The University of New Hampshire at Manchester welcomes Tim Chadwick to the computer science faculty. Chadwick will offer his computing expertise to students in the [Computer Information Systems, Computer Science & Entrepreneurship](#) and [Analytics](#) bachelor's degree programs, as well as the [Information Technology](#) master's program.

Chadwick's background is in computer science and entrepreneurship with experience in manufacturing, media, education, bioinformatics and emerging internet performance. Most recently, Chadwick was principal engineer at Dyn, a cloud-based Internet Performance Management company. Over six

years, he helped Dyn grow to ultimate Oracle acquisition by leading the charge on all things data and database.

Chadwick's research interests include graph theory, operations research and the connections between bioinformatics and public health. Currently, Tim pursues these research interests with Steve Strassman, a research scientist at the Wyss Institute.

Chadwick is also passionate about building sustainable, diverse and healthy communities. He co-owns CrossFit Amoskeag where he spends time developing new programs, technique for new athletes and infrastructure for advanced athletes. He is also actively pursuing certifications from the YogaLife Institute in Exeter, N.H.
