## Congrats, Seniors!

The end of the year is upon us, and our exalted seniors are reaching the end of their long journey through UNH. We know for a fact that there are some people being graduated, and not all grad students; all of which goes to prove that it is not impossible to get one's degree, no matter how improbable this may seem during various stages of one's education.

Seriously, however, The New Hampshire wants to take this opportunity to congratulate the members of the graduating class on their coming commencement. We wish the graduates of the Class of 1947 all the best of luck, and extend to them our heartiest best wishes for whatever comes next.

- 30 -

We wish to express our deepest appreciation and thanks for the cooperation of the administration, the faculty, the student body, the print shop, the townspeople of Durham, and all the members of our staff, throughout the past semester.

We have done our best to fulfill our function of furnishing a complete news coverage of the campus and its activities, and acting as the unofficial voice of the student body. In recent issues we have tried to throw some light on the sometimes mysterious workings of the University authorities. We sincerely hope our criticism has been constructive in the main and has served a useful purpose.

We'll be back again in the fall with a bigger and better paper. Until then, happy holidays, amigos!

## Letter to the Editor

To the Editor:

May I commend you on your ability to copy the habits of many large newspapers (of the Hearst tradition)? You have an amazing talent for printing only those things which "prove" your point, or for twisting the facts so that they appear to prove your point.

Last week, I wrote you in an attempt to straighten out the confusion in your article which you chose to call "Cut Bill Tabled." Of course, it wasn't printed, but you did say, "There have been rumors around campus that the facts of our campaign story were inaccurate. If this is true, we can only say that lack of cooperation of the administration, secret meetings of the University Senate, and lack of publicity concerning Senate activities was responsible."

In a word, "NUTS." It's your own fault. In the first place, you seem to have confused the discussion at the A.A.U.P. meeting with the Senate meeting which worked on a possible change in the attendance rule. No New Hampshire representative was present at the A.A.U.P. meeting which you have mentioned. The girl who was supposed to go couldn't attend and asked me to be present at it to take notes on the happenings. I did, and gave them to her afterwards. I never saw the story to correct it until it appeared. Some of the phrases put into quotation marks in the story were not the remarks of the speakers but my paraphrases quoted. Each succeeding article on the subject has gone farther from the facts. You seem to have the impression that the A.A.U.P. meeting was formal conclave of the members of the University's law-making body. It wasn't; it was an informal meeting of men who are engaged in the same occupation. The entertainment of the evening was a debate between Professors Maynard and Rideout on the advantages or disadvantages of the British and American systems of college attendance. Dr. Daggett

## COMPENSATION

Man-made hand of shiny steel  
Precision-ground;  
Quick flashing in the molten sun.  
A robot thought  
Stolen from some unseen world.  
A minor move for a major end.  
Vernon L. Ingraham

was the moderator of the evening and had nothing to say pro or con. The purpose of the bill as expressed by a member of the administration, when that topic came up in the discussion afterwards, was to change the present rule to make it more easily administered. All the opinions expressed were personal — not official or professional — except in the case of the two debaters who had evidently been assigned sides to talk from.

I hope that by your muddling you haven't ended our chances of having the present rule changed.  
Joan Cooper

## TRUTH

Come down from your ladder scientist!  
Leave the frothing flasks and foaming vats  
And answer this  
Have you found truth?  
"No, but on the track."  
I see!  
Should I wish him success?  
Do people want the truth?  
And you, Euclid!  
So, you've looked on beauty bare.  
Tell me what was it like;  
A circle that symbolized  
Continuity; plain, symmetrical?  
Symmetry's not truth  
Don't lie to me!  
Symmetry! Man's shoddy figment of perfection  
"My dear, the room's not balanced."  
Do you think he's found truth?  
You don't know?  
Ah! this age of uncertainty.  
Vernon L. Ingraham

The greatest burdens are not the gainfullest.

Items of Interest to Students of Science and Engineering

## Explosives—an essential industrial tool

INDUSTRIAL explosives are as much of a yardstick of industrial progress as sulfuric acid. They are involved in the fabrication of nearly all the products used by man. This year the United States will use over 500 million pounds of industrial explosives.

The technical problems that confront the explosives industry are many and varied. A measure of this is the fact that the Du Pont Company manufactures about two hundred dynamite formulations, each intended to do a different job, from the slow heaving action of blasting coal to the rapid, violent shattering necessary for a hard ore. Ranging between these two extremes are a large number of intermediate grades, including explosives especially formulated for agricultural work, seismic prospecting for oil, submarine blasting—right down to the tiny charge used in an explosive rivet.

**Studies in Laboratory and Field**  
One of the first industrial laboratories for chemical research in the United States, the Eastern laboratory of the Du Pont Explosives Department has nearly two hundred chemists, engineers, physicists and assistants. There, methods have been developed for measuring the power of explosives, the degree to which they shatter or pulverize various materials, their water resistance, their safety characteristics when exposed to shock or flame, the composition of the gases they produce, etc. As a result of studies of the influence of various factors on dynamite performance, it has become possible to formulate an explosive to meet practically any blasting condition.

In keeping with these improvements, the application of explosives has reached a new level of efficiency. Technical service men, usually mining engineers or

Frank A. Loving, Chemical Engineer, Texas A & M '41, prepares to fire an explosive charge into a chamber of methane or dusty air to test safety under conditions found in coal mines.

A. L. St. Peter, Princeton '37, supervisor blasting operation Susquehanna River Project, lowers a 5 1/2 inch "Nitramon" Primer into one of 600 drill holes preparatory to blasting a pipe line ditch.

civil engineers, aid consumers in the selection and use of explosives. They also work closely with research men in solving unusual problems encountered in the field.

**Research—Path to Progress**  
A few of the results gained through research are: (1) lowering of dynamite freezing points by nitrating ethylene glycol along with glycerol to diminish the hazards of thawing frozen dynamites. (2) Production of less hazardous dynamites by substituting ammonium nitrate partially for nitroglycerine, in spite of the greater hygroscopicity and lesser explosive power of the former. This resulted in dynamites less hazardous to manufacture and use. (3) Introduction of "Nitramon," a blasting agent containing a high percentage of ammonium nitrate as its major ingredient. It is equal in strength to the most powerful dynamites commonly employed and yet is by far the safest blasting agent available. (4) Development of explosives with a minimum of noxious gases for use in confined areas. (5) Numerous improvements in the composition, manufacture and design of the blasting caps which set off the main charge.

Aside from these developments in explosives and blasting supplies, there have been many accomplishments in chemistry and engineering associated with such projects as the oxidation of ammonia to nitric acid; manufacture, granulation and drying of ammonium nitrate; substitutes for nitroglycerine and ethylene glycol dinitrate, concentration of nitric and sulfuric acids, and a host of other subjects.

### Questions College Men ask about working with Du Pont

#### WHAT ARE THE OPPORTUNITIES FOR RESEARCH MEN?

Unusual advantages in facilities and funds are available to men qualified for fundamental or applied research. Investigation in the fields of organic, inorganic and physical chemistry, biology, parasitology, plant pathology and engineering suggest the wide range of activities. Write for booklet, "The Du Pont Company and the College Graduate," 2521 Nemours Building, Wilmington 98, Delaware.

### Baseball Averages Put Clark Ahead

The batting and pitching averages for New Hampshire's baseball nine were anything but spectacular, but the season was not as bad as the figures indicate, because the Swaseymen won three out of their last four games after a disastrous five game losing streak.

Haller had the best pitching average with two wins and two losses and also turned in a three hitter against B.U. for the outstanding game pitched.

Sam Clark batted .333 thanks to his perfect day against Boston Col-

lege last Saturday. Dupont and Massucco were the only other regulars to bat over .300, except for "slugger" Haller who went 3 for 9 for a .333 average.

The vital statistics:  
**BATTING**  
Beaudin .200; Bobotas .147; Burby .171; Clark .333; DiRubio .100; Dupont .300; Fortire .167; Francoeur .275; Haller .333; Krupa .188; Marrotte .000; Massucco .325; McCullough .158; Meserve .100; Standish .000; White .286.

**PITCHING**  
Haller 2 wins 2 losses .500; White 2 wins 3 losses .400; Standish 0 wins 2 losses .000; Beaudin 0 wins 0 losses .000.

### TRACK MEET (continued from page 1)

Paul Sweet's runners were eliminated in the trials as had been expected with the exceptions of Dick Sweet and Frank Barndollar who survived until the finals in the 440 and 220 respectively.

Besides Boo Morcom's two records, the only other mark shattered was in the 440 when George Bullock of R. I. beat former Wildcat, Royce Crimmin now wearing the colors of Brown, in 48.4 seconds.

**NEW ENGLAND SUMMARY**  
Rhode Island — 4½  
Brown and N. H. — 24  
Wesleyan — 14

Summary:  
120-yard high hurdles — 1. Edward Dahl (R.I.); 2. Richard Crisley (B.R.); 3. Joseph Leclair (M.E.); 4. Henry Edwards (Wes.); Time 14.8 seconds. (Equals field record).

100-yard dash — 1. William Brooks (Wes.); 2. Carlisle Parsons (B.C.); 3. Philip Barnhart (Tufts); 4. John Collins (Tufts); Time 9.9 seconds. (New field record).

One-mile run — 1. Robert Black (R.I.); 2. Josh Tobey (B.R.); 3. Daniel Cashman (R.I.); 4. Payson Kenyon (N.U.); Time 4 min. 20 sec.

440-yard run — 1. George Bullock (R.I.); 2. Royce Crimmin (B.R.); 3. Harold Ingraham (MIT); 4. Edward Palmer (Tufts); Time 48.4 seconds. (New field record).

220-yard low hurdles — 1. Delmo Albergini (N.U.); 2. Charles Kirkles (T.); 3. Edmund Petrelli (R.I.); 4. Richard Crossley (B.R.); Time 24.1 sec.

Two-mile run — 1. Robert Black (R.I.); 2. Silas Dunklee (UNH); 3. Henry Yordan (W.); 4. Harold Knapp (MIT); Time 9:50.8 min.

220-yard dash — 1. Phillip Barnhart (T.); 2. William Brooks (W); 3. Harold Ingraham (MIT); 4. Ralph King (B.C.); Time 21.5 sec.

880-yard run — 1. Joseph Hall (R.I.); 2. Robert Knowles (S); 3. James Taylor (B.C.); 4. William Billingham (B.U.); Time 1:55.4 min.

Hammer throw — 1. Bob Bennett (B.R.); 2. Ed Styrna (UNH); 3. Bob Miller (R.I.); 4. George Marsankis (M.E.); Dist. 152 ft. 11¾ in.

Broad jump — 1. A. Richmond (UNH); 2. Dick Lopes (UNH); 3. Ray Dwyer (R.I.); 4. Walker Heap (B); Dist. 23 ft. 8¾ in.

Shot Put — 1. Bob Miller (R.I.); 2. Tony Palmer (H.C.); 3. Bill Morro (B.C.); 4. Paul Flick (B.R.); Dist. 46 ft. 10½ in.

Discus Throw — 1. Don Kornreich (MIT); 2. Rollin Burton (Wes); 3. Bill Morro (B.C.); 4. George Gallogly (H.C.); Dist. 140 ft. ½ in.

### Swaseymen Pound Dartmouth Indians; Gymnasts Victors

Last Wednesday it was raining and the diamond was muddy but it didn't seem to bother the baseball sluggers who pounded Dartmouth into submission 8-5 in a game limited to seven innings by wet grounds. UNH broke a 1-1 tie wide open with more hits in 6 innings than they had made in 9 innings in previous encounters. Quirk, the Indians' pitcher, was scalped into the fifth after two were out. Krupa walked, Bobotas singled, and Clark walked to load the bases. Burby singled in two runs, Massucco singled in two more and Francoeur blasted home the fifth run of the inning.

White had a 6-1 lead which was reduced to 6-4 in the Dartmouth 6th when Scandore hit a homer that just cleared the fence in left field. However, two singles, a walk and a costly error gave UNH an 8-4 lead going into the seventh. Dartmouth scored a run then when White forced in a tally with a walk and made the Wildcat fans sweat. However, he struck out the next batter and nailed down his first win of the campaign.

The two game winning streak was shattered last Friday when a classy Springfield nine crushed the Wildcats 7-1 behind the hurrying of Baker. Haller was not the same pitcher he was against B.U., and

Javelin Throw — 1. Milton Hodash (B.R.); 2. Earl Vickery (M.E.); 3. Bib Hanna (R.I.); 4. Ken Burkhardt (R.I.); Dist. 186 ft. 10½ in.

High Jump — 1. A. Richmond Morcom (UNH); 2. Dick Phillips (B.R.); 3. Tie between Warren Willite (N.U.) and Charles Spielberg (R.I.); Height 6 ft. + 11-16 inches. (New field and meet record).

Pole Vault — 1. A. Richmond Morcom (UNH); 2. Arthur Sherman (R.I.); 3. Tie between John Pennington (SPR) and Bob Emerson (M.E.); Height 14 ft. (New field and meet record).

### UNH Nine Outscores Boston College Eagles

By George Haselton

The Wildcat baseball team ended their season on a happy note last Saturday by defeating the Eagles of Boston College 7-4 behind Fred White at Brackett Field. It was "Sam Clark Day" and he responded by getting three straight singles and batting in two runs. However, Sam was not the hero of the game.

In the fifth inning with the score tied 2-2 O'Brien, the enemy hurler, walked two batters and then passed Burby intentionally. Up came Massucco who had banged into a double play in the third. Art clubbed the ball into deep center field for a mighty game winning triple and three runs. With Dupont at the plate Massucco broke for home and scored the fourth run of the inning as the center fielder grounded out. That was how UNH tallied four runs on one hit.

Two singles, a passed ball, and a steal had given the Eagles a fluke run in the first, but the Wildcats clawed back with two in their half of the inning. Krupa walked, Bobotas sacrificed, and Clark banged him home with a one-bagger. Burby hit a routine grounder down the third base line but Murphy, the B.C. infielder, threw the ball into right field and Clark went to third and Hal to second. Then pitcher O'Brien uncorked a wild pitch and Sam trotted across to give UNH a

retired in the fourth after being hit for four runs and three hits. UNH loaded the bases in the third and still only managed to score one run on Massucco's hit as Bobotas was cut down at the plate on a fine throw.

A three-base error by Massucco on a long fly paved the way for two more Springfield runs in the 6th. Baker completely mastered the Wildcat batters holding them to one hit in the last six frames. Beaudin pitched the last three innings for UNH and only gave up one hit — many grand stand managers have wondered why he hasn't been given a starting assignment — he deserves it.

Dartmouth 1 0 0 0 3 1-5 8 3  
UNH 1 0 0 0 5 2 x-8 11 1  
Game called in 7th - wet grounds.) White and Burby; Quirk, Amircault (6) and Young. Home run, Scandore.

Springfield 2 0 2 0 1 2 0 0-7 8 2  
UNH 0 0 1 0 0 0 0 0-1 5 4  
Baker and Howell; Haller, Standish (4), Beaudin (7) and Massucco, Marrotte (7).

Every one to his liking, as the old woman said when she kissed her cow.

2-1 lead. However, B.C. deadlocked the game in the fourth when O'Sullivan tripled and scored on Clasby's single. After the big UNH fifth, B.C. pecked away for a tally in the 6th when a walk and a double followed a UNH twin killing. (White was extremely fortunate to get out of the inning with only one B.C. run.) Sam Clark singled home Krupa, who had hit safely, for a UNH run in the 6th and a 7-3 lead.

With the game seemingly tucked away King batted for O'Brien in the B.C. 7th and blasted the first ball pitched 350 feet onto the railroad tracks beyond left field. This home run failed to disturb White who coolly retired the next three batters.

Everyone nearly had heart failure when B.C. loaded the bases in the 8th on two walks after Krupa had committed a two-base error. However, White struck out two men and the game was iced.

In the ninth O'Sullivan's Irish temper exploded on another Irishman, the umpire. He squawked vehemently claiming a hit to left was fair. He got his revenge when he hit a meaningless single a moment later, but was left to pout on the bases.

## Musical Talent Combos Give Campus Four New Orchestras

By Bill Neville

During the past school year some of the finer musical talent on campus has asserted itself in the form of four excellent dance orchestras. In their several local appearances The Wildcats, Steve Haynes' Band, The College Club, and Dave Wells' Quintet have won themselves many enthusiastic supporters. We have gathered a few interesting facts about each band from its leader and have learned no small amount in the process.

### THE WILDCATS

Bearing a name passed down by several other reputable campus dance bands, and including in its ranks several of the pre-war "Cats," the 17 piece New Hampshire Wildcats were reorganized last fall under the leadership of Andy Hastings. Heeding the word received from an informal campus poll, they selected music that is largely slow and dreamy, but have kept an adequate supply of jump tunes for occasions when the dancers voice a preference for them. Their debut at Mortar Board's Cauldron Dance was a decided success; and their subsequent appearances at Psych Club's Crystal Capers, Newman Club's Christmas Dance, and the Pan-Hellenic Ball were equally well received.

Ted Hastings, the vocalist, who is not related to Andy, assists him up in front of the band. Bill O'Meara leads the sax section, which also includes Greg Prior, Dick Gallagher, Art Riel, and Dave Barker. The trombone section is composed of Bob Jones, Ken Fish, and Norm McKinney. Stan Youngquist, Dick Mansfield, and Bruce Clarke make up the trumpet department. In the rhythm section Bill McKay is at the drums, Doug Nichols plays the piano, Rog McPherson handles the bass fiddle, and the guitar player is Don Clough.

### STEVE HAYNES' BAND

Organized early last fall as a ten-piece orchestra, Steve Haynes' Band has since grown to its present strength of 5 saxes, 3 trumpets, a trombone, and a 3-piece rhythm section. Their music library is made up of both special and stock arrangements. Sharing ownership of the band with Steve as co-owners Franny Whelan and Bob Haley who were once with the pre-war Wildcats. The band played for the Yacht Club Ball and the Gay Nineties Dance and has been highly successful in securing of campus bookings. They have appeared at Rockingham Ballroom and now play a regular weekly engagement at Portsmouth. They will start a series of weekly broadcasts over WHEB soon, but the starting date has not yet been decided.

Members having notable past experience are Henry Dumaine, who once played lead trumpet for Billy Note; Arthur Simpson, saxophonist who played three years in the Third Air Force Band; and Roger Snow, trombonist, who led a band of his own while in the army.

### THE COLLEGE CLUB

Bill O'Meara, leader of the College Club Orchestra, calls it a "combo" (a small combination).

Originally organized last fall as a supplement to the Wildcats, it has since gone out on its own. It specialized in standard favorites arranged especially for dancing. Its purpose has been to fill engagements for which a larger band would be impractical. The band's popularity on campus was established by its performance at the Cotton Ball, and it has been favorably received at its recent engagements in Boston, Manchester, Portsmouth, and other nearby localities.

Bill, who played with one of Captain Glenn Miller's bands early in the war, plays alto sax and clarinet. A complete roster includes many staunch members of the Wildcats: Don Clough, piano; Stan Youngquist, who has played lead trumpet with some of New England's leading bands, trumpet; Bill McKay, drums; Dave Wells, bass; and Dave Barker and Dick Gallagher, saxes.

### DAVE WELLS' QUINTET

Dave Wells' quintet first appeared at the East-West House Dance and was warmly received. Recently, they have followed up with a successful engagement at the Cocheo Country Club in Dover. It is essentially a "jam" outfit which plays completely "ad lib," styling its music to suit the on-the-spot preferences of the dancers.

This five-man group features Henry Dumaine, who has been mentioned above, on the trumpet, and Bruce Luneau on the tenor and alto saxes. Bob Haley does piano chording and solo work. Justin Horan is the drummer, and leader Dave Wells helps to keep things on the beat with his bass fiddle.

\* \* \*

Each of the bands has its troubles in arranging suitable times and places for rehearsals. Academic and family responsibilities cause a conflict of schedules which is difficult to iron out; and the Wildcats, who use the acoustically poor basement of Phi Mu Delta, are the only group who have found a regular place in which to rehearse.

We have tried to set forth as accurate and uncolored a picture as possible. We believe all the bands to be worthy of our support, and hope to see them all back next year filling the need that the campus has for them.

### UNH Religious Council Sponsors Clothing Drive

Once more boxes will be placed in dorms for cast-off clothes. The University Religious Council decided to end the year with a drive because many students, while packing to go home, uncover a lot of clothes they can no longer use. This is not only to remind students of the hardships the rest of the world is suffering and their consequent double responsibility towards the less fortunate, but also to offer them a service. Get rid of unwanted clothes and get them over where they are needed.

- A girl - a date
- A car - out late
- A class - a quiz
- No pass - gee whiz!

## Name New Editors To Fill Vacancies

Paul Briand of Phi Delta Upsilon fraternity, co-editor of the Greek World column in The New Hampshire and News Editor of this official undergraduate paper, was this week named Managing Editor to replace C. David Oliphant, who has resigned due to the anticipated pressure of additional credits next fall.

The promotion of Briand left vacant the post of News Editor, to which Richard F. Carpenter was appointed. Leo Redfern, Filler Editor, was made Features Editor in place of Carpenter.

First fall issue of The New Hampshire will roll off the presses on Thursday, October 2.

The better day, the better deed.

## Greek World

By Briand and Cabrera

Well here it is, the last column of the year, and the last column by Briand and Cabrera. We know that you will miss us, and we will miss you. Our successors, Bob Crory and Joan Phenix will be equally as capable if not more so... We have enjoyed putting Greek items in print and under the bludgeonings of ireful readers our heads are bloodied, but unbowed... We want to thank in particular the correspondents from the various houses who furnished us with the items that many people seem to think we pluck out of the thin air. To these behind-the-scenes news hawks we owe our allegiance because without their weekly offerings a column couldn't be written... The songfest in front of T Hall Friday night was very good indeed.

Kappa Sig and Chi O get our vote as the best of the evening. Some people sure can sing. Phi D U's parody was well appreciated by many and it seems that the Alpha Xi's were good sports about it. As we came back from church Sunday morning the Alpha Xi's greeted us with the cheeriest and most musical good morning that these ears have heard in many a moon. Thanks, kids, you could have knocked us over with a feather — not to be confused with a baseball bat... Don Park of PMD gave "Wakie" the ring last Sunday night. She's Esther Wakefield of South. Don is the lemon from Lyme... Also engaged is Eddie Miles of PDU to Dorothy McCann of Regis College... It is currently rumored that Willie Sheridan of TKE is in love again... Sigma Betas are still receiving compliments for their swellelegant dance after the prom... Freddy Scannell of Kappa Sig has

joined the list of regular commuters to Chi O... A lone Sigma Bet went to a beach party and found that all he needed was a cold drink or a warm woman, and couldn't find either... Congrats to Al Britton of Kappa Sig upon his engagement to "June Allyson," and upon his Presidency of the NH Varsity Club... Fellow fourth-estater George Buckley of SAE is engaged to Dorothy Chase of Congo South. Our felicitations... A certain person, no name mentioned, just the initials G.P., certainly knows how "to break up" furniture... Luke Hamlin of PMD had a personal chauffeur Saturday night — a gal from York with a Lincoln Zephyr. Luke is just wild about shiny cars... Don Mullen's TKE pin has come to rest on Miss Mary Sullivan of Concord... To everyone, good luck in your finals. See you next year. Until then Au Revoir...

# TRIPLE SMOKING PLEASURE

"CHESTERFIELD'S MILD COOL FLAVOR GIVES ME COMPLETE SMOKING SATISFACTION."

*Charles Boyer*

CO-STARRING WITH INGRID BERGMAN IN "ARCH OF TRIUMPH" ENTERPRISE STUDIO'S GREAT MOTION PICTURE OF ERICH MARIA REMARQUE'S GREAT NOVEL
