NH Small Business Development Center Welcomes Seacoast Business Advisor

Tuesday, March 14, 2017

DURHAM, N.H. – Jeff Seligman has joined the New Hampshire Small Business Development Center (NH SBDC), an outreach program of the Peter T. Paul College of Business and Economics at the University of New Hampshire, as a business advisor in the Seacoast office.

Seligman works with small business clients in Portsmouth, Exeter, Durham and Wolfeboro. His primary advising location is at Portsmouth City Hall Municipal Complex 1, and he can be reached at (603) 842-8341 and jeffrey.seligman@unh.edu.

Seligman has more than 30 years of experience both in emerging and large corporate enterprises. Most recently he was founder and chief consultant at AimJo Management Services, LLC, where he provided financial leadership and operations management services to emerging enterprises, and served as part-time CFO for many of the company's clients. His background includes management and financial positions at TokenCount Systems Corporation, Think Outside, Inc., Compaq Computer Corporation, and more than 20 years at Digital Equipment Corporation. He earned his BS in business administration from Northeastern University and his MBA from Western New England University.

The NH SBDC (http://www.nhsbdc.org/) is an outreach program of the UNH Peter T. Paul College of Business and Economics, and a cooperative venture of the U.S. Small Business Administration, the New Hampshire Department of Resources & Economic Development, the University of New Hampshire, and the private sector.

The University of New Hampshire is a flagship research university that inspires innovation and transforms lives in our state, nation and world. More than 16,000 students from all 50 states and 71 countries engage with an award-winning faculty in top ranked programs in business, engineering, law, health and human services, liberal arts and the sciences across more than 200 programs of study. UNH’s research portfolio includes partnerships with NASA, NOAA, NSF and NIH, receiving more than $100 million in competitive external funding every year to further explore and define the frontiers of land, sea and space.
