Brief for Semester Plan Given to Prexy

Complete Report of Work of S. A. C. Presented "Double Time" Saturday Afternoon

Friday morning a committee of the Student Advisory Council met in the auditorium of the library and presented to President Lewis a complete report of work for the semester.

The entire report covered three things: A brief for the second house, an explanation of the history of the Liberal Arts faculty, and a brief for the semester plan.

The meeting was called to order by President Lewis. After the roll was taken, the first item was discussed. The report covered the history of the second house and was presented by the members of the committee.

The second item of the report was a brief for the second house. The report was presented by the members of the committee and was accepted by the council.

The third item of the report was a brief for the semester plan. The report was presented by the members of the committee and was accepted by the council.

The meeting was adjourned by President Lewis.

The Anti-War Demonstration Committee of the Student Council has completed its plans for the campus strike which is to be held on Friday, May 12, at 11 a.m. in the University gymnasium. At that time Professor Searns Morse of Dartmouth College will address the student body on the problem of War and Fascism. Professor Morse, assistant professor of English at Dartmouth, is well known as an anti-warist as a lecturer on the White Mountains, and as chairman of the Branch of the American League to Abolish War and Fascism.

The committee, composed of Nathaniel Ellisman, chairman, Edward Tuttle,落到实处, has secured the partial approval of the University Administration of the Student Council petition. Permission has been granted for the special meeting, and the use of the gymnasium has been made available to the committee.

The committee is now preparing to carry out the strike, and all students are urged to attend the meeting. The strike is expected to last for two days and will not count as vacation.

Sororities Choose Miss '37 Delegate

Attention campus! The Sophomore Hop committee is at the present time making arrangements for the Sophomore Hop, which is to be held on Tuesday, May 1, at 8:00 p.m. in the gymnasium. All juniors and sophomores are invited to attend.

The purpose of the Sophomore Hop is to provide an opportunity for the junior class to meet and get to know each other.

The committee has arranged for a variety of entertainment, including music, dancing, and games. There will also be a prize giveaway at the end of the evening.

Tickets for the Sophomore Hop will be sold at the door and are priced at 75 cents each. All proceeds will go to the Sophomore Hop fund.

The Sophomore Hop committee hopes to see a large turnout of students. So mark your calendars and plan to attend this exciting event!
THE NEW HAMPSHIRE, APRIL 9, 1935.

THE SEMESTER PLAN

The brief for the semester plan which was presented to President Lewis a few days ago by the Student Advisory Committee is a welcome indication of awakened student interest in the problems of education as they affect the future welfare of the youth of America.

The University of New Hampshire, like most other institutions, has had to meet the term plan ever since the termination of the World War. In fact, as was brought out in the report of the Student Advisory Committee, the exigencies incurred during the World War have made necessary a reorganization of the term plan, responsible for launching the term plan on this campus. It is further pointed out in the student report that, after the signing of the armistice, many of the other universities returned to the old term plan, while most of the other students returned to the old term plan because of their opposition, with threats that they could be expelled if that plan were not sanctioned. The For­eign Wars, stated that the American Community of the committees to decide, "whether the great force of pub­lic opinion and the possibilities of fusing will prevail" as a strong ex­ponent of this and similar bills. The United States is a state of several states, and it is evident that the American student body is fully willing to win with him in the drive for American Fascism.

The President of Eastern Col­lege and Amherst, among others, approved of the plan. At the hearing, the American student body is generally unwilling to accept the end of the World War. In fact, as was brought out in the report of the Student Advisory Committee, the exigencies incurred during the World War have made necessary a reorganization of the term plan, responsible for launching the term plan on this campus. It is further pointed out in the student report that, after the signing of the armistice, many of the other universities returned to the old term plan, while most of the other students returned to the old term plan because of their opposition, with threats that they could be expelled if that plan were not sanctioned. AVIATION COURSE IS OFFERED TO STUDENTS

Information concerning aviation training offered by the University of New Hampshire and the corps to college men has been received by the university. The first step toward the formation of a Reserve of trained pilots, the following details have been inaugurated. Each year a number of college men who have been graduated within the last 10 years and who are between the ages of 20 and 29 and unmarried, are enrolled in the U. S. Naval and Marine Corps Reserve for aviation training. After passing physical examinations, one month of flight training is given at an aviation center. The Reserve Aviation Base is required. Upon the satisfactory completion of this course the student will be sent to the Naval Air Station, Pensacola, Fla., for the completion of the flying course. This course lasts about ten months and consists of approximately 225 hours of flying as well as a course of study in engineering, navigation, radio, gunnery and aeronautics.

The Reserve Aviation Base at Seattle, Mass. expects to start six classes of one month's duration each on May 13, 1935, and no later, to be recruited in the First Naval District which includes the states of New Hampshire, Vermont, Massachusetts and New York. It is expected that several hundred recently graduated students will be interested in trying for the Reserve Base. Applications should be sent to the personnel officer blanking at this call by any student.

Dressing Hay Lands.

The work of dressing hay lands to supply organic matter has been found to be of first importance in restoring old hay lands to a good state of productivity. This work is done by cutting the hay, spreading the sod, and then plowing with a moldboard plow. The sod is broken up and returned to the fields, and the plots are then cultivated at some distance from the fields. As the fields are dressed in an area, the plots are then plowed and planted.

Building Erected for Poultry Dept.

A building, the third of its kind in the country, for the production of vaccine for infectious bronchitis in fowls has been erected south of the greenhouses for the Poultry department of the New Hampshire Agricultural Experiment Station under specifications from the Bureau of Animal Industry in Washington. The building is equipped with automatic heat and contains experimental equipment for the preservation of materials. There is a combined locker and shower room for the workers in which clothes are changed so that inoculation being carried from the stock house will not be transmitted to other flocks.

Fertilizer Experiments on New Hampshire Soils.

Soil types that were representative of the sections in which these fields were located. The work in producing new fertilizers furnishes the "laboratory" in which the Agricultural Experiment Station works to improve farm produce and farming practices in New Hampshire. The personnel of the department was increased, and during the succeeding years fields were leased in various localities in the state on soil types that were representative of the sections in which these fields were located.

Work of Agronomy Department Helpful to New Hampshire Farmers.

All localities in the state which engage in agricultural activities furnish the "laboratory" in which the Agricultural Experiment Station works to improve farm produce and farming practices in New Hampshire. The personnel of the department was increased, and during the succeeding years fields were leased in various localities in the state on soil types that were representative of the sections in which these fields were located.

The work in Durham on cutting hay at different dates has had a spectacular appeal to New Hampshire farmers since this experimental evidence indicates that hay cut in June is about 50% more valuable for dairy cattle than July cut hay. That our farmers are convinced of this is evidenced by the fact that the traditional date for starting haying, July 5, has been abandoned in many instances, and hay is cut two weeks sooner.

Earlier Date

The abundant bacteria in the soil and to supply organic matter has been found to be of first importance in restoring old hay lands to a good state of productivity. If this step is then followed by the proper use of new fertilizers, good yields and profitable returns follow.

Publications soon to appear are on "The Expansion of the University of New Hampshire," "A Book of Great Poetry Selected," "The New Hampshire," "Harlow Speaks Here" (Continued from Page 1), and "The University of New Hampshire" (Continued from Page 1).

Harlow Speaks Here

(Continued from Page 1)

... letters have been sent to all New Hampshire men who are engaged in college work, urging them to be present. From the response to these letters, it is evident that many former University alumni will come to the meeting on Wednesday. Major Donovan Swanton of the Military Department has volunteered to serve as the chairman of the meeting. The Major has the reputation of being a stellar performer in this capacity.

Director of Athletics, W. H. Cowell, will present certificates to the men who have earned their letters during the past year.

W.W. A. MONTHLY MEETING

W.W. A. meeting will be held on Monday, May 14, at 8:00 p.m. in the auditorium. Address of Dr. Margaret R. McNeely will be on "The Death of a Child."

Frosh Infield Cut to Six Candidates

Many of the Squad Have Had Experience in Other Sports

After a long workout in the cage at Phillips Exeter Academy last Saturday, Coach Carl Lundholm of the varsity baseball team made his first cut of the season, limiting his infield to six men, all of whom will have a fine chance of breaking into the starting lineup.

Almost all of these frosh have had experience in other teams. Tommy Giarla, Jim Kelliher, Charlie Cotton and Art Hanson were all members of the basketball squad, while Jimmy Fenlon played on Howie Hanley’s hockey squad. The sixth member of the infield is Du-bricker.

Lundholm has not yet made any plans concerning his outfielders. Many of the candid- ates, he says, are are cut from the in- field and will be told to report to the outfield, and will work out next week.

"Bill" Lyndbourg, brilliant pitching prospect, may be used to bolster the infield unless there is a sufficient left-handed combi- nation without Lyndbourg. Bob Kersacak is another pitching pro- spect, while Westcott, Karanakis, and Kenison are the other outfielders.

Lundholm has cut his catchers down to "Bull" Martin, foot- ball player; "Skeeter" Sullivan, hockey player; and "Bill" Martin, baseball player. Gifford, football and baseball star, and "Johnnie" Goodman, Lundholm hopes to work out with the baseball squad early in the week, and solve his outfield problems soon after by getting some batting practice sandwiched in if possible.

Old Gold Contest
Awards $50 Prize

Any fraternity or sorority wishing to add $50 to the usually depleted treasury would do well to invest in Old Gold cigarettes. Old Gold is sponsoring a contest among the Greek letter groups on campus by offering this sum of money to that one whose name appears on the greatest number of Old Gold package fronts within the period from April 5 to May 10. Each package front counts as one vote, and covers from flat-fifties count three. Votes should be deposited in ballot boxes located at Grant’s, the College Pharmacy, and the Wildcat.

Votes will be tabulated on April 26 and posted at those stores, and none will be honored after midnight, May 6.

A committee appointed by the New Hampshire will check the ballots and the prize will be presented to the fraternity or sorority by William Corcoran, editor of The New Hampshire.

O. C. OFFICERS TO BE INSTALLED THURSDAY

Installation of the newly elected officers of the Outing Club will be held next Thursday at the club cabin at Mendum’s Pond, it was announced this week.

At the first trip to the club cabin held last Thursday evening, place for the 1935 Inter-collegiate Outing Club Association Convention were discussed. It was decided that the New Hampshire club will send four delegations to Middlebury College, hosts of the 1935 gathering.

Those attending the first Outing Club camping trip of the term last Thursday were: Edna Boyd, Constance McNaughton, Eleanor Thompson, Walter Brown, Clint McLane, Willis Bartlett, Frank Thomson, John Sanders, Lewis Crowell, Alvin Parker, Oliver Wallace, Frank Sargent, Philip Trowbridge, and Edgar Wyman.

Today the Governor of North Carolina says to the Governor of South Carolina—

"Have a cigarette"

TODAY people all over the world use tobacco in one form or another. They chew it, they smoke it in pipes, they smoke cigars and cigarettes, and here is what an eminent physician said about cigarettes:

"I have been something of a student of cigarettes, and it is my belief that they offer the mildest and purest form in which tobacco is used."

Yes, nowadays the cigarette is the most popular form in which tobacco is used. A good cigarette certainly gives men and women a lot of pleasure.

Have a Chesterfield—
For one thing—they’re milder.
For another thing—they taste better.

—so far as we know tobacco was first used about 400 years ago
throughout the years what one thing has given so much pleasure...so much satisfaction
