de Lautrec, an Italian exchange student at Radcliffe College, will spend Tuesday, February 21, in the Educational Club, dining in the Common. The theory of fascism, said the girl, is rather like the theory of bolshevism, in that it holds the rights and the welfare of the workers above the rights of the individual. It has accomplished great advantage in Italy and in the United States, and it holds the rights and the welfare of the workers above the rights of the individual.

A. 1908 Tended Party

Friends Pay Tribute to Perley A. Foster in Lynn, Mass.

More than 200 officials, associates, and friends of Perley A. Foster, a graduate of the University with the Class of 1908, gathered at the Y. M. C. A. in Lynn, Mass., on the evening of January 21, 1934, to give him a farewell party in the hope of leaving the "I, the general secretary" to accept a similar position in Bridgeport, Conn., after ten years of service in Lynn.

Sponsored by Mayor J. Freeman Harding, nearly a score of prominent men and women who have known and worked with Mr. Foster and his family in Lynn, paid their respects to the soon-to-retire executive secretary of the Lynn Y. M. C. A.

"He has always had a most active interest in the welfare of the community," said Mayor Harding. "He has been a splendid and generous man to Lynn, to the community. He has been a most useful man, and we may regard it as a great honor to have him with us in Lynn.”

A program of music and speakers was the subject of the New Deal conference program were George Price, representing the Boy's Department of the "Y", Dr. William W. Rowe, representing the ministers of Lynn, Charles Cunningham, representing the Retail Bankers Association, Charles Collins, past president of the Y. M. C. A. E. B. Stevens, representing the State "Y", and the Rev. Charles Morgan who delivered the oration. He said he had been contacted with the "Y" a year and had been a director for nine years. He has been an outstanding player and was an honorary player at the annual meet and we cannot do without him.

"The happiest fellowship I have had in years with Perley Foster. I have never been in contact with the boys. Although he was the head of a large organization, he never left the personal contact with others. He ran the "Y" with a swiftness and a grace that made him a leader in all fields of activities.

"Although I have been on the "Y" staff for 30 years, I am glad to see him back again. He has left the boys, and the boys are glad to have him back."

Ten Colleges Expected to Attend Sports Weekend at Washington Camp

At a meeting prior to the Eastern Meet, the fresh out track team elected Simon Lekesy as their captain. If he worked up to the present he claim that the above was a wise choice.

Simon is an all-round track man, running the dashes, high jumping, and the long jump. A good choice of the relay team.

He is one of the finest freshmen on the track team and is expected to do well this season.

And remember, they’re Sanforized-Shrunk. Chesterfields please. Chesterfields come by the factory door. 769,340 places in the United States. Chesterfields come by the factory door.
