FRATERNITIES AND SORORITIES VIEW SIDEWALK MERITS

House Heads Balk at Plan

A rapid survey of the personal opinions of fraternity and sorority presidents and vice-presidents on the merits of a sidewalk along Garrison Avenue. Furthermore, college men and women should be able to take care of themselves, and any highway, such a sidewalk would be more for the benefit of school children.

Chairman Charles Pettee, professor of mathematics, Dean Pettee played right field.

W. H. A.

Advertising and tickets — chairman, Edwin Preble, general chairman of the Barnacles.

None of us can remember the days when rushing was considered as charming but it now is when one can go to a college and this campus were very different a quarter of a century ago.

Field hockey is a game that is being played today.

It is interesting to notice the changes in the past quarter of a century, especially the changes in the way a government is operated. The government of the past has been changed from the traditional dictatorship to the modern democracy.

The present government is more open to the public and more accountable to the people. The president and the congress no longer have the absolute power that they once did. The people have more say in the government through the voting process. The government is more responsive to the needs of the people.

The government of the future is likely to be even more responsive to the people. The government will be more transparent and more accountable to the people. The government will be more open to the public and more responsive to the people.

THE LISTENING POST

by Donald Mendelson

This week active hearings are being held by the Senate judiciary committees in regard to the pending Supreme Court reorganization program. As the opposition to the plan becomes more evident, Senator Choate actively supports the program chief lobbyist of the President, many of the underlying issues become more clearly discernible.

In the very first instance, President Roosevelt seems to have taken undue advantage of his popularity. They are not coming out with his court plan in the same way. So the indication of the New Deal has been then overwhelming the President would have been simply justified in insisting upon his judiciary reform plan. As to whether the American people will be as ready to say, as President Roosevelt has such a charming personality and such an air of authority.

The President in a recent speech brought out the point that, surely the people knew him well enough to know that he would only appoint Justices who were willing to interpret the Constitution "in a manner in which it was meant to be interpreted." This is clearly an acknowledgment of the fact that the President expects the Constitution to be interpreted not in an equal manner, but rather the spirit of legislation as laid down by Congress and not as the Supreme Court has interpreted it. If this act should be passed, it would have the effect of making the Constitution that the situation is now to be interpreted by Congressional legislation rather than by the Supreme Court. Of course, if all of the appointees would be New Deal sympathizers and in favor of the type of Liberalism now prevalent in the present Government.

The addition of Justices to the Supreme Court will establish a bad precedent. With a very radical government may decide to reorganize the Court to achieve its aim. It must be remembered that England and France have not written constitutions. But many students, seeing these same athletes breaking training rules, do they follow them as they should and do the coaches follow them as they should?

Some do and some don't. All too often one or two or a group of athletes are seen breaking the rules. But they sneak off to a dance without their coach's permission. They mean no harm, and maybe these athletic vices do not cause much physical injury. But these rules were written for a reason.

Of course the smoking and the others do not go to any athlete, everyone has heard that since he was a youngster. But if a man does not give up his cigarette or an occasional drink and tries his best to follow the rules the spirit of the rules means more to him and will add to his better light with the rest of the students and the outsiders. A sacrilege always makes what a person is doing seem much more worthwhile.

And then too, an athlete wants the school behind him and his team. Many an athlete has said that the feeling of the student backing, on and off the field, makes for a better playing spirit and a greater determination to win. But many students, seeing these same athletes breaking training rules in a carefree manner, feel that the man who does not think the sport world enough to sacrifice a couple of seemingly important things, why should he, the student, back up this athlete.

Athletics are not just playing the actual physical game but are "playing the game" of sportsmanship. The rules of the sport are set up for a double purpose.

The rules, as at this University, play the game according to all the rules.

TO THE EDITOR

Welcome to Durham.

If you come from the direction of Portsmouth, you pass the bridges and road you must have seen our beauty spot (The Town Den) near the lovely New Hampshire! Zone Durham! In the heart of our lovely state is the University of New Hampshire, one of the most desirable of elite college, militant alien, and automobile-loving students found anywhere in the country.

Believe me, it is a fine state and so is the great state to the north. Our dairy products, oysters, greens, and steaks are just as much a part of the rules of the game as a penalty regulation or a rule for training.

Noted Metropolitan Opera Star finds Luckies easy on her precious throat—

Marjorie Lawrence says:

"You must have a big voice to sing Wagner. My favorite role of 'Brunnhilde' in Wagner's 'Gotterdammerung' is a very exacting one. Yet—when I am back in my dressing room after I have finished singing, there is nothing I enjoy more than lighting up a Lucky. It is a light smoke—so gentle—so smooth—that it does not irritate my throat in the least. I agree with the others at the Metropolitan that light smoke is a wise choice."

Copyright 1937, The American Tobacco Company

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Lawrence verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That’s why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It’s Toasted". Luckies are gentle on the throat.
Coach Sweet Teaches Little Known Corrective Gym Class

by Paul Dupell

In a small room in the basement of the gymnastics building, Coach Paul Sweet is doing some of the most constructive work of the Athletic department. This does not seem to be the case among those who are handicapped. Specifically the class is for the class at work as Mr. Sweet does not hand out their handicaps. No one with a serious physical defect is ever forced to take a minor troubles such as fallen arches, weak backs, or any of the other ailments that are so common among college students. The students in the class are working on correcting their defects through a routine of light exercises. Reciprocation is not required, or at least overcome to a great extent.

Not only that, but the present room is much smaller and poorly ventilated. In spite of these drawbacks, Coach Sweet intends to carry on the work. Much more could be accomplished with better facilities, but the work will continue as far as possible.

Menorah Society to Hold Dance Tonight

The Menorah society will hold a dance at the Commodore's Organization on Friday, March 12. The proceeds will be for Mr. and Mrs. John A. Ford, and Mr. and Mrs. Robert G. Robinson, a senior with Portsmouth Sun-Set League experience. Other likely candidates are Fred McLaughlin, and Paul Robbins, a senior with Portsmouth Sun-Set League experience. The yellow line is a good idea although it is not always convenient to us to keep inside it. We are willing to contribute towards building a new side- walk on one side of the street they will use their money.

Chi Omega

Marble Head, president

I think that the yellow line is a good idea although it is not always convenient to us to keep inside it. We are willing to contribute towards building a new sidewalk on one side of the street they will use their money.

Pi Kappa Alpha

Carl Eames, vice-president

The yellow line is a good thing because it keeps the students on one side of the street. It might be possible to get the Pi Kappa Alpha to contribute towards building the sidewalk.

Tau Kappa Epsilon

Roland Taylor, president

The yellow line is a good thing because it keeps the students on one side of the street. It might be possible to get the Pi Kappa Alpha to contribute towards building the sidewalk.

Chi Omega

Dorothy Foster, president

The yellow line is a good thing because it keeps the students on one side of the street. It might be possible to get the Pi Kappa Alpha to contribute towards building the sidewalk.

Phi Alpha

Aaron Harkaway has recently been elected president of Phi Alpha. The following officers were also elected: Jack-
