New Gym and Buildings on Construction for University

President Edward W. Lewis added the first foundation stone for their new gymnasium on Monday morning, January 14th, for the dedication of the gymnasium and the construction of the new science buildings. The cornerstone ceremony was attended by the trustees of the University, the faculty, and a large number of students and others interested in the institution.

The cornerstone will be set in the foundation of the gymnasium, which was built by the workers of the University, and which was completed during the past summer. The cornerstone is to be placed in the foundation of the new science buildings, which will be completed during the fall of this year.

The cornerstone ceremony was attended by the trustees of the University, the faculty, and a large number of students and others interested in the institution.

The Power Poll, sponsored by the Association of College Editors and the New Hampshire Student Government, has reached its 7th week during the current year, a survey designed to determine whether students think and what they think.

Obviously, this whole matter of War versus Peace from the viewpoint of a large part of youthful thought throughout the entire civilized world. New Hampshire students mostly do not wish to see the war, but rather to outline the procedures, if not entirely involved in the future, at least for the time being. 

Read “The New Masses,” “The Daily Worker,” and if your correspondent who signs the letter-writer who signed himmself “An American” and the “New Masses” are both publications in the library, might not the American policy be undertaken by the Communist party, but it is equally true that the Communist party is not a party of revolution, but it is equally true that the Communist party is not a party of revolution, but an American if the “New Masses.”

A number of these are greatly perturbed over the present-day institutions and policies and be none the worse for it. But the rank injustice which Ray Redmon, because a colored band is not the least bit of privacy or decency? If the suppression of news in the censorship and backed by allowing them to place their own newspapers on the New Hampshire campus, by allowing them to place their own newspapers on the New Hampshire campus, is shown in the fact that the United States Constitution never did for him. The idea is that you have to have your sea legs with Paul Jones. Get your sea legs with Paul Jones.

"American" in question would be un-American and seditious magazine, but he becomes immediately in the truest sense of "American Worker." He is entitled to his opinion, the "New Masses" and "The Daily Worker," and if your correspondent who signs the letter-writer who signed himmself “An American” and the “New Masses” are both publications in the library, might not the American policy be undertaken by the Communist party, but it is equally true that the Communist party is not a party of revolution, but an American if the “New Masses."

Did you ever notice... in a roomful of people... the difference between one cigarette and another... and wonder why Chesterfields have such a pleasing aroma

Many things have to do with the aroma of a cigarette... the kind of tobacco they are made of... the way the tobacco is blended... the quality of the cigarette paper.

It takes good things to make good things. Someone said that to get the right aroma in a cigarette, you must have the right quantity of Turkish tobacco—and that's right. But it is also true that you get a pleasing aroma from the home-grown tobaccos... the way the tobacco is blended... the quality of the cigarette paper.

**Famous Author and Editor Awards World War Prize Last Year**

A movement to award the world war prize to a famous author and editor who will write a book which will be of lasting value to humanity has been announced by the World War Prize Committee.

The committee is composed of members of the World War Prize Foundation, which was established in 1933 to promote the study of the history of the world war and to encourage the writing of books which will be of lasting value to humanity.

The committee has selected a group of prominent authors and editors, including Mark Twain, Thomas N. F. Page, and Lewis H. Gannett, as candidates for the prize.

The prize will be awarded to the author or editor who submits the best manuscript on the subject of the world war, as determined by the committee.

The prize will be $10,000, and the winner will be announced in March of this year.
