A. RHODES AWARDED HODD ALL-AROUND ACHIEVEMENT PRIZE AT CONVOCATION

Award is Made Annually to the Senior Chosen by Three Upper Classes as Most Likely to Succeed

BAILEY PRIZE TO WENTWORTH

Many Other Awards Given at Last Convocation of Year

At the University of New Hampshire, convocation exercises held Wednesdays at 2 p.m., it was announced that Arnold D. Rhodes, '41 of Lancaster, is the recipient of the Bailey prize. The Bailey prize goes to the senior who has shown outstanding scholastic promise during his college career, and has shown his promise of becoming a worthy factor in the college world through his character, scholarship, physical and moral fitness, personal popularity, leadership and usefulness as a man among men. Mr. Rhodes has been prominent in campus activities at Business Manager of the Daily Hampshire and University weekly, president of the Class of 1941, and as a member of Phi Kappa Phi, a national scholarly society. Mr. Rhodes' scholastic average for four years is 3.84. Other awards include: President's Lowell award, Phi Beta Kappa, and PhiDeltaPhi. In the fall of 1940 he was awarded an appointment as naval officer, but decided on a career in business. It is expected he will graduate in May, 1941.

Progressive Club Wins "Labor Under the NRA" in Panel Discussion

PROBLEMS DEFINED

"Except in Day and Hours Workers Seen to Lose by Legal Decisions"

"All important points up to the present time the dominant policy of the governments at Washington has been to protect labor," said President John H. Kerckhoff of the American Bar Association during the session of the panel discussion of the labor problems conference under the NRA, which was held by the Progressive club in Bal­

FRIDAY TO START SEPT. 15

Univ. Heads to Have Charge of American Reception

Freshman Week for the class of 1940 will take place Sept. 15-16. The various departments of the university will present a number of events in certain basic subjects such as athletics, dramatics, and music. The programs will be coordinated by a central committee, under the direction of Mr. W. D. White, who will be acting as chairman of the department council. The main events of the program will be the opening of the academic year, the welcoming banquet, and the Presidential reception. The entertainment will be given by the various departments of the university and the various organizations of the university. The American reception will be held in the evening of the last day of the program.

ORDWAY RESIGNS AS NH EDITOR

Accepts Position With the University of Wisconsin Alumni Association

James G. Bailey, '35, of Hartford, is resigning as editor of the New Hampshire Collegian, and has been elected to the editorial faculty of the University of Wisconsin. He has been editorial editor of the New Hampshire Collegian for two years. The New Hampshire Collegian is a national eight page weekly newspaper which is published in the spring and fall of each year. It is the official organ of the alumni association of the University of New Hampshire. It is published by the New Hampshire Alumni Association, and is distributed free to all alumni of the university.

DR. H. A. IDDELS CHOSEN AS COLLEGE CHEMISTRY CHIEF

Head of Chem Department is Elected in Academy

At the annual meeting of the New Hampshire Academy of Sciences, held Saturday, June 12, and Dr. H. A. Iddeles, New Hampshire chemist, was elected to the presidency of the academy for the coming year.

WEATHER RECORDS FORCAST FOR WEEK END

Friday, June 12, 6 p.m.

The outlook for the coming week is fair to good, with a few showers expected on Saturday afternoon. The temperature will be rather cool, with a high of 60 degrees and a low of 50 degrees. The wind will be from the north, blowing at a moderate speed.

NOTE OF THANKS

The officers of the Department of Mathematics and Physics wish to take this opportunity to express their appreciation to the members of the R. O. C. T.

The R. O. C. T. is a national organization that promotes the interest of students in the fields of mathematics and physics. It is composed of students from various colleges and universities throughout the United States. The purpose of the R. O. C. T. is to promote the study of mathematics and physics and to encourage students to pursue careers in these fields.

The R. O. C. T. has a number of activities, including lectures, workshops, and social events. The lectures are given by distinguished scholars and professionals in the fields of mathematics and physics. The workshops provide students with opportunities to learn new skills and techniques. The social events are designed to foster a sense of community among the members of the R. O. C. T.

The R. O. C. T. also sponsors a number of competitions, such as the annual mathematics and physics contests. The contests are open to all members of the R. O. C. T. and provide a forum for students to test their knowledge and skills.

The R. O. C. T. is committed to promoting the interest of students in the fields of mathematics and physics. It is a valuable resource for students who are interested in pursuing careers in these fields.
The New Hampshire

The comprehensive fallacy

It is perhaps too early to predict what the outcome of our new term's examinations will be. However, it is not too early to say that, while

early results indicate an upward trend, the final result will not be known for several weeks to come. The reason for this lies in the fact that

each examination represents an evaluation of the student's performance in a particular subject or subject matter.

An apple, for instance, cannot be changed into a pear tree by the process of grafting, for the apple will retain its own inherent

qualities, even if it is grafted onto another variety of tree. Similarly, a student's performance in one subject cannot be

transferred to another subject without additional study and practice.

The desire for reform which underlies this present attempt is indeed commendable, but the practical results are bound to be unreliable. As mat

ters stand, the student who excels in one subject is unlikely to do as well in another subject, unless he is prepared to devote equal

amounts of time and effort to both.

Therefore, while the desire for reform is commendable, it is important to recognize the inherent limitations of such

approaches. It is essential to adopt a balanced and comprehensive approach to education, taking into account the unique

needs and abilities of each student.

REPRESENTATION FOR ALL

The almost complete lack of interest displayed by the non-fraternity members in the recent elections is a matter of great concern. The lack of

representation of the non-fraternity members in student government and other organizations is likely to result in a lack of

interest in and involvement with campus activities.

It is important that the non-fraternity members be given a voice in the decision-making processes of the campus. This is

essential to ensure that all students have a say in the direction of the institution.

Outing Club Begins Building on June 20

The New Hampshire

Plane Team of Canons as Basis for White Mountains

Since all the Outing Club is to open to all students regardless of fraternity affiliation and since there is a desire for reform,

the non-fraternity members must also be represented in student government and other organizations. This is

important to ensure that all students have a say in the direction of the institution.

Outing Club Begins Building on June 20

1935 Granite on Sale This Week

365 Junior Class Annual Will Be Published This Week

The 1935 Granite, the largest and most comprehensive yearbook in the history of the college, will be published this week.

It is a unique opportunity for students to reflect on their college experience and their personal growth.

The Granite contains information about the classes, the faculty, the campus, and the various activities that have taken place during the

past year. It is a valuable resource for students to consult when they need to recall specific details or facts about the college or its

students.

Another important feature of the Granite is the variety of different sections, such as sports, music, art, and literature.

The Granite also includes photos of student events and activities, including plays, concerts, and sporting events. These photos

provide a visual record of the college's events and activities and help students to remember the highlights of their college

experience.

The Granite is an important resource for students and alumni alike, as it provides a lasting record of their college experience and

helps to preserve the memories of the college's events and activities.

Additional Prize Awards at Convo

Douglass Woodward, '34, Awarded a Barlow Trophy

The American Legion Trophy, presented to Douglass Woodward, is one of the most prestigious awards given to students who

have shown outstanding achievement in scholarship and athletics. It is a mark of distinction and recognition for students who have

demonstrated exceptional talent and dedication.

Douglass Woodward is a senior who has excelled in both academics and athletics. He has been a member of the track team, the

baseball team, and the wrestling team. He has also been involved in a number of student organizations and has held leadership

positions in these organizations.

Douglass Woodward's achievements are a testament to his dedication and hard work. He is a model student and a credit to the

college, and he is well deserving of this prestigious award.

Radio Romance to Play at Franklin

Dick Powell and Ginger Rogers, who starred in the classic romantic film "Merry Widow," will perform the radio adaptation of the

play "Merry Widow" on the Franklin Theatre. The radio adaptation will feature the voices of Dick Powell and Ginger Rogers, who

have won critical acclaim for their performances in the film. The radio version is a perfect way to experience the timeless

story of love, romance, and adventure.

The performance will be held on Saturday, June 9, at 8:00 PM. Tickets are available at the Franklin Theatre box office or online

through the college's website. For more information, please visit the college's website or contact the Franklin Theatre box office.

University Graduate School Needs System For Change in Education Need

Writing in the June issue of the Journal of Educational Psychology, undergraduate students have written to the New Hampshire

Higher Education Commission to express their dissatisfaction with the current educational system.

The students argue that the current system is outdated and ineffective, and that it is time to consider alternative educational

approaches. They recommend a system that is more student-centered and that provides greater flexibility and choice for students.

The students also suggest that the curriculum should be updated to reflect the changing needs of society and the workplace.

The students' letter is a call to action for educators and policymakers to consider the need for change in the educational system.

THETA KAPPA PHI WINS ALL-POINT TROPHY RACE

N. H. NINE FAIL TO HIT

IN PINCHES AS JUMBO'S
DEFEAT WILDCATS 7-5

Wildcats Outhit Tufts With Few Errors
—Woodworth's Home Run in First Inning

Wildcats Play To Win At Portsmouth Sat.
Tufts Mound Are Driven From Box By Wildcats in Third Inning

Ray Woodworth, who has proved to be a menace to the Wildcats in football and basketball, again won a
point in the side of the Wildcats in the baseball game held in Door last night.
In the opening inning of the game, Woodworth hit a long drive
over the left field fence and sent teammate
Butch Mamos, who had already hit a triple at first base for the
Tufts, back to second. When the ball was
thrown to the second baseman, Butch Mamos
at Point, and he led the Wildcats to victory.
A spot hit by one of the Tufts infielders
brought the second run of the game home in the first inning.

N. H. NINE FAIL TO HIT

In the second inning the Wildcats scored
three more runs, all of which were
charged to the pitching of Tufts and
a spot hit by one of the Tufts infielders
brought the third run of the game home in the first inning.
In the third inning the Wildcats scored
another run, which was charged to the
pitching of Tufts and a spot hit by one of the Tufts infielders
brought the fourth run of the game home in the first inning.
In the fourth inning the Wildcats scored
another run, which was charged to the
pitching of Tufts and a spot hit by one of the Tufts infielders
brought the fifth run of the game home in the first inning.

Tufts can hardly be责备 for their failure to hit in the early innings of the game, as they had three
men on base in the first inning and only two
men on base in the second and third innings.

TUFFS FIND C AW FOR ELEVEN HITS

Eagles Will Be Opponent—McGraw To Pitch

In an endeavor to close the powerful
points and take a hold of the
Tufts, Coach Wenham's "Wild Boys of
N. H. N. had no answer to the
questions of their
predominant in the second
frame and one more in the fourth,
Tufts. It may be possible to
with the late start.

Well, Durham sports fans, we are
rapidly coming nearer to the end of
several spring and summer
activities in the stadium, but most
notably to baseball. It was another
fine night for ball, and the
enthusiasm of the crowd was at
its peak. Last year when I left
the campus, I would have
looked up its absence. This season, despite
the change of season, the
enthusiasm was as high as ever, and
the crowd was every bit as
enthusiastic as it was last year.

Rogean, Tufts relief
pitcher and Tufts relief
pitcher for the
Wildcats, started the
inning and gave up a hit to
Pond, before
Tufts could
show signs of
life. By
the time
the
pitcher
came
back
for
his
second
inning,
the
crowd
had
rallied
around
Frelind,
who
showed
the
same
steadiness
in his
pitching
that
he
did
in
his
first
inning.

There is a rumor that we might be
able to play baseball for a while
longer, but that is not
likely to happen. The
season is over, and the
game is not
likely to be resumed.

Tufts has the trophy at the moment,
and it is not likely to pass
from Tufts to Tufts anytime soon.

of the clean Center Leaves are the mildest leaves—They cost more—They taste better.

Clean Center Leaves are the mildest leaves. This is why you'll never buy any other leaf. Luckies are always kind to your throat. Always live in the clean center leaves! Only the clean center leaves—these are the mildest leaves—They cost more—they taste better. Then—always in all-ways kind to your throat.

As you can see from this picture—Luckies' lime, smooth, thin-as-a-cigarette filter—saves you more than the cost of the leaves themselves. Luckies not only give you the cleanest leaves, but they keep their strength and flavor, too.

The clean Center Leaves of Luckies are the mildest leaves. For real men.

As usual, we must warn you: Luckies are sometimes kind to your throat, but they are never mild. The clean Center Leaves of Luckies are the mildest leaves—then—always in all-ways kind to your throat.
