CAMPUS POLL

Various straw votes and ballots are organized throughout the country at the present time. This is another attempt at drawing popular opinion regarding the coming national election. Many colleges are conducting such polls of their students in an effort to get the reaction of youth to the idea that the state and national welfare administration has no direct impact on the lives and livelihood of the average college student. The opposition, however, claims that this is a sort of indirect vote for which they will have no one to blame if they lose. Our lives and social welfare policies will determine the future of the students.

Next Wednesday The New Hampshire will conduct a campus poll on student opinion regarding the coming national election. The purpose of this poll is to gauge the students' attitudes toward the coming election. The results of this poll will be published in the next issue of The New Hampshire.

In the coming class elections if every student votes, the campus poll will be effective. Student traffic, personal interest, and make out a ballot and also to get all of those used at the regular election. All office will be included on the ballot.
