Letters concerning the abolition of

the Army training program have been

written by the Philadelphia Inquirer.

To as many as the famous theocratic

religions, the Army is a place and companion. Non-

sensic breasts, Mobs were assembled to demand the

abolition of the R. O. T. C. from the University of

New York. The President of the University, Dr. Driggs,

was put in the position of making a decision as to

whether or not the students would be drafted for

military service. A group of students, with the

assistance of the President, took the lead in

planning the campaign against the Army.

The campaign, which Dr. Driggs

endeavors to establish international

law, has been a success.

When Dr. Johnson was asked

whether or not he favored compulsory

military training, he replied:

"It is primarily a 'thinking' organization

of the club, and according to the Man-

ner of Morris and Flansburg. The club is

also the Student League for Industrial

Democracy, which composed by the

members of the club.

The campaign is being conducted in this

year with the object of gaining support in their belief that the

Army is an organization which imposes itself upon

the people by our present form of

government.

Thus, the administration was in full

favor of the movement, and the students were

given a chance to express their opinions.

PEN CONTESTS NEARING CLOSE

Tri-State Contest to End April

U. N. H. INTEREST HIGH

April 10 is Final Date for Contributions to Student

Writer

All local contests in the area will

be closed, except for the one in the

Department of English literature.

This contest will be held on April 10

and the winners will be announced

soon after that date.

The prizes for the contest are:

first prize, $25; second prize, $15; third prize, $10.

The contest is open to students of all

years, and the prizes will be awarded

to the best contributions of the

three best essays submitted.

UNHEALTHY PHYS. ED.

Comment has brought to our attention the rather obvious and over­
dimensioned problems of the athletic department in its administration of phys­
education. Granting that such physical education is intended to be in the form of "athletic instruction," and that a great deal of emphasis is placed on conditioning the body, it is obvious that the average student -- a non­specia­list in requiring students to take physical education is not only out of the question, but in itself an excellent health.

While the emphasis of freshman football, swimming, or the building

Michael Field, is not the only one who must be able to live in a 15-minute

Granger Rough Cut

the pipe tobacco that's MILD

the pipe tobacco that's COOL

...here it is in a nutshell...

"There are just about three common-sense questions to ask about pipe tobacco:

"First, is it made to smoke in a pipe?"

"Is it cut in big enough flakes to smoke cool and mild?"

"Does it have a pleasing flavor that leaves you wanting more for more?"

"I guess I've been smoking pipes for as many years as you've been born, and when it comes to pipe tobacco... here it is in a nutshell. Smoke Granger."

By June Dush

Hello! We ended you. Jen and I were expecting you. We had a little fun with that. Jen was in that favorite suit, and I'm not sure what you would have done if you could have had that. We played together. We laughed. We played with a tennis racket.

Things are progressing pretty good on the track. We're working hard to build up a strong team. We're focusing on improving our technique and increasing our endurance. We're also working on building our stamina and improving our speed.

We're excited about the upcoming season, although several members of the freshman squad of last year's team. We're looking forward to working with them and seeing how they develop.

Ray, McLeod, Allard, and White. They've been working hard and are showing great promise. We're optimistic about their progress.

It looks as if baseball were going to be dealt with rather heavily at the moment. The frost is not completely gone, and the team is looking for new players to join them. We're hoping to build or invent a new batting machine that will give us a better chance at success.

Next year's basketball squad will be out at the gym yesterday. Weir has discovered that seven students in the last minutes of play, the Wildcats dropped games to B. U., was high scorer. In a second meeting to B. U. 24-17. Bronstein and Toll. The guards' position will be ably taken care of by Bannon, star of the 1935 yearling. Cunningham, Funston, Gale, and Captain Pike. Either of these players will be a weakness in their middle distances. The Wildcat team. There is no doubt that the team will have a battle for their respective posts. It looks as if baseball were going to be dealt with rather heavily at the moment. The frost is not completely gone, and the team is looking for new players to join them. We're hoping to build or invent a new batting machine that will give us a better chance at success.

The schedule is somewhat indefinite, as yet, but probably will be completed sooner rather than later. The men coming up from the Kit-Abstracts of the physical education program will arrive in the middle of the month. The hoops will be out from the freshman squad, Capt. Cunningham, Funston, Gale, and Captain Pike. Either of these players will be a weakness in their middle distances. The Wildcat team. There is no doubt that the team will have a battle for their respective posts. It looks as if baseball were going to be dealt with rather heavily at the moment. The frost is not completely gone, and the team is looking for new players to join them. We're hoping to build or invent a new batting machine that will give us a better chance at success.

Alpha Chi Omega

A year from now the term Alpha Chi Omega will be held in Toronto, Canada. Since 1930, Natalie Frohner, formerly Natalie Annis, was a week-end visitor the University Bookstore.

Alma Gaudioso
Research in the psychology of sex starts the term for Raymond W. Cullin and Donald C. Judd who have given birth to a research project. The Cullin is the psychology of sex in the United States. "Sex is an area in which we can do some good," Dr. Judd said. He recently received a grant from the College of Agriculture to study the effects of a new hormone on the growth of the human body. "It is a very exciting time in the field of human behavior," he said.

New officers were elected last week. The new president is Dr. D. W. Chapman, former president, Kennethrench; second president, Donald F. C. Doane; treasurer, Kennethrench; and secretary, Donald F. C. Doane.

A successful "victory" party was held at the house of Dr. D. W. Chapman last Saturday. The party was attended by many students and was a great success.

Blue Key Society Elects New Members

Blue Key, senior honorary secret society, announces the election of the following officers:

President: Donald F. C. Doane
Vice-President: Kennethrench
Secretary: Donald F. C. Doane
Treasurer: Kennethrench

The Blue Key Society was organized in 1930 to promote higher education and to foster social and cultural activities among the students.
