

Correction to “Trends in wintertime climate in the northeastern United States: 1965–2005”

Elizabeth A. Burakowski, Cameron P. Wake, Bobby Braswell, and David P. Brown

Received 23 December 2008; published 31 January 2009.

Citation: Burakowski, E. A., C. P. Wake, B. Braswell, and D. P. Brown (2009), Correction to “Trends in wintertime climate in the northeastern United States: 1965–2005,” *J. Geophys. Res.*, *114*, D02117, doi:10.1029/2008JD011668.

[1] In the paper “Trends in wintertime climate in the northeastern United States: 1965–2005” by E. A. Burakowski et al. (*Journal of Geophysical Research*, *113*, D20114, doi:10.1029/2008JD009870), an erroneous sentence appears in the abstract. “The regional average reduction in the number of snow-covered days in winter (–8.9 d/decade)

is also greatest during the months of January and February” should instead read as follows: “The regional average reduction in the number of snow-covered days in winter (–3.6 d/decade) is greatest during the month of January (–1.5 d/decade).”
