---

The Department of Family Studies' Marriage and Family Therapy Program, through the Marriage and Family Therapy Center directed by Barbara Frankel, would like to extend its services to the University community during this critical time.

In recognition that students, families, couples and individuals may be in need of assistance, we are offering the opportunity for crisis consultation at the Marriage and Family Therapy Center on campus. People who are interested may contact Melissa Leavy and Janet Boyle at 862-2134 to arrange for a same-day appointment.
