Student Contributions Are Needed for Trip to Germany

Edward J. Blood, U.N.H. ’35, selected as first alternate to the Olympic games in Garmisch-Partenkirchen, Germany, will be supported by an Olympic fund committee of the University of New Hampshire, made up of students, who are appealing to the student body of the University and townspeople of Durham to give their whole-hearted support by contributing to the fund to back him.

Early last October the American Olympic Committee selected 33 members of its team to participate in the four games. Blood was among those who bid the name of Ed Blood. As an alternate his expenses will not be paid out of the funds raised by the American Olympic committee, but his chances of competing in the games are equal to those of the regular members of the teams who are trying to be held in Germany to determine the actual competitors.

Although Blood was selected early in October, it was not until last Saturday that he knew he had won the trip to Berlin. He could leave from his present job.

New Deal Trends

The first returns of the Literary Digest's New Deal poll show a trend among the first returns reflecting anti-Bill supporters in the five states in the south and west, 53.28 per cent voting against the New Deal. The new members before next November will depend largely on the improvement of the emergency measures of the New Deal. It is probable that the improvement is symbolized by the “Youth’s” vote.

Almost coincidently, but preceding, by only a day the American Manufacturers’ Association meeting in New York, Governor Harold E. Clough, addressing an audience in Detroit Town Hall made the following statement: “I believe there are already a sufficient number of individuals who have already taken an interest in New Deal policies and have looked toward a return to power that will make it possible for them to grow in strength as a result of this interest the people become poorer and poorer.”

“The issue is Fascism or the Americana of the founding fathers. I say this fully realizing that it is not possible at the present time to have a popular vote to be made to cause us to believe that Communism is the most practical way to solve the problem of our times.”

In this statement the President of the University of New Hampshire to the 1936 Olympic Games. This drive should be of interest to us all as a college town.

Testament of Youth by Virginia Woolf, a chronicle of a shattered, twisted life, a tragic denouement of the war generation, is symbolized by Miss Woolf’s life in the Testament of Youth. It is a powerful story of love and happiness, whose deepest meaning is enshrined by their memory and obliteration as a result of the final victory. It is a powerful story of youth, and stands for all the sacrifices that contributed to the end of the world war. It is a powerful story of youth, and stands for all the sacrifices
