NEW COURSE OFFERED BY THE GEOLOGY DEPT.

In a course offered for the first time, students will be given an opportunity to acquire information concerning the various aspects of the earth and the oceans. The new course is Geography and is open to all students as elective.

Professor E. T. C. is the first term's work, a regional study of the world, special attention is directed to the processes which are constantly changing the appearance of the face of the earth. The work is drawn from all parts of the world. This is not necessarily prerequisite to the second term, which deals with the oceans, and with the weather and climates of the world. The second term's work constitutes a more detailed survey of North America with special emphasis directed toward the United States.

N. H. REPRESENTED AT OUTING MEET""...

Two Years of College Necessary for Entrance

The United States Army Air Corps is offering something new in the way of instruction in the field of aviation by making available training in this career for any student in the United States who has completed two years of college. The course includes the basic course in the R. O. T. C. program.

ARMY AIR CORPS TO OFFER NEW COURSE

For some years past, these schools, to which the term key has been given the opportunity, when vacancies occur, to elect representatives as Second Lieutenants in the Army Air Corps to fill positions as instructors in the field of aviation. A representative has not yet been appointed.

Fred Montrone and George Stenzel, sophomore members elected, are Alf Thompson, Blue Key member, member of Lambda Chi Alpha fraternity, and Editor of the Granite, were the candidates whose fathers are farmers. There is a difference between the various classrooms, and inspecting officers, Major F. F. Gallagher, C.G. and Major Graham, N.C. of the staff of the First Corps Area in Boston will be Inspector.

The annual federal inspection of the University R. O. T. C. unit will be held May 28 and 29, it was announced recently by Major Tovanes Swann, adjutant in the Military Science department.
EDITORIAL

All over this country of ours we have heard muffled murmurings and there are now the so-called radicals of our college world who want to bring reforms. There are many people which has begun to tremble in our country and it is apparent that its power and prestige stand in jeopardy. The fight to preserve it will be a bitter and unending one.

The colleges have always produced great men and women and it is peculiar of our country that as the number of students increases so much more room for improvement is being made available. This is due to the fact that the students are more discerning than in the past and they are more likely to recognize the shortcomings of the college. The time has come when they are the students of the college and not the college of the students. It is for this reason that the colleges have made such improvement as they have made.

The colleges are no longer the great institutions of the past, but they are becoming the great institutions of the present. The colleges are now the great institutions of the future. They are the great institutions of the future because they are the great institutions of the present. They are the great institutions of the present because they are the great institutions of the past. They are the great institutions of the past because they are the great institutions of the future.

New Hampshire Nine Upsets Friars, 6-5
Wildcats Hold Early Lead as Mose Saliba Twirls Ten Inning Game

The New Hampshire varsity nine received credit after turning back Providence, Tuesday evening, having defeated the almost impregnable Providence College club 6-5.

New Hampshire got off to a fast start by scoring two runs in the first inning and one in the fifth. However, the Friars came back to tie the score in the sixth and managed to score again in the seventh. This circuit closed by Reid, F. C., slugging in, in the seventh, the Friars came one run to the good. Seemingly undaunted by the sudden change of fortunes, the "Wildcats" opened the eighth determined to avenge last Wednesday's defeat. Providence seemed to acquire momentum in the sixth and managed to make scoring three runs in the sixth tied the score and made it 4-4. Again the Wildcats tied the score and made it 6-6.

In the final innings, New Hampshire scored two runs to win the game, making it 6-5.

Varisty Track Team Meets Bates and Maine at Lewiston
Funston Elected Captain of Varsity for Second Year

Any chances the New Hampshire varsity nine had of winning third place in the recently held triangular meet with Maine and Bates at Lewiston this Saturday disappeared when the final score 7-8. New Hampshire lost to the heavily favored Bates team on Saturday and to Maine Monday. The final score was 7-8. The Bates team has been unbeaten in the last three seasons and is expected to win the New England meet at Harvard in May.

Funston Elected Captain of Varsity for Second Year

Funston, who has been one of the stalwarts of the New Hampshire varsity nine, was elected captain of the team for the second consecutive year at a meeting of the team on Tuesday. This was the first triangular meet that New Hampshire has taken part in for eleven years and due to the peculiar balance of power in the three teams, the chances of winning are not very high.

Baseball is particularly strong in the weights, with Kishon and Johnson among the best in the country, in the hammer and discuss. Kishon is also very good with the shot and javelin. Bates locals three other outstanding performers who are Manger in the pole vault, Kreamer in the high jump, and Keller in the broad jump.

The University of Maine possesses very much the same balanced team as they showed by winning the State of Maine Championships, fall- ing to the colleges in the first three events.

The 100-yard dash, half-mile and the javelin they are impressive, and with outstanding performers from the New Hampshire team in this meet they look equally strong in the 440, mile, and two mile events. The 440-yard dash and 200-yard dash, and has a great chance to win.

New Hampshire could gather enough seconds and thirds and fourths to back up Funston's efforts they might come out on top. The first two meetings of the year have established the lights of the game was the double play between Landy to Chase and then to Bogan.

PROVIDENCE COLLEGE

New Hampshire 200 001 000 20 0 1—6
Providence 000 100 000 00 0 0—5

New Hampshire had been playing their best lacrosse their team without any losses except one against a team so much their superior.

Captain Merittcher, Milchaler, K., and Towler changes plenty of credit for their efforts against such a team. The New Hampshire's defense tightened up and held the Harvard offense off for nearly seven minutes. In the final period Ed mitigation the score.

The Lambda Chi's won 12-6 the Boston office. Tied the score again made almost as soon as the ball landed. Kishon and Johnson, in the three teams, the chances of winning are not very high. Monday, New Hampshire were Karazia, Muthins, England's running-mate, made almost as soon as the ball landed. Kishon and Johnson, wide receivers, and made almost as soon as the ball landed. Kishon and Johnson, in the three teams, the chances of winning. Monday, New Hampshire were Karazia, Muthins, England's running-mate, made almost as soon as the ball landed.
**SPHINX OFFICERS ARE ELECTED AT MEETING**

SPHINX, junior honor society, elected their officers for the evening year at a meeting held last Monday night. This was the second meeting which was held to elect officers because of the result of the voting at the first meeting was a tie. The officers elected are: Donald Tunow, president; Alvin Lewis, vice president; Robert Smart, secretary; Helen Mattson, treasurer. Not all of the fraternity members have chosen their delegates as yet, those so far chosen are: John Dane, Theta Chi; Alvin Lewis, Phi Mu Delta; David Ten, Theta Kappa Phi; William Fainey, Kappa Sigma; Edward Mattson, Lambda Chi Alpha; and Donald Tunow, non-fraternity representative.

There will be a meeting next Monday night at which will be decided the date of the banquet for the outgoing members.

**Durham Women Attend Meeting at Dartmouth**

The ninth annual meeting of the New Hampshire branch of the American Association of University Women was held on Saturday, May 11, in the Dartmouth Outing Club house in Hanover with several Durham women in attendance.

Reports of chairman and branch presidents were given at the morning session, Dr. A. H. M. in Essex county president, presided at the meeting.

Great Bay branch members of the A. A. U. W. who attended the meeting were: Dr. W. M. G. L., state president, Miss Dorothy C. V., state secretary, Mrs. Helen F. M. Laughlin, Mrs. M. M. Smith, Mrs. C. F. Jackson, Mrs. Ethlyn T. C. Hardman, and Mrs. Helen Leighton.

**WEEK-END WEATHER**

Friday, May 17, 8 a.m.

Pressure is low over the Rocky Mountain states but no well-defined storm has yet formed. If a storm develops in that region it may bring some rain here by Sunday. This seems to be the only likelihood for important development this week-end.

Friday. Generally fair and warmer. Gentle variable wind.

Saturday. Fair and warm in the morning possibly becoming gusty.

**NEW ENGLAND PLANT SPECIALISTS MEET**

An annual convention of Plant Physiologists Starts This Afternoon

The Plant Physiologists of New England will hold their annual meeting in Portsmouth this afternoon. Sixty delegates will attend, including prominent botanists of the University of Maine, Dartmouth College, Massachusetts Agricultural Station, Harvard, Yale, and Connecticut Agricultural Experiment Station.

C. G. Dauber of Yale University will chair the meeting, and L. H. Jones of Maine State College spoke on "Plant Growth Hormones," and C. F. A. Naves of Harvard spoke on "Plant Growth Hormones" tomorrow evening. An illustrated lecture will be given on "Gunpowder" and "Blue " as the dinner at the Concordia this evening.

Dr. Robert B. Vickery, who addressed an open meeting of the Graduate Science Society yesterday in James Hall, on Protein Chemistry in Relation to Dentistry, will attend the meeting.

**Five University Girls in Portsmouth Pageant**

Five University of New Hampshire girls participating in a pageant "Let's Forget" showed up early in the history of the New Hampshire Federation of University Women's clubs in 1919, given Tuesday night in Portsmouth. The girls were: Mrs. L. M. E., state president, presided at the meetings.

Great Bay Branch members of the A. A. U. W. who attended the meeting were: Dr. W. M. G. L., state president, Miss Dorothy C. V., state secretary, Mrs. Helen F. M. Laughlin, Mrs. M. M. Smith, Mrs. C. F. Jackson, Mrs. Ethlyn T. C. Hardman, and Mrs. Helen Leighton.

later in the day. Gentle winds becoming southerly.

Sunday. Partly cloudy with showers during the day.

**CHRISTIAN WORK GIVES PROGRAM FROM WHEB**

On Saturday, May 11, at 9:00 P.M., a program dealing with race problems was broadcast from station WHEB, at Portsmouth, under the auspices of Christian Work. Mr. James Moore spoke of "The Negro," and Miss Dorothy Schumaker spoke on "Justice to the Negro." Both programs were broadcast from the Great Bay Branch of the American Association of University Women, Portsmouth, under the auspices of Christian Work.

**BARNACLES HOLD MEETING**

The Barnacles held a meeting last Wednesday night at the home of Dean and Mrs. C. F. Jackson, members of the Connecticut Agricultural Extension Station at New Haven. wagon hot dogs, sandwiches, and brown or navy for sandwiches and brown or navy for sandwiches and brown or navy for sandwiches.

**WOODWARD SPEAKS TO LIONS ON NEW DEAL**

Another of the Outing Club trips to Menden Pond was held last Wednesday evening when thirty-four students and faculty assembled at the cabin for supper.

**OTHER STORIES**

**SCHUMAKER SPEAKS TO LIONS ON NEW DEAL**

The Lion's Club of Durham met on Monday night at Tavern Tavern. Professor Woodward, head of the department of forestry gave an address on "Forestry and the New Deal" in which he presented the problems and questions connected with the reforestation of dry lands and the methods of preventing forested lands from becoming desert. He also presented the proposed rate of reforestation which number producers and the valuable work done to date for the CON
