DURHAM, N.H. – The University of New Hampshire will host Patagonia’s spring 2017 “Worn Wear College Road Tour” Tuesday, March 21, 2017, as part of its ongoing efforts to get the community to rethink its relationship with material belongings and to consider what role the business community can play in addressing major environmental issues such as waste.

The tour includes a Reuse and Repair Fair from 10 a.m.-5 p.m. in the Mills Courtyard as well as a keynote address and panel discussion from 5-6:30 p.m. in the Memorial Union Building’s Granite State Room. The evening event will be followed by a reception and is free and open to the public, but pre-registration is required (https://urldefense.proofpoint.com/v2/url?u=https-3A__unh.az1.qualtrics.com_jfe6_form_SV-5F71l6Lnz8A2lf3XD&d=DwMFaQ&c=c6MrceVCY5m5A_KAUkrdoA&r=43nhFYk7Lgb9QdQ_EwZ2RfOaAn9EEDYKO5BGcXFWdG0&m=ORovg3koiCz0DUA6UcmdBbsN0i7ur)

The fair encourages people to move away from wastefulness by valuing durable items, and emphasizing the option to repair the products they buy. Patagonia’s Worn Wear Truck will offer free repairs of used clothing and outdoor equipment throughout the day. Students, faculty, staff and local community members are invited to bring sporting goods, camping gear, and other used clothing items in need of simple repair. Other activities include trivia and prizes from Klean Kanteen, a recycled fleece demonstration by Re-Fleece, free drinks from Guayaki, upcycling workshops with student groups, bike repairs, smartphone and iPad repairs and more.

Patagonia’s Director of Philosophy Vincent Stanley will give the keynote address. He will tell the story of Patagonia’s pursuit of environmental and social sustainability. By retracing important junctures and lessons learned, the audience will experience the journey to how Patagonia become one of the boldest and most progressive companies in the apparel industry with regard to environmental initiatives.

Following the speaker, a panel of leading apparel industry experts will discuss the innovative ways sustainable business leaders are reducing their footprint and reshaping the industry.
