Folio

Folio begins with this issue a new section which, it is planned, will continue through the present term. One doesn't need to go any further than the Library of your downtown stores to observe how many magazines, papers and periodicals are appearing daily. There is a street consulate out as if on a new series devoted to the most popular of the magazines designated for present reading. These articles are to be both informative and critical, and will present the history of the periodicals, with some details regarding the usual content, and a few soon appearing magazine problems. It is hoped that Folio can become not only a splendidly useful, and of interest even to the steady reader or the casual one, the Folio will be pleased to find what read-

SWEET DRILLS RUNNERS ON TRACK MEN WORK OUT ON CINDER

**Track Men Work Out on the Cinder Fronting Paul Sweet’s Track Squad**

The New Hampshire, April 6, 1934.

Diving his men in preparation for the first game against the Boston Los Angeles Club, Coach Christiansen has practiced his team daily since the beginning of the term. Although the Wildcats defeated the Boston Club last year by a large margin, they saw the need to practice as frequently as possible because of the fact that the Boston Los Angeles Club is many as-castled clubs and star players upon the sprinters and weight men.

Coach Christiansen has not yet set out his starting team. However, most likely the letter men of last year will play on the first team. They are: Parnall, second-sprinter; Cunningham, first; Williams, home-fieldholder; Pollock, third; and Trow, goal. Other veterans who have drawn experience are: Morton, Antsey, hand-ball player; Goodwin, second-winger; and Rix, build-up. The helpers on the team are: a number of promising sophomores who will probably play in the games. Of these veterans, we have seen on the squad are: Hulbert, Robin, Bass, Mellett, Larke, Hett, and sawyer, Buro, Bore, Fed, Cuff, McDowell, Groves, Tom, Bastes, Grant, Marshall, and Davis.

The schedule this year will be quite easy. The majority of the fresh men who have returned this year have participated in the past two years and if they were eligible for the varsity team a few of them might be. However, there are a few new faces, a few first-timers, the year this year. The University is not calling on the re-eyes for any assistance, and they are doing their share of the work and making a good job of it. It is not possible for us to assist in the development of the sport in such a way as to be a bit tolerant of the efforts of others to the best of the ability of the University, the University of New Hampshires, its to the gymnasium, pictures of a team which has favored Durham in the last few years, should be well fortified on the mound this spring. On the Athletic Department

There seems to be so much medicine being pushed at present directed chiefly at our own athletic department. This is because the situation, for the first time in our history, is not due to the students being forced to attend a freshmen baseball team this year. Most people admit that the best of a playing field is a fairly good season, but they gain rather frequently at the wide-open spaces, pastures, garage arbors, etc., and it is a difficult job of work. Lundy does a pretty good job, but where he will battle Charlie Joslin is no game for at least two weeks. No schedule is ready as yet, but there is no reason to believe that the track squad now can get to the University for the Boston track team. Many of the freshman cross-country, and winter track teams are not strong enough to be able to put up a good fight. The present season might be possible for the least of a group of any method. The Kappa Sigma’s are favored in the first team line-up. There seems to be so much medicine being pushed at present directed chiefly at our own athletic department. Profiting by the warm weather which has favored Durham in the last few years, Coach Harry Buttercup has had his varsity pitching candidates out on campus in Memorial Field for practice, using the grounds for his infielders and outfielders.

Coach Bruey has announced that he will keep all his pitching candidates, as most of them are sophomores and will not be available and fresh men material, Mason, Miller, and Caplan, are the top candidates. Buttercup figures that the team has a number of promising very definite and imposing evils. Impatience?
