DURHAM, N.H. - The angel investor market in 2016 saw a decrease in investment dollars and deal size, according to the latest angel market analysis released by the Center for Venture Research at the University of New Hampshire.

Total investments in 2016 were \$21.3 billion, a decrease of 13.5 percent over 2015, and 64,380 entrepreneurial ventures received angel funding in 2016, a decline of 9.5% over 2015 investments. The number of active investors in 2016 was 297,880 individuals, a decrease of 2.3 percent from 2015.

“The change in both total dollars and the number of investments resulted in a deal size for 2016 that was smaller than in 2015,” said Jeffrey Sohl, director of the UNH Center for Venture Research. “While these data indicate a cautious retreat in terms of dollars invested and deals, angels increased their appetite for seed and start-up investing, and the associated risk.”

The center’s analysis found that angel investments in the seed and start-up stage increased in 2016, with 41 percent of angel investments in the seed and start-up stage, compared to 28 percent in 2015. Angel investments continue to be a significant contributor to job growth with the creation of 263,950 new jobs in the United States in 2016, or 4.1 jobs per angel investment.

The full 2016 Angel Market Analysis is available at https://paulcollege.unh.edu/sites/paulcollege.unh.edu/files/webform/2016AnalysisReportFinal_0.pdf.

The Center for Venture Research has been conducting research on the angel market since 1980. The center’s mission is to provide an understanding of the angel market through quality research. It is dedicated to providing reliable and timely information on the angel market to entrepreneurs, private investors and public policymakers.

The University of New Hampshire is a flagship research university that inspires innovation and transforms lives in our state, nation and world. More than 16,000 students from all 50 states and 71 countries engage with an award-winning faculty in top ranked programs in business, engineering, law, health and human services, liberal arts and the sciences across more than 200 programs of study. UNH’s research portfolio includes partnerships with NASA, NOAA, NSF and NIH, receiving more than \$100 million in competitive external funding every year to further explore and define the frontiers of land, sea and space.
