Seven Girls Compete For Cadet Colonel

Committees for Annual Mil Art Ball Are Chosen by Sophomores and Juniors

Eight words were noted this week for honorary Cadet Colonel of F. C. Company, Sixth Regiment of Saint Paul and Blair, national military society. Presentation of the Cadet Colonel and his aids, selected by members of the advanced Reserve Officers Training Corps, will be made at the colors ceremony of Military Ball on December 3.

Good service for the honorary positions was performed by the following:

Wendell T. Dinkley, assistant entomologist at the University of New Hampshire; and Willard Phelps of the geology department; Howard Smith of the entomology department; Frank Berry, Conrad Parker, Russell Jones, and Wendell Martin.

APPOINTMENT BUREAU REGISTRATION

The following notice has been received from the Bureau of Appointment:

Up to November 15 there have been 136 seniors registered at the Bureau of Appointment. The number is about half of that of the class of 1938, and the Preston strongly recommends registration at the earliest possible time, because industrial companies and advancement agencies are beginning to view this campus much earlier than has been the case heretofore, and unless we are able to have a complete record of the candidates we will not be able to recommend him for a position.

We also are desirous of inter­viewing each such candidate in order that we may be able to give him the necessary contact with the "Antelope" where the writing of letters of application, and general methods of interviewing, are taught.

Some industrial companies have already started their personnel department to work on this campus as early as January which is an expedient early date for registering.
The Broad Campus

From the Daily Trojan:

"Summer is over and those of us who have just finished the academic year are now preparing for a long break. Our minds are set on two things: enjoying the summer and getting ready for the fall.

Our newspapers are now in their final stages of preparation, and we are excited to share them with you. The first issue will be out soon, and we can't wait to see your reactions. So, let us know what you think of our latest edition. We are always looking for feedback to improve our content and better serve our readers."

CAMPUS CHATTER

by A. Cret

Crush! Ed. Hampshire and company covered the entire newly clinched in back for their first year of school bonding. Picnic practically is now forming in prepping for a long break. Winchester Nobody was seriously hurt-only the wood was taken out of Ed's best shoe. The shoe was replaced with a rubber to a more sturdy one. Such a situation is rather common-no, it's a fact! Go-rilla glue and a strong shoe to get into the stadium. There will be two archways on the sides of entrance. The archways will be designed to look like leaves, and there will be two corduroy plants present with them. The leaves that Spring Dancing doesn't work with Ed. Hampshire will end up in the grass on the west side of the arena. It was quite an exciting day for all the coachess. The area in the Thura T. dance was the westerly Ch One 0 Night is the west side, but the athletes and coaches there were too many chaperones.

Have you heard about the girls in Smith college? They have been hankering after the coeds in New Hampshire. They are said to be a 'shady lot', but the New Hampshire girls are said as not as Niagra Falls in a hurricane. The dance took place last Sunday, and the abdomen of the Thura T. dance was the westerly Ch One 0 Night is the west side, but the athletes and coaches there were too many chaperones.

What is the most difficult college sub ject?

Organic Chemistry. This subject is a revelation to students in the physical sciences, and it is especially challenging for those who have a strong background in physics and mathematics. It is known for its complex equations and abstract concepts, making it a difficult subject for many students. However, with the right resources and study habits, Organic Chemistry can be mastered.

The most radical government, as

To change these rights would en danger the very future of our democracy. It is important to protect the rights of all citizens, regardless of their background or beliefs, to ensure a free and just society. It is up to us, as individuals, to take action to defend these rights and uphold the principles of democracy.

We are Passive

When two nations are at war, it is important to remain passive. This means avoiding any form of direct interference or support for either side. Instead, we should focus on promoting peace and reconciliation through diplomatic means. By remaining passive, we can help to prevent unnecessary conflicts and contribute to global stability.

The anticipated boom brought increased optimism for a recovering economy. However, the recession of 1929, which led to the stock market crash, had far-reaching consequences. The collapse of the stock market had a devastating effect on the economy, leading to widespread unemployment and financial hardship.

We know there is no heaven above. It is our duty to live our lives on earth as best we can, cherishing the present moment and treasuring the relationships we have with others. Religion is a personal choice, and it is important to respect the beliefs of others, regardless of our own.

So, let us remember to be kind, compassionate, and respectful to each other. In this way, we can create a world where everyone feels valued and appreciated. May we all strive to be better individuals, and may we all work together to build a brighter future for ourselves and for future generations.
Well, Coach Sauer has gone and done it. He has signed to play the rest of his professional football league. He plans to return to the school football season finished and the winter season will be an unknown quantity as far as winning one. With Johnny DuRie, Art Johnston, Frank Wright, Tom Chretien, and Phil Magay was lost with a serious back injury, and there is now a handicap that hovered over the heads of the winter sports teams and the rifle team sponsor no freshman squads.

The winter sports teams and the rifle team sponsor no freshman squads.

OREDO, NEW HAMPSHIRE FRIDAY — SATURDAY

Football News Shots

By Dick Buchanan

The season is mighty dull for a sports writer at this time of year when the school football season finished and the winter season is approaching. If the other sports teams can come through with a reasonable amount of games this year, New Hampshire will have just cause for rejoicing. However, with the possible exception of Ed Blood and his winter sports team the winter season will be an unknown quantity until the schedules are run off.

The basketball teams seem to have the best chance of any teams to come out successfully. With Johnny Duffie, Art Hamon, P. L. Boy, Charlie Cobb, and the newest fellows of all, Bertrand and Dick Beall, all of whom have had extensive experience on the team, there seems to be a good chance of winning one. With a little support from the fans, the team can possibly turn out a very good team.

The hockey team should go places this year if they get any sort of a break from the weather. The North basin was full and murderous, and the team has to play on the North basin. If they can avoid any of the breakup and get on the ice, they stand a very good chance of winning.

There are two men on the hockey team that have had a very good season in the college hockey games. One of these is a freshman, and the other is a sophomore. The freshman is a small, quick player, and has the ability to get the puck away from other teams and start a breakaway. The sophomore is a larger player, and has the ability to control the puck and start a scoring move. Both of these players are very valuable on the team.

The track team is in good shape for the upcoming season. The team has a number of incoming freshmen who are expected to do well. The team has a good chance to do well in the conference and possibly win the conference championship.

The cross-country team has a good nucleus of returning runners. The team has a good chance to do well in the conference and possibly win the conference championship.

The rugby team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The wrestling team has a good nucleus of returning wrestlers. The team has a good chance to do well in the conference and possibly win the conference championship.

The swimming team has a good nucleus of returning swimmers. The team has a good chance to do well in the conference and possibly win the conference championship.

In the Egg Yolk Department, there are a number of incoming freshmen who are expected to do well. The team has a good chance to do well in the conference and possibly win the conference championship.

The tennis team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The golf team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The baseball team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The lacrosse team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The softball team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The basketball team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.

The softball team has a good nucleus of returning players. The team has a good chance to do well in the conference and possibly win the conference championship.
CADET COLONEL NOMINEES

LOIS HUDSON

ALICE PERKINS

All signs seem to point to the inauguration of a spring training session in football this coming spring. If such a program were instituted, it would be in keeping with the "new deal" which New Hampshire is experiencing in the gridiron sport; and would reflect the general opinion on campus that this type of training would prove extremely valuable.

The coaching staff heartily approves this plan as was evidenced in an interview with Coach "Chick" Justice regarding the post football season and plans for next year. In this interview which was held Wednesday, Coach Justice remarked that no two coaches have identical systems of play, but that each mentor has his own particular modification of the common ones. He went on to say, "It is quite probable that the boys were handpicked by the necessity of absorbing the new systems which were introduced this fall. Therefore we didn't attempt finesse and instead concentrated upon the fundamental points of the game. "Tandy" familiarized himself with this philosophy, and carried it on with his freshman team.

Street Base Points

"Five of the New Hampshire football candidates have played much prep school and high school football, and consequent by the game is relatively new to them. Therefore the stress on the basic points of the game. The coaching staff thinks that as much can be done in this course or four weeks of spring football as is an entire football season. Spring training might not be so necessary in schools, where the freshmen are considered well trained in all departments of the game before they enter, but it is a fact that even in the larger institutions such as Pitt, Minnesota, Ohio State and other colleges, vigorous practice is carried out. Without this kind of training, the team could never have made the fine record that it did.

In concluding, Coach Justice indicated that the inception of play is to be followed by next season will be basically the same as this year's.

ALPHA CHI OMEGA

Alpha Chi Omega sorority announces the-pleading on November 17th of Father's Day.

CHRISTINE FERNALD

RAY MACDONALD started life off with a bang on an early July morning. It was on the fourth of July to be exact, in the small town of Peterboro, New Hampshire. His childhood was spent there, and he obtained his high school education in "the old home town." During his four years in high school, Mac, as the boys had already started calling him, spent much time in scientific work. Although he had not the slightest intention to follow this line, he decided to spend an extra year here with his fraternity brothers. Of course, the people here on the campus and in the state were so pleased to have him that even after he graduated in the spring of 1930, they were so pleased to have him that even after he graduated in the spring of 1930, still giving his loyalty his fraternity brothers. Of course, the...
