At a state university such as New Hampshire, we are continually the recipients of the assistance of the individual, but from the taxpayers of this state.

To the Editor:

Hearing being answered by the apparent lack of any campus spirit this fall but rather, that there is a spirit, that, if worked, could do so much for the morale of the students. No one who is acquainted with the students could help but wish that something could be done to make them feel in a more active way that they are a part of the college-

Miss Marrett and Mr. Dougherty were taken immediately to the Hood House where medical attention was given. Yacht Club Enters Regatta at Boston

Nelson, Furnans, Maillard, Martin, Gaffney are probably Skippers

The skippers have not yet been chosen for the two dinghies which the New Hampshire yacht club will enter in the Intercollegiate racing regatta, Sunday, Nov. 1, on the Charles river basin. Due to a wealth of talent which the club has at its command, it is difficult to say who will compose the crews of the dinghies. Commodore Bob Nelson may command one, and Ernest Furnans, the other. Furnans was an outstanding member of the Prince of Wales cup team and has captured the Beetle Cup championship at New Bedford, Mass. Some other members of the club who have had racing experience are Russ Martin, Charlie Maillard, and Jerry Gaffney. Russ has sailed considerably on the North Shore at Gloucester. Gaffney a freshman, has sailed with Arthur Schuman, the greatest thirty-square meter racer in the country. The crews will be picked on their previous racing experience, and performance. Knowledge of the North American Racing Association rules is also a necessary qualification for participation in the regatta.

### Registration List Reveals an Interesting Collection of Names

by Marion James

Upon glancing through the registration list of the University, we find many interesting names, which, when in groups, become very unique reading.

Among the women, we find walks from the highest to the lowest in the social and occupational scale. We start with a priest, three princes, three bishops, and a abbott. Then there are a dean, a chamberlain, a priest, a pastor, and two paupers. (We certainly are a plum group for even the Lord is present.) Next come a major, an actor, a spearman, a steward, a shepherd, a tinker, a carpenter, thirteen smiths, three plumbers, a Carter, four masons, a miller, three bakers, a cook, a fisherman, a farmer, and two gardeners. Our clothes will befunished by two Taylor's, a weaver, a Tanner, a milliner, and a furman.

We are well represented among the presidents by George Washington, Thomas Jefferson, and John Adams.

### Smoke O...

...that's the whaileman's signal for a smoke

And on land and sea, from coast to coast...with millions of smokers, men and women...when they take time out to enjoy a cigarette it's

"Smoke-O...pass the Chesterfields"

Chesterfields are milder...and what's more they've got a hearty good taste that leaves a man satisfied.
