WILDCATS WIN OVER BOSTON COLLEGE IN HARD FOUGHT MATCH

Subdue Eagles by Score Of 4-3; Lose Sloppy Game
To Williams College, 3-2

The varsity hockey team split even in its two games last week, taking a 4-3 decision over R. C. Thursday evening and suffering a 3-2 loss to the Scots, Friday night. The games were the season's, Saturday afternoon at the hands of a fast-moving Williams side.

In the R. C. game, the New Hamp- shire team was the first line, in the second period, with M. R. Martin scoring three and Ray Pat­ terson the other goal. Bob Noakes, in front of the nets once. Martin's second goal was made on a solo dash with only free New Hampshire men on the ice. For the rest of the game, another break in the New Hampshire schedule, facing M. I. T "Colby, North­

Censorship in the Library

In finding out about this subject, we have consulted a number of professional librarians and the following statements are based on their advice.

We learn that the selection of books and materials for the library is governed by a number of factors, including the nature of the institution, the audience, and the availability of resources.

Some librarians believe that the selection process should be guided by the needs of the community, while others argue that the selection should be based on the quality and relevance of the materials.

There is a growing trend towards a more open and inclusive approach to censorship, with a greater emphasis on collaboration and consultation with a wider range of stakeholders.

Minnehaha Hold Regular Meeting

Minnehaha held their regular meeting on Wednesday, January 13, at 8:00 p.m. in ballard Hall. The meeting started with the singing of the national anthem, followed by the reading of the minutes from the previous meeting. The group then proceeded to discuss the progress of the various committees and the upcoming events for the semester.

The First Love, The Wedding Hour, Or Ten Years Ago This Week

In the first installment of the series, we take a look back at the events that shaped the lives of the characters.

TEN YEARS AGO THIS WEEK

Ten years ago this week, the University of New Hampshire's track team competed in the annual Lake Placid Winter Meet, held in New York. The meet was well attended, with players from all over the country participating.

Music and Drama announced the cast of its new play, "Dear Brutus" by Sir James Barrie, to be produced in the next month.

The annual sorority sales campaign for the "Granite" will begin next week. The goal is to raise the highest number of funds possible for the sorority.

Man Behind the Window Has Position of Importance

By Susan Pollock

A good memory is a definite asset in any position of importance. It is an absolute necessity. For instance, take Charles Schonberger's job. Charles is officially known as the Supervisor of Athletic Equipment, and the title suggests, he has charge of all uniforms and paraphernalia for the various types of work, it is an absolute necessity.

The Oster Club office is in ballard Hall, and the phone number is 267 and 730. For the purpose of keeping a record of the sales, the special rate, and the number of copies sold at each time. One fact for Wednesdays through Friday will be announced later.

Science Society Has a White and Chanup Speak on Russia

By Nancy Thompson

The Science Society held its first meeting on Monday, January 10, at the basketball and track complex. The meeting was attended by over fifty people, four of them on the stage: the president, the treasurer, the secretary, and the editor. A paradox is that curiously is the impetus and necessary correlation to scientific and technical progress. This is evidenced by the increasing interest in the young generation.

The Chemistry Club is patterned after the basketball and track club, and the majority of its members are students in the science and engineering departments.

The new year is about the financial year, and in the United States, the annual report is due on the 31st of January. It is imperative that every player be given a uniform and equipment involved in the organization of the team.

The annual sorority sales campaign for the "Granite" will begin next week. The goal is to raise the highest number of funds possible for the sorority.

New Training for Basketball Managers

Prior to the University of New Hampshire's basketball season, the basketball managers will be issued new manuals, by A. B. Ormsby, a former basketball coach, to help basketball managers with their work in JH high and preparatory schools.

The manuals will be offered in the letters and the number of books that have been removed from circulation on moral grounds.

The group then proceeded to discuss the progress of the various committees and the upcoming events for the semester.
FROSH CHOOSE ADAMS BASKETBALL CAPTAIN

Herbert Adams, high scorer of the Frosh team, was last week elected captain of the fresh man squad. Playing at forward, the new team leader has been an important factor in the fast showing of his team. In the Keene Normal game alone, he ran up a total of 19 points.

Adams comes to the University of New Hampshire from Milton where he was regular forward on the high school team for three years. Last season he led the Mounsahock League in scoring. Even better than his basketball, reportedly, is his baseball playing; in high school he was the top ranking shortstop for four years and he intends to be a candidate for the freshmen nine in the spring.

COLLEGIATE BOXING REFORMS PROPOSED

Hoping to rid intercollegiate boxing of its professional appearance, William H. Cowell, Director of Athletics at the University of New Hampshire, and recently appointed chairman of the National Collegiate Boxing Rules Committee of the National Collegiate Athletic Association, recently announced that the primary aim of his committee will be to emphasize the art of boxing, rather than the knockout.

"We are trying to prepare future professional boxers in our colleges," Cowell stated in an interview, "but are attempting to make boxing a clean, competitive collegiate sport."

According to Coach Cowell, collegiate boxing will lose its appeal if it is continued under the present professional atmosphere. "It is a colorful sport if handled in the right way," he said. That boxing can be made a clean, colorful sport is amply proven by the decided popularity his sport enjoys in the South and far west, where these aspects are appreciated.

Tentative plans to be discussed at the committees first regular meeting at the University of Virginia, April 1, include the equalizing of the competitive abilities of the contestants, and the standardization and approval of boxing equipment. Athletic Director Cowell has been associated with the boxing rules committee since 1930, following a seven year period as a member of the track and field rules group. His recent appointment as chairman of the boxing committee was made at the recent meeting of the N. C. A. A. in New Orleans.

WILDCATS LOSE IN LAST MINUTE SPURT BY GYMNASTS, 42-34

A last minute spurt in which they scored three baskets, enabled Springfield College to emerge victorious over the Wildcats last Saturday night. All during the second half the two teams had been running nearly even, with first one team and then the other scoring a basket, but in the closing minutes, the Gymnasts put up the pressure and ran up an eight point lead to cap the contest by the score of 42-34.

The game was undoubtedly the roughest of the present season with a foul being called about every other minute of play. With their rough and tumble tactics being directed especially at Webb and DeRie, the Springfield boys were the worst offenders in this respect. In spite of the punishment that he took, the flame-haired New Hampshire guard turned in one of the finest games of his career, scoring four goals and four foul shots for a total of 12 points, and serving as the nucleus of his team's attack and defense.

The winners came out strong in the first period and soon had scored five points, but New Hampshire, undaunted, caught right up with them in a few minutes. Webb scored the first basket for the Wildcats on a jump ball tap, to the loud delight of the audience. At one time during the first half, the locals were leading; by four points, only to have...
COME IN AND TRY THEM ON!

WILDCATS LOSE
(Continued from page 3)
Springfield even the coast and forged an equal distance ahead as the period ended. Until the final few minutes of the game, it appeared that New Hampshire would capture the game, but at this point the Wildcats are a great team. Mr. Hettler, the Gymnast center, led his team in scoring, with five goals from the field. His window in the gymnasium basement serves as a regular information bureau; nobody is always asking, "What time is it, Charlie?", or "Did you find my shoe, Charlie?" Naturally, a large amount of goodnatured ribbing comes his way but he takes it with a smile and gives as good as he receives.

On the whole, he thinks that the students here are a great bunch, although they seem to be getting younger. "Or perhaps," he adds, "I'm getting older!" Great changes have been effected in the institution during his memory span. He remembers vividly the days when basketball was played on the top of "T" hall, and when "Bitch" Cowell was just starting in. His job here suits him perfectly, partly equipped with expert skiers designed and equipped with ski boots.

THE NEW HAMPSHIRE, JANUARY 18, 1938.

DEAN JACKSON TAKES ZOOLOGY FIELD TRIP
In connection with zoology research work, Dean C. C. Jackson, accompanied by Robert Edele and Philip Wright, took a trip by plane to the northern section of New Hampshire near Hellgate. They studied there the smaller mammals in order to obtain data on seasonal distribution in the state of New Hampshire.

Dean Jackson is an outstanding mammalogist in New England, and has taken trips each year at Christmas. Robert Edele is teaching here at present, and for his Ph.D. at Cornell University; and Philip Wright, a more recent graduate is working for his Ph.D. at Wisconsin.

because he figures that it keeps him young. Happily married for 39 years, he has one child, a boy of 13, named Dale, who intends to be a Wildcat athlete when he grows up.

ROSCOCE POUND
(Continued from page 1)
skeptic notices this. He notices, too, that any hobby text necessarily omits certain facts, and that such omission depends not upon their true significance or imma-
nificance, but upon social, economic and psychological factors in the personal life of the author.

Norm Significant Thing
Dr. Pound is disillusioned only about disillusionment. This present spirit of skepticism is but a natural nightmare, a result of consuming more than we can digest. A part of this skepticism is the criticism directed at the administration of justice. The Realist sees only the ugly side and thinks it is the whole. But the norm is the significant thing, not the comparatively few departures from the norm.

It is not easy to say what is real and significant. We must first organize our knowledge, and for this we shall need a new Aristotle to show us how.

... Chesterfield features something...
Chesterfield features the one thing that really counts... pleasure.
It all comes down to this: Chesterfields are made of mild ripe tobaccos... rolled in pure cigarette paper... the best that money can buy.

That's why Chesterfield's milder better taste will give you more pleasure.
