Abbe Chosen as Outstanding Poet by Western Critic
Biography and Poems in Master's Thesis

George Abbe, graduate of the Univer-
sity of New Hampshire and now a
student at the Union Theological Sem-
inary in New York City, was adjudg-
ed to have composed the best master's
thesis and the most outstanding poetry
among the graduates in the English
department, made by Helen Candland, gradu-
ate student and instructor in English at
Brigham Young University.

"Mr. Abbe is interesting for his per-
tical studies in New England and for his experimental with pol-
ly poetic prose," notes Miss Candland.

In an autobiographical sketch of Mr. Abbe, included in Miss Candland's.
master's thesis recently placed in the BU library, the critic has
written: "A Study of the Form and Contents of
American Poetry which meets every Sunday night in
the music department room at Ballard
Hall. All future programs will be
arranged by the president of the
music department."

Grad's Orchestra to Play at Ball

Pan-Hellenic Dance to be Semi-Formal This Year

Bill Grad's orchestra will play at the annual Pan-Hellenic Ball which is to be held Friday evening, April 17, at the men's gymnasium. Only sovory members, pledges, and guests will be admitted to this first major social event of this term.

The College orchestra which has been on the campus for the last five years, has been developed from the old Kartriety members, pledges, and guests will be admitted to this first major social event of this term.

The orchestra has played at Dartmouth house parties, Norwich University Club at the Montpelier Women's Club charity ball, and the Laxonia-sting-dog derby.

Billy and his boys spent the Christmas vacation in South America and the West Indies where they played aboard the Holland-American liner Statendam.

The society this year will be semi-formal. College and sorority members will be used to decorate the gymnasium.

MOISTURE CONTROL

The most important single attribute of cigarettes, other than the tobacco itself, is moisture content. To its influence we owe the ability to make uniform cigarettes, to control combustion, and to govern quality of smoke. Excessive moisture interferes with proper combustion, and makes cigarette smoke unpalatable. Insufficient moisture permits dry, dusty cigarette smoke to impinge upon the delicate mucous membrane of the smoker.

LUCKIES ARE LESS ACID! Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%. A REPORTED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS
