#### THE COMPREHENSIVE FALLACY

It is perhaps too early to predict what the outcome of our new comprehensive examinations will be. However, it is not too early to say that, whatever the outcome, they will not present a true picture of the student's progress. The reason for this lies in the fact that such examinations represent an attempt to foster a new system on the decaying foundations of the old.

An apple tree, for instance, cannot be changed into a peach tree by the process of grafting, for the apples will persist, inasmuch as they are the inevitable product of a well organized natural system. And, though one may continue to grow peaches in this parasitical fashion, the final result will be to produce not only inferior peaches but inferior apples as well. Neither tree nor man can serve two masters well.

The desire for reform which underlies this present attempt is indeed commendable, but the practical results are bound to be unreliable. As matters now stand the student who enrolls in both year and term courses only serves to pave his scholastic highway with the stones of worry, befuddle-

The present arrangement plainly should not be allowed to continue. Either we should return to our old system completely or step forward and consummate our attempt at reform by immediately establishing the two-

#### REPRESENTATION FOR ALL

The almost complete lack of interest displayed by the non-fraternity men when they were appealed to by the student council to elect two of their number for council positions at one of our recent convocations seems to have been somewhat remedied by an attempt a few days ago to nominate by peti-

All these efforts went for naught, however, when the student council refused to accept such a petition.

There may be some feeling to the effect that the council was wrong in making such refusal, but the fact should be borne in mind that the non-fraternity men were given every opportunity to represent themselves. Not only were they given the opportunity, but they were also appealed to by individual members of the council to take such action.

In every social arrangement there must be a definite and systematic order of things, otherwise results can never be expected.

The non-fraternity men must either realize this and take some really definite action to make themselves a part of this functioning system or continue to exist in as quiet and ineffective manner as has been their lot in the past. There is, however, no reason why they should not be able to consolidate their interests and become a strong governing group in campus activities. That is, there is no reason beyond that of their own apathetic indifference. As long as they continue to live under such a pale banner let them be careful about placing the blame for whatever might not meet with their of keeping one's own reputation unapproval upon "fraternity politics."

It was my second brief dash into cal age, we are lost. When eminent the cold water of examinations for educators wax eloquent over the need he Rhodes Scholarships. There were twelve of us this time-two candidates from each state—waiting to appear before the Regional Committee

We waited around from 9 o'clock in

the morning until 8 o'clock in the evening, each one hanging on the exploited long enough; but when they hands of the clock, measuring the sucgamble their lives on—the develop ess of the candidate by the length ment of intellect—then a destruction of his stay, envying those who took of what we have built is better than moning machine-gun courage from the arsenal of our hearts to blaze away with all we had when we were away with all rock-bound opening of that rock-bound opening of the course before the examinations time. We sat in dark corners of the and figures before the examinations room, glancing nervously at each of the college course, they can n other, cudgelling our brains for the greatest weapons to use when our time came. It was comparable to the scene from Dante's Inferno, where a own time, read an article, and leave man sits holding his own head, star-it, and remember the facts it common sits holding his own head, star-it, and remember the facts it common head and drive the start and dr

Names were called, men went in, fought through a fog of questions, came out again. I was in there forty minutes. 1 remember only three questions they asked me. And to this day I know the name of only one man on that first committee I met, and he names of only three men on all committees I met in the space of three years.

Perhaps it is unfair to show the emphasis on time by the candidates when the men on the committees are dealing honestly with the problem from other angles, and giving freely of time needed in other things. But it shows the psychology of our youth. he missed being in college. His face It shows why America is time ridden, why certain conditions occur, and what to expect of the future. I may seem to be flippant and caustic. I am othing of the kind. I have every respect in the world for the committee men I met. They have a tre-mendous task. It is the principle underlying all this that I and countless others are rising against in force.

Ghiberti took fifty years to make his doors. Michelangelo worked for four years to create the ceiling of the Sistine Chapel. Yet, on the basis of one hour of informal questioning, the honor of greatest distinction—a Rhodes scholarship—is conferred upon students from all over the United

I stand among vast legions of American youth eager to grasp things comprehensively, striving to shake off the shackles of time. From the scheduled hour when we enter the registration office of a university, to the scheduled hour when we receive degrees, we live on schedule, we eat and reathe on schedule, and stuff our heads and empty our heads on sched-ule. We stare at tower clocks and alarm clocks until our faces are patient timepieces. We measure our lives by the time before the next class, by the time before the next assignment is due, by the time before

What wonder is it, then, that we stagger out into the fresh air of human society, conscious only of the frightful weight of time? What wonder is it that we present the man society. der is it that we pass into the machinery of modern living, hammered and beaten into the submission of mechanized parts, oiled for speed, locked into standard gears, moving involuntarily, not knowing any other life? What wonder is it that our Plans Chain of Cabins as 1935 Junior Class Annual Pretty soon this University will voices are dead before they can be ore we can wheel about and defy

President Hopkins of Dartmouth in the vanguard of those awakening to the disorder in the educational steeplechase. In a letter to the President of the University of New Hampshire he said: "We at Dart-mouth do not like the new method of selection of Rhodes scholars for we ago. He says now would be a good think that it works completely toward the standardization of type for the men chosen for those scholar-ships." This is precisely the core of the problem-complete standardizabecause there is no possibility of individual analysis and individual development as long as we are hung on the wheels of time, and turned out abelled and listed.

Nathaniel Peffer in a recent article, cut his life into sections of time rep-Educators Reaching for the Stars, resenting study, class examination shows that the grandiosity of our educational regime must fail, has he does is to carve himself into the failed, utterly. A system so bureau-cratic, a system so in the grip of charts and research and theoretical for the mutilation of his soul. packfiring, can only continue to produce standardized puppets. The integrity of which Stuart Chase laments the passing is never to be resurrected from a scheme devised only by those spiritual, our intellectual life? If it who experiment and tinker for administrative glory. If educators would stop trying to advertise and glorify their institutions, and concentrate on the cultivation of individuals, we would get somewhere. But leisure for insight and normal growth was left in the grave of the Eliza-bethans, all along the sacred forgot-ten way from Aristotle to the Renaissance to Goethe.

We as students ask only one ques tion: "Are we to be stunted or full-grown?" If it is to be full growth, then it can only be through the ef-forts of the one "who walks in the shadow of the temple, among his followers," and is allowed, socially and institutionally, to develop in a earned at least one-half of their ex-

Tyranny of Time

Alston H. Chase of Harvard states that what American colleges need is "leisurely, deep, and sincere study." In proclaiming this, he is the mouthpiece of thousands marching to a standard, the champion of a cause inevitable in its evolution and result. As surely as we swung away from the same and contemplative methods of this angular to the advances "The same collapse will occur. It is a law of human nature and mental development as well as of economics. When the man in charge of one of the most respected English departments in the country shakes his head and says, "You must get as many credits as rapidly as possible," I realize the immensity of the curse that has fallen upon us.

I am only one in thousands making this approal to the observer of the same to of Doctor of Philosophy, already having earned the Master of Science despressions.

As surely as we swung away from the sane and contemplative methods of the scholastics and the Renaissance, realize the insurgence of the ranks best and the sane and contemplative methods of the scholastics and the Renaissance, realize the insurgence of the ranks best and the scholastics and the swing back are supplied to the educators. They are supplied to the scholastics and the scholastics are scholastics.

Play at Franklin

#### Dick Powell and Ginger Rogers are Teamed as Romantic Singers

"Twenty Million Sweethearts," the First National romance of the radio for greater capacity, greater precision, either they do not know in what will be shown at the Franklin Theatre, Wednesday, June 13. tools of trustees and institutional policy striking a blow that rings a betrayal of our intellectual heritage.

The production is said to be a dis tinct innovation in film entertainment giving as it does the behind the scenes picture of radio entertainers and their task of pleasing the public. The story, by Paul Finder Moss and Jerry Wald, deals with the intimate romances of the radio folk, with their joys and tribulations, their struggles and successes.

While the picture is said to com bine drama, comedy, and romance in longer face anything with the desire to remember, with the ability to remember. They cannot, in their a well defined plot, it is interspersed with catchy songs written by Warren and Dubin and other music which give it color as well as adding to the liveliness of the entertainment.

There is a strong cast of players of widely diversified talents, with Pat O'Brien in the leading role, a semi-comic part in which he plays a fast talking though somewhat blundering talent scout for a radio company, who boosts others to fame while he himself is left out in the

The picture introduces a new ro mantic team in Dick Powell and Ginger Rogers, radio sweethearts, who sing for the public and make love privately. The Four Mills Brothers voices will be heard in catchy music while Ted Fio Rito and his band play the accompaniment to one of Powell's tuneful lays, as well as individu-

Others in the cast include Aller Jenkins, Grant Mitchell, Joseph Caw thorne, Joan Wheeler, Henry O'Neill, and Johnny Arthur. Ray Enright directed the production from the screen play by Warren Duff and Harry Sau-

### Commencement Gifts

Now is the time to be thinking of the gift you will make to your senior friend.

In making your selection, may we suggest a set of University Plates, a University Plaque or Shield, or University Jewelry.

The Chilton Fountain Pen is an ever useful gift.

Make your selection early and avoid the last minute rush for a suitable remembrance to a member of the Class of 1934.

#### THE UNIVERSITY BOOKSTORE

### YOUR **COMMENCEMENT GUESTS**

It will be your natural desire to entertain your Commencement guests where they will get a good impression of the University.

Good food, reasonable prices, and attractive surroundings are conducive to happy memories.

May we assist you in pleasing your guests.

> There is a rumor that we might be allowed to play touch football as a form of intra-murals next year. We hear that there is a new set of rules recently devised, and that the athletic department is in favor of this addition to the program. The only hold-up is the possible lack of sufficient playing space in the event that our new field is not ready. Pros are still barred.

That singles tennis tournament took a long time to get to the finals, but Marston and Mamos have met before will be out for revenge. Crawford is the other finalist, and he appears to be a splendid prospect for a possible tra-murals goes by without any of tennis team which we hope will represent the University next year.

> God rue the day when this editor makes another attempt at a comeback along the baseball line. There was an impromptu game last Sunday between the Lambda Chi's and Phi Delta U's, and I played! Or did I. I've been hearing mentions of baskets ever since. Just because I happened to drop two very difficult chances on high infield flies is no reason for people to take advantage. Next year I'll be on the bench with DR. WHITE REthe rest of the managers.

And so, farewell. The Durham Bull pointed a large group of enthusiastic may be a pacified cow next fall, but followers by flatly refusing to drown it still will have a potent punch now immediately after the meet, despite and then. And with apologies to any the requests of the huge group of enemies we have made this year, and spectators. We heard that there was goodbyes to any possible friend, we bid you Adieu!

### Pol. Sci. Majors Hold Dinner for Kalijarvi

Last Wednesday evening a surprise farewell dinner was given in honor of wenty-five junior and senior political cience majors at the President's dinning room in Commons. Professor Kalijarvi, who is to go abroad this summer for a year's study in Germany, has taught at the University for the past seven years, and will take a leave of absence at the conclusion of the 1934 summer school,

W. Robert Harris, '35, chairman of the committee that sponsored the testimonial dinner, acted as toastmaster, and called on speeches from George A. Sweeny, '34, William Grimes, '34, Virginia Wastcoat, '34, and Mr. Erwin Bard, instructor in political science. A short address by Mr. Kalijarvi, the guest of honor, concluded the evening's program.

#### Faculty Members in Debate (Continued from Page 2)

which has heretofore been the largest and most powerful representative of the workers, Mr. Bard said, is, nevertheless, not their only representative. The railroad brotherhoods have not gamated Clothing Workers, however, been other labor groups interweaving in committees, parties, and conferences in a minor radical movement. During the depression the leadership of the communist group has been growing among the miners, metalurgicalists, and so forth. Its policy is to work within unions of the A. F. of L. stamp to convert them into revolutionary unions by demonstrating that they are in a dead end street. But it is difficult, he said, to measure the power of the communists, for there have been no elections, and they are not primarily interested in elections, only as such.

strength or its future.

GAS ATTACKS ROTC MEN

Driven from the Wednesday afternoon exercises at Memorial field by a violent storm, the student cadets of the R. O. T. C. sought refuge in the basement of the gym which was in total darkness because the storm had damaged the power lines. The cadets placed their rifles in the racks and filed up the stairs into the gym. A bottle of ammonia fell on the floor. The ammonia fumes quickly spread all over the basement, and the darkness, the booming of the thunder, and the rain sounding in sharp rata-tat against the windows, simulated to a high degree the sound conditions which the modern soldier must face in battle. There was no confusion or panic. The doors and windows were quickly opened and the gas soon became sufficiently diffused to be harmless. The cadets are to be congratulated for their coolness under fire,

### RANCHYNOSKI **HIGH SCORER**

Segole Wins Diving for AKP—Puts ATO Out of Running

Coming from behind by virtue of a victory in the swimming races held on Tuesday afternoon, the Theta Kappa Phi nosed out the Alpha Tau Omega fraternity as well as the Phi Delta Upsilon by one point to win the All-point trophy.

Trailing by eight points up to this week, the Theta Kappa's came through in the swimming events, led by Ben Lekesky and Leon Ranchynoski, traek stars. Lambda Chi Alpha took second in the swimming meet, with Alpha Kappa Pi third and Alpha Tau Omega fourth. Phi Delta Upsilon, leading until the final event of the season, was shut out in the swimming meet, and therefore lost their chance for the title.

The swimming meet, and incidentally the All-point trophy race, was decided by the final dive of the diving contest, which was won by Segole of Alpha Kappa Pi, giving his house a third place in the meet and cutting down the Alpha Tau Omega score by three points.

Theta Kappa Phi gathered in three trophies during the year to pile up the points necessary to win the trophy. Last fall they were defeated Commencement Exercises by Phi Delta Upsilon in the relay race, but defeated the same house in the basketball final. During the winter term they managed to cop boxing, place fourth in winter sports, failed only seniors take part. This is the first year in which the Theta Kappa Phi has won the trophy. Alpha Tau Omega would have retired the cup from competition had they scored three more points in swimming. Lambda Chi Alpha and Theta Chi also have two legs on the cup, which will be the prize for next year's winner.

### the Late Christopher Bean Insures Success

as in past performances presented a character that is kind and sympathetic. There is no trace of the sloppy sentimental or the Pollyanna in any role that Miss Welch portrays. She has shown again a strength and a firmness in the portrayal of Abby, general maid to the Haggerts and sole benefactor of Christopher Bean, which speaks well for her work.

The romantic interest was well ure the pledging of Howard Kramer, none by the two juveniles, Donald MacArthur and Lucille Sterling, who were cast as Warren Creamer and Susan Haggert. Miss Sterling was effectively sweet as the only member of the family to refuse to stoop to unfair practices in their greedy rush for easy wealth.

> The Critic, the Forger, and the Dealer were played by Donald Fassnacht, Nathaniel J. Eiseman, and Donald McIsaac. Fassnacht is well known for his brilliant work in past Mask and Dagger productions and in this turned in a performance possessing both dignity and strength. Eiseman put into his work just the right touch of impertinence to be convincing as a smooth talking, unscrupulous forger of art work. Don McIsaac came to the play without any previous experience and played sincerely a part which might also have been burlesqued, that of a Jewish dealer.

The complete cast is as follows: Abby, Carolyn Welch, Andover, N.
