DURHAM, N. H., APRIL 3, 1936.

EDITORIAL

The new catalog shows many changes which have been long needed. More, however, will be brought about by the introduction of the semester plan but others are the result of a study of student needs and which are as essential to attract them. The University of New Hampshire has been invited by the National Office of Education to participate in a research project, the subject of which is "The Training of Teachers in High School Education and its Influence on the Teaching of Mathematics." The findings of the research will be used by the National Office of Education in formulating standards which is very gratifying and will work toward betterment and advancement of education. Because of a lack of space, services cannot be provided in all the departments in the present catalog but fall in each dormitory there will be a room where the major needs for meals or press clothes. The need for press clothes is affected by the fact that many students have been converting their rooms into offices in response to the great number of solicitation letters to the contrary. The new arrangement will provide the student with more room, comfort and safety. There are many a few of the new presses now to be inaugurated fall fast but all these changes which are described in the catalog did not occur spontaneously. The students laid the groundwork to the administration to the extent that they wanted the semester system. It took a lot of extra work but the students laid the groundwork for a more general official sanction. The semester plan has been adopted because they felt the groundwork necessary before it could be put into operation. The new plan has been and is to be revised, evaluated, and made to fit the two periods in the two years of the periods. Not only were studies affected but the administration had to work out a system to do the work that had to be worked out so as to fit the new system.

The work has been done now, and the new system is finally ready to go into effect.

"Stage" Will Give $100 For Play

The English Department has received notice that "Stage" will pay $100 for the best original play in each college competition. All colleges have participated in the accredited work of students and must have the "Stage" in the competition for the English or Dramatic Departments The contest closes March 1. The submitted work may see Professor C.E. Tyrrell for further information.

Pan-Hellenic Plans Semi-Formal Dance

Sorority Ball Promising First Major Social Event of Term

The first major social event of the term, Pan-Hellenic ball, is to be held Friday evening, April 11. This dance will be held in the Danforth gymnasium and is semi-formal. It is the opinion of many that the Pan-Hellenic will prove to the administration that they have the necessary number of pledges and pledges and guests are invited. The gymnasium will be attractively decorated by the committees on decorations and will feature the Alpha Xi Delta and Chi Omega sororities. Other committees including the Alpha Phi Omega, Kappa Delta, Delta, Theta Epsilon, pom. Phi Mu, and orchestra, Alpha Chi Omega will assist.

The music will be furnished by Bob Grad and his orchestra.

UNH ENJNGH IN RESEARCH PROJECT

The University of New Hampshire has been invited by the National Office of Education to participate in a research project, the subject of which is "The Training of Teachers in High School Education and its Influence on the Teaching of Mathematics." The findings of the research will be used by the National Office of Education in formulating standards which is very gratifying and will work toward betterment and advancement of education.

The belief of many people that science are important for successful for college work is believed to be answered by this study.

New Officers Chosen at Phi Delta Upsilon

At the annual election of officers of Phi Delta Upsilon, fraternity Tuesday, Harald Clark, '27, was chosen president; Robert Smart, '27, vice-president; Robert Killip, '27, secretary; and Stanley Tomkinson, '37, treasurer. All officers are in their first year of the three-year period of students. Only the first year of these three-year periods are in their three-year period of students.

The new officers chosen at Phi Delta Upsilon will be given in the next issue of the University of New Hampshire. The new officers chosen at Phi Delta Upsilon will be given in the next issue of the University of New Hampshire.

Lacrosse Men Open Season With Tufts
Here on April 18

Team Faces Eight Game Schedule with Nine Lettermen

With eight lacrosse games carded for this spring and one with Yale pending, Coach Christiansen has begun intensive work with his squad in preparation for the opening games with Tufts on April 18, in Durham.

Last year New Hampshire placed second in Harvard as the best home team in New England, winning five New England college games and losing only to Harvard. This year the New Hampshire lacrosse conference of nine colleges has been organized. Each of these schools play at least four conference games. There is no doubt that more interest in lacrosse will be aroused by the new New England championship at stake.

Ed Hubbard and "Moon" Mullen, all New England goalies, and midfielders swasey and Christensen.

There's an ugly rumor going around that Benny Long is out for the lacrosse team. If Benny can use the old block effectively here as he did in football, the New Hampshire opponents would have some worry if it was only a rumor.

It appears that Coach Sweet is little bit worried about the number of men reporting for track because of the introduction of freshmen lacrosse last year. The manufacture of freshman lacrosse last year is expected to reveal several men of first class calibre for this year's squad.

The schedule, which includes five New England college games and losses to Harvard, Penn, Baltimore, and Tufts, is as follows: Sept. 26, Lowell; Oct. 3, Godwin; Oct. 10, Maine at Durham; Oct. 17, Boston College; Oct. 24, Vermont at Burlington; Oct. 31, Assumption College; Nov. 7, Tufts at Medford; Nov. 14, Springfield at Durham.

“The Story of Louis Pasteur”

The Story of Louis Pasteur at the Star Theatre Sunday and Monday, April 7 and 8. The Story of Louis Pasteur is the true story of the life of one of the greatest heroes of modern times. The picture is a picture that we believe will be appreciated by all. The picture is a picture that we believe will be appreciated by all.

“Story of Louis Pasteur”

The Star Theatre Sunday and Monday, April 7 and 8. The Star Theatre presents a fine mystery melodrama that will interest any audience. Gertrude Mullen and Paul Muni are the stars of the cast. The picture is a picture that we believe will be appreciated by all.

“A Light Smoke of Rich, Ripe-Bodied Tobacco”

Although the contents of cigarette paper are, in themselves, unrelated in purity and wholesomeness, it may, if cruelly fabricated, contribute a marked degree of irritation to cigarette smoke. Cigarette paper not only envelopes the tobacco in form of a sleeve, but exerts a favorable or detrimental influence through its physical properties may experience a favorable or detrimental influence upon the products of combustion. Paper for Lucky Strike Cigarettes is made under our own supervision. Samples of each lot of cigarette paper manufactured are subjected to the same tests that are used in making Lucky Strike Cigarettes.

About Your Classroom Notes

Have you a Lefax or National notebook? Legible notes, well kept and always ready for reference, are necessary for the best work. None but the best should be acceptable.

University Bookstore
Elect New Leaders

Roland Taylor was elected president and Lewis Mauldin vice president of the Tau Kappa Epsilon at a meeting held on March 31. Other officers are: Alfred Stova, Hagaman; Edgar Wyman, historian; Kennedy Day, secretary; William Kay, treasurer; Arthur Emerson, secretary; Byron Harrison, Byers; Paul Hard, house manager; Roland Taylor, steward; Alton Stevens, junior member; J. E. Long, house steward. The following were initiated the same evening: Rudolph Berde, John Hargrave, Charles Ford, Paul Davis and James Murphy.

N E W  HAMPSHIRE

DURHAM, NEW HAMPSHIRE

Dr. Williams To Teach at Marine Zoology Lab.

Dr. Claude D. Williams, formerly an instructor at West Virginia Wesleyan University and now serving as a teacher of history and general science in the secondary schools, will offer a course in "Problems in the Teaching of Biology in Secondary Schools" at the Marine Biological Laboratory of the University of New Hampshire during the latter half of June this summer. This course is primarily for teachers and prospective teachers.

Chemistry Demonstration

The annual Liquif Air Demonstra-

tion Lecture given by the Chemistry Department will take place on Friday, April 5th at 4:00 P. M. and repeated on Saturday, April 6th at 7:30 P. M. in Room 301, James Hall. Although the lecture is planned primar-

ily for the students in general chemis-

try, all others interested are welcome to attend.

are numbered in the new catalog as follows:

Courses 1-50 are open to under-

graduates only.

Courses 51-100 are open to ad-

vanced undergraduates and graduate students.

Courses 101-200 are open to gradu-

ates only.

Courses 201-300 are open to stu-

dents only.

Courses 301-400 are given in the

Second Semester.

Courses with odd-numbers (i.e., 1,

2, 4, 5, 6, 12, etc.) are given in the

First Semester.

Courses with even-numbers (i.e.,

3, 5, 7, 8, etc.) are given in the

Second Semester.

At the end of each course descrip-

tion in the new catalog will be found a number assigned to the course in

the old Catalog. This is given in

order to assist students in selecting

courses which they have not previous-

ly taken. These numbers will be drop-

ped in the catalog for 1937-38.

7. Individual Courses. For the

Note: The figures in parentheses refer to the courses which have been added above.

In the colleges of Liberal Arts and Technology, the requirements fordeg-

grees have not been changed except for the total semester credits expected and in the changes in individual courses included in the several curricula which have been noted above.

In the College of Liberal Arts sev-

eral changes in degree requirements will be noted. Each candidate for a degree must complete 128 semester credits, of which half must be com-

piled of biology and general science and satisfy the general liberal arts education, and, during the last two years to equip young women to undertake secretarial work after graduation.

Students desiring to take the curriculum in Pre-Medicine in the fu-

ture part thereon of the approval of a new Faculty Committee on Pre-Medical Insti-

tution.

For Rent
