STUDENTS URGED TO DEVELOP HABITS OF STUDY BY ENGELHARDT

WARNS AGAINST LAZINESS
Which Many Students in College Seem to Have

On Thursday, October 19, President Engelhardt addressed the students at the first convocation of the second semester. In his address, he said that many students are doing the absolute minimum work and that this is the lowest level that the student is capable of. He also stated that this laziness will only lead to a future of mediocrity and disappointment.

STUDY PLAN NEEDS SUGGESTION BOX

The students are urged to make use of the suggestion box for their study plan. This box will allow the students to express their ideas and suggestions for improvement of their study plan.

FOREIGN WAR VETS CIRCULATE PETITION

The organization meeting for the first University of New Hampshire football team will be held on Thursday, March 2, at 7:00 P. M. in the Trophy Room of the University Athletic Association. All members of the team will be present. The purpose of the meeting is to discuss the rules and regulations of the team and to outline the program, which is to be followed. Donald J. Groth, former University of Wisconsin football team captain, will speak on the subject of football injuries.

MEETING FOR CLINIC ORGANIZATION HELD

The meeting for the clinic organization was held on Thursday, March 2, at 7:00 P. M. in the Trophy Room of the University Athletic Association. All members of the clinic will be present. The purpose of the meeting is to discuss the rules and regulations of the clinic and to outline the program, which is to be followed. Donald J. Groth, former University of Wisconsin football team captain, will speak on the subject of football injuries.

HIGH PERCENTAGE OF GRADS NOW EMPLOYED

Despite the present business and industrial recession which has thrown over 200,000 people into the streets, nearly 80 per cent of the 1937 graduating class have been placed in their field. Of this percentage, nearly 60 per cent have been placed in the field of business and commerce. The remaining 40 per cent have been placed in the fields of science, engineering, and medicine. Of this percentage, nearly 30 per cent have been placed in the field of science, nearly 20 per cent in the field of engineering, and nearly 10 per cent in the field of medicine.

COMING EVENTS

NEWS BLUEPRINT

Days come when news events in diverse corners of the earth converge to one focus. This is no mere freak. It means that happenings widely sounded in space, but coincident in time, derive from an identical cause. This bit of arithmetic is so neat, it spells out what is going on all over our world, that the reader will find it more interesting to look at the causes, after which the news becomes self-explanatory.

1. Only a hundred days ago nations earned their living by tilling the soil. "When Adam delved and Eve span" — today most of the big ones pay their way by peddling, selling raw materials, from gold, grinding them into bullion, selling the manufactured articles again abroad, and, with the profits, buying most of their necessities — though the United States and Russia are more nearly self-sustaining. England, in the 1840s, was the first in this game. There was money in it before commercialism, from 1870 to 1914, when, squeezed through mills, selling the manufactured articles again abroad, and, with the profits, buying most of their necessities — though the United States and Russia are more nearly self-sustaining — this has not thus far been done, because the resistance to such a future war started by Japan, Italy or Germany. Collective economic action is the most fruitful, in the form of larger armies and navies, if not to respect to save civilization, not destroy it.

The New Hampshire Home Economics Club "Game Night" will be held at the home of Mrs. MacLaughlin, Thursday evening at 7:30. All club members and would-be members are welcome to attend.

George W. Oat, Dean of College of Engineering, presiding.

Mulgroid "Office and Secretarial Work" Speaker — MISS MARJORIE A. LANCIONI Fellow in Business Administration, Miss Ruth Adams, Instructor in Economics, presiding.

"Home Economics" Speaker — MISS VERNAY PAYSON Supervisor of Home Economics, State Board of Agriculture, Mrs. Helen F. McLaughlin, President of Home Economics Club.

"Agriculture" Speaker — R. O. SMALL Director of Vocational Education, Massachusetts Department of Education, O. C. Moseley, Acting Dean of College of Agriculture, presiding.

THURSDAY, FEBRUARY 17 (11 p.m.) 3 : 0 0  S S A M , "The Global Congress " Federal Bureau of Investigation" Speaker — W. J. WEST Special Agent in charge of Boston, Mass., Field Division, Director — Norman, Alexander, Dean of Min, presiding.

"Sales" Speaker — TAYLOR HARVEY Vice President, Pennsylvania C, Manchester, N. H., presiding.

"Government Aviation" Speaker — LIEUT. J. J. SHEA United States Naval Reserve Aviation Base, Squantum, Mass., E. Howard Shadbolt, Assistant Professor of Mechanical Engineering, presiding.

VOCATION DAYS

William D. (Bill) Whitley sold over 15 million pounds of tobacco last year. It's easy to see that he's an expert who knows tobacco.

It's important to you when he says... "At 14 different markets in Georgia, North Carolina, South Carolina, and Pennsylvania, I've seen Luckies buy the best tobacco. I figure it's good tobacco that makes a good smoke. So my own cigarette is Lucky Strike!"

"I've noticed, too, that independent buyers, not connected with any cigarette manufacturer, smoke Luckies more than any other brand."

Mr. Whitley is correct. For sworn records show that, among independent tobacco experts, Luckies have twice as many exclusive smokers as have all other cigarettes put together. Remember: The man who knows tobacco best smokes Luckies 2 to 1.

HEATING SYSTEM

The Underworld

Two white-masked figures move with fiant whisking sound through the murky gloom of a subterranean passage. As they go, a choking scent of tobacco wafts after them. Suddenly their eyes bloodshot. Suddenly their power is weakened before being painted.

The far-spaced electric lights in the tunnel make it difficult to see these valves. The far-spaced electric lights in the tunnel make it difficult to see these valves. The far-spaced electric lights in the tunnel make it difficult to see these valves.

One must be careful to point out the difficulties in the letter of application resulting from a letter of application resulting from a letter of application resulting from a letter of application.

WILDCATS CONQUER CONN. STATESTERS IN LAST MINUTE SPURT

Duane, Plant, and Hanson Back Basket in Final Half-Minute of Hard Game

While Duane, Plant, and Hanson each made a basket in the last 30 seconds of play, the basketball team pulled away from the Staters Friday, to win, 63-57, in a thrilling last-minute spurt. The game had been tied with seven goals each at the half, but this time they reversed the usual form, and won.

The winning goal was made by Duane, who had the ball, which was passed to Plant, who, in turn, passed it to Hanson. The latter, with a fine shot to the right, gave the Wildcats the lead, and they held on, to win the game.

BRIDGETON SUCCEEDS TO RAMPSHOF FROG

The New Brunswick freshman basketball team defeated the Springfield College quintet straight victory Tuesday evening, downing Bridge- ton, the weakest team it has faced this year, 52-41, in a thrashed, hard-fought contest. Continuing their good form, they have made their best performance thus far this season in turning back the squads.

The Wildcats stand a good chance of staying in the first place by beating the Nutmeggers and a decisive victory over the Huskies will establish what chances the Wildcats stand is somewhat doubtful because of the scanty record in recent years.

The ski team departed today for the northeastern State in first style, and they deserve a great deal of credit. Connecticut has a strong team, which rolled away from him and won the New Hampshire title.

According to the latest standing of the New Hampshire boys, they have lost only to M. I. T. and B. U. if they have made up for it in a large part by work and defeat these four teams, they travel to Boston with the varsity form, as in other colleges, and when they held throughout the game, except the New Hampshire team received the ovation and applause.

The day for the Yacht Club meetings at which a shore school is to meet at which a shore school is to meet at the Dartmouth Carnival.

The last instant spurt by the New Hampshire boys clinched the hard-fought victory in the last 30 seconds of play, but this time they reversed the usual form, and won. The winning goal was made by Duane, who had the ball, which was passed to Plant, who, in turn, passed it to Hanson. The latter, with a fine shot to the right, gave the Wildcats the lead, and they held on, to win the game.
