British Economist Proposes Socialism: New Foreign Policy

By Bernard Barry

Talking Socialism and making it like it should be, Dr. Durbin spoke on Thursday evening, December 16, gave a clear exposition of the economic system which effectively brought about a little economy in a situation where most of the world was worse off and controlled by 16 per cent of the people. Wealth and power, under the system advanced by the British Labor Party, the British Labor Party, would be in the hands of those who have proved their ability to use it advantageously to the many, and not of those who are able to use it to the detriment of others and whose motives are far from social.

In the last few weeks a petition has been circulated throughout the dormitories and homes of cars, pointing to the proposed borrowing room in the library. Early this week, a deputation from the New Hampshire staff presented the petition to President Engel, who received them kindly. The president was advised to give the petition to the proper authorities, action to be taken in the near future. The petition was an attempt by students to express the opinion of the student body on this matter.

Among the various signs, correctives were made by students and faculty in several places, and the following was made:

"We stand behind the administration of every action which has been taken in the interest of the student body."

"We hope that this matter will be handled in the future in the best interests of all concerned and to the great benefit of the student body."
Put Up or Shut Up!

The average student, today is sitting back through a sequence of fantastic, undeveloped— from that stuff in freshman day. This reaction was a vigorous denunciation of having anything to do with those selected from 11 schools having an enrolment of approximately 30,000,000. Of this number, one sixth goes to the alien countries for the raw material; the remainder goes to the several hundred foreign countries for the manufactured goods, for the large silk mills of our country could not exist without the use of Japanese-manufactured goods like toys and painted gadgets.

As the notice is not quite so cold. This is an important meeting for all those who are present at least. For one thing, our University is a land of financial I claim that it is impossible. Where quality counts and economy rules in providing the best meals.

WILDCAT PUCKSTERS DEFEAT MASS. STATE IN OPENING CONTEST

New Hampshire Wins Game As Russ Martin Scores Against Bay State Team

The varsity hockey team commenced in a regular season with a winning bout from a defeated Massachusetts State by a 4-2 score. The game was originally scheduled to be played in Amherst, but was transferred to Durham owing to the lack of suitable ice at the site of the Massachusetts college.

Never once were the Wildcats behind in the contest; in the last half of the first period, Russ Martin nearly sank the first goal and they were off. Backed, the left defenseman of the opposing sextet retailed a minute later with a tying score. Then in the second period Russ scored almost immediately after the face-off against Mass. State earned the count as Lanawski drove the puck into the nets, but a few minutes afterwards the Wildcats forged ahead once more on a tally by Cooper. One of the most spectacular scores of the contest was made short time later when Ball Martin, who played a bang-up game at defense, slid down the ice and robbed the puck from near the blue line.

SPANISH WAR DESTROYS ‘FIREFLY’ SET

News dispatches from Vittoria, Spain, indicated that the Spanish Civil War has wiped out old landmarks which were copied by Metro-Goldwyn Mayer’s research and art departments as sets for “The Firefly”, with Jeanette MacDonald and Allan Jones and Warren William in the leading roles.

The Basque country now mode for its representation in sequences of the film coming Monday to the Franklin Theatre and movie fans outside Vittoria having been copied for one of the principal sets.

The original of the Madrid café, shown in the opening sequence, in which Jeanette MacDonald dances, no longer stands, according to wires received from M-G-M’s Paris office, and the film set painters and film reproductions will be the last permanent record of many of those old buildings, now wrecked by shell fire.

From this point on, there was little question as to what the outcome would be. The Bay State pucksters rallied in the final period and scored twice, with Lanawski again doing the honors, but these points were offset by the two goals which Ray Pattees and Russ Martin

OUTING CLUB SETS DATE FOR SKI MEET

Saturday’s Competition To Consist of Numerous Events Open To All Club Members

The Outing Club has completed plans for a ski competition to be held on Saturday afternoon, January 8, on Lake Winnipesaukee’s St. Anselm’s estate. Jim Scudder, president of the Outing Club, has planned an attractive set of events which should provide ample practice for later intramural competitions. The program is a part of the Outing Club’s policy of providing on-campus activity for its members.

In announcing plans for the event, Jim Scudder said that all Outing club members are urged to enter in any or all of the numerous events. Entrants must be members of the Outing club and must show their membership cards upon entering each event. There will be no charge for entry. According to the announcement, Blue Circle members will be prepared to sell membership cards to anyone who has neglected to join the Outing club, and who desires to do so.

The Officials will be ready to point out to anyone interested in purchasing a membership card, a Blue Circle. The price of these memberships is one dollar, and includes the usual advantages of full membership.

For the winners in each event appropriate and useful prizes have been obtained. The events, which begin at 2:30 will proceed according to the following schedule:

1. One mile cross-country for men.
   Men’s 100 yard dash.
   Women’s 100 yard dash.
   Men’s slalom.
   Women’s slalom.
   Men’s down hill.
   Jumping.

The officials for the competition are:

Jim Scudder, general chairman; John Damon, clerk of the course; John Lent, timer; and Walt Dooley, recorder.

VARSTY ENCOUNTERS CONN. STATE QUINQUET

Tomorrow evening, another tough contest is in store for the Varsity basketball team when they encounter Connecticut State here in the gymnasium. Not one player from last year’s undefeated team is well over six feet in height, and it is probable that they will have the edge on the Wildcats in this contest. His Mistake

Detectives were questioning a Negro charged with stealing a typewriter. Not getting anywhere, one of the officers remarked:

"Lawye, man," the Negro exclaimed. "You calls that a typewriter? Ah thought it was a cash register or something of that sort!"

Mother: "Where do you little girls buy it?"

Bert: "Most everywhere!"

At the head of the class — on the feet of the class — BASS SKI BOOTS

* From Park City to Sun Valley, thousands of discerning skiers are wearing the Authentic Bass Ski Boots.

Authentic Bass Ski Boots are distinctive in design by European standards. The finest features of European craftsmanship have been placed into the Bass boot by expert bootmakers, and the results are acknowledged by skiers and critics alike.

The Bass ski boot is made to order in a wide range of styles, and is reproduced by expert bootmakers. Front and back of the boot are nailed together, and the result is a boot that is not only comfortable, but also durable.

E. R. RITZMAN IS IN CARNegie RESEARCH

Eugene R. Ritzman, Research Professor of Animal Husbandry at the University of New Hampshire and internationally known, investigators in the field of animal nutrition has been appointed a Research Associate of the Carnegie Institution of Washington by the governing board of that organization. Professor Ritzman's work in animal nutrition, conducted for the past several years by the University in cooperation with the Carnegie Institution has received increasing acclaim which reaches its climax with this latest appointment.

The appointment carries with it a substantial grant of funds to enable Professor Ritzman to continue his researches in New Hampshire. Professor Ritzman as a Research Associate joins a distinguished company of investigators located in several American and foreign universities. These men and women continue their work in their individual laboratories assisted by subventions from the Carnegie Institution. Some of the other distinguished scientists listed as Carnegie research associates include Dr. Arthur H. Compton of the University of Chicago, Dr. J. H. Jeans of the Royal Society of London, Dr. A. E. Kenndy of Chicago, Dr. L. B. Mendel of Yale University, Dr. Robert A. Millikan of the California Institute of Technology, Dr. Harold C. Urey of Columbia University.

and take a definite stand, we cannot, as Dr. Durbin suggested we do, "demand your price—demand the collectivization of colonies or anything else you want—in return for your international cooperation."

We cannot take these demands because we are not sure whether we ourselves wish to go all the way in cooperation.

The memory of Versailles still lingers. We cannot be sure, even if we fight for peace, that we will get it. It is too easy to kick a defeated power when we have it down. We have no better way of handling a defeated power than we had in 1920. How long can the world keep a humiliated nation in subjection? Germany provides the classic answer to that question. It would cost more in terms of lives, money and international brotherhood than would the deprivations now being committed by the belligerent powers. Until a permanent plan for peace is evolved—a plan which, when forced to a vote by the student body on the question of the advisability of a Japan­ese boycott.
