Repository Citation
RISK Editorial Board, Author Index to Volume Three, 3 RISK 371 (1992).

This Index is brought to you for free and open access by the University of New Hampshire – School of Law at University of New Hampshire Scholars' Repository. It has been accepted for inclusion in RISK: Health, Safety & Environment (1990-2002) by an authorized editor of University of New Hampshire Scholars' Repository. For more information, please contact ellen.phillips@law.unh.edu.
The Supreme Court as Risk Manager: An Analysis of Skinner
Examines the Supreme Court's approval of collecting blood and urine samples from railroad employees and concludes that even the dissenters emphasized technical issues over intangible values underlying privacy rights.
Todd F. Volyn, James F. Mogan & Lisa M. White . . . 243

Testing the Role of Technical Information in Public Risk Perception
The authors' find that providing more technical detail about such matters as health effects, may not be as useful as, e.g., keeping citizens current on officials' strategies for dealing with problems.
Branden B. Johnson, Peter M. Sandman & Paul Miller . 341
